WILSON REGIME

CONDITIONS ARE SOUND, CAPITAL WAITING

Economic Laws, He Says, Are Strong er Than Ordinary Statutes and Change Little by Legislation.

> Special Dispatch.) LUNDON, August 2

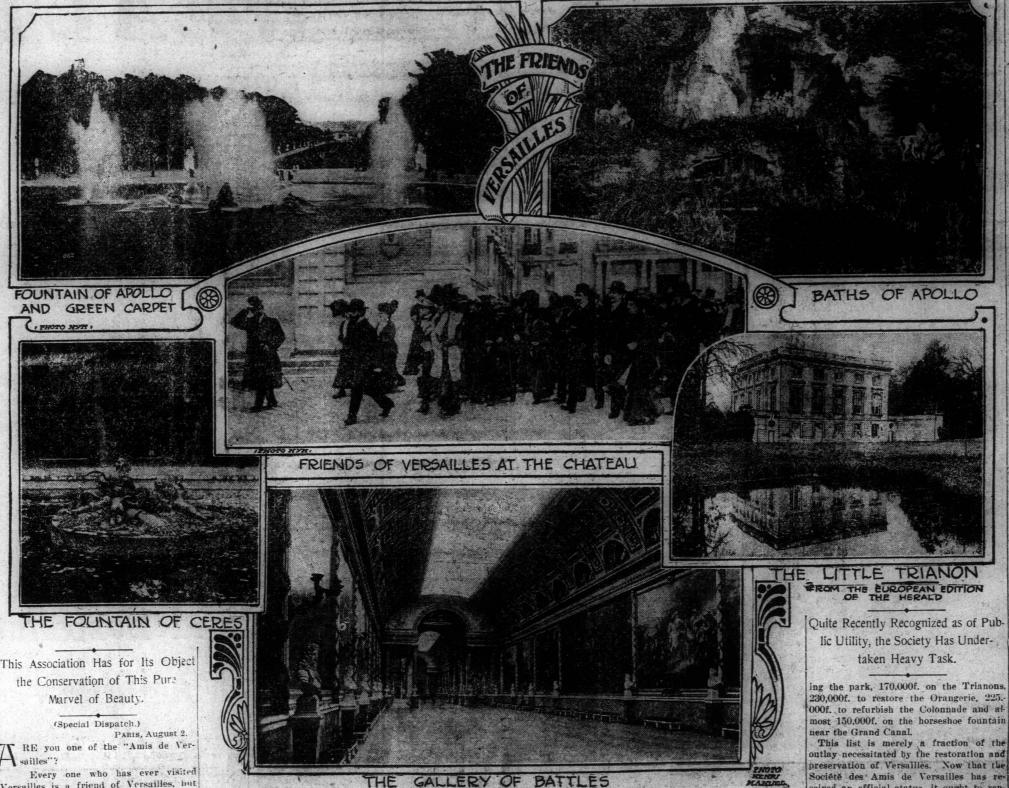

OLONEL GEORGE HARVEY, Harper's, who arrived here recently and is staying for the month of Au gust at Claridge's, was asked yesterday for his views on the Wilson administra-

"It is a case, as Disraeli said of the gentleman about to take a second wife, hope over experience," he said. "What is the nature of the hope?" "That the administration will not be signalized by history as the initiator of class legislation in the United States." Asked about business conditions and the tariff, Colonel Harvey said :--

"Fundamental conditions in America are sound, but capital awaits the adjustment of the relations of government to business. That was inevitable. Economic laws are stronger than ordinary statutes and are affected little by executive mandate. Adjustment of the complicated relationship of manufacturing industries to reduced tariff duties cannot be made in a week or, metimes, in a year. Nor can it be wrought out successfully by fine spun theory. Practical experience, covering sufficient time to determine the new re lative positions of supply and demand. affords the only possible solution

"The enactment of a tariff measure such as that now pending necessarily involves a certain period of industrial depression as a consequence of the inevitable uncertainty of experimentation. It is idle to maintain the contrary and it is equally shortsighted on the part of those in authority to hold out hopes that must, in the light of all experience, prove to be false and consequently disappointing. Far better to be frank 77 RE you with the people and rely upon their good judgment to recognize that so seri- H sailles" ous an operation, however essential to

ultimate health and prosperity, cannot Versailles is a friend of Versailles, but be performed without allowance of time not every friend of Versailles is one of for resuscitation.

"That is the true and sure way to put If you are not one of the latter it is re-and legacies and to participate with the It is easy to become a member or a a board, formed of a president, five vice port to the State. again to become a common, not to say the commonest, form of sport, as it once was. I can say positively that such a

"The general enclosure of the whole of England, save only the various tracts of lowns, renders it impossible to practise falconry except in a few parts. The men who happen to delight in this sport, and also to live in a country where they are able to practise it, are few, while those who are so fond of it as to leave home for certain seasons and go to a suitable ountry for falconry are fewer still.

"Moreover, in these days of hurry and curry big bags and rapid locomotion an old world sport which requires time and infinite patience, and is one of the most difficult to succeed in which man has even attempted, is not in accord with the prevailing temperament of the modern sportsman, who wants everything made easy for im and looks for large results in a brief
