RECORDS OF HUN ATROCITIES ARE KEPT IN GOOD PRESERVATION

Facts Embodied in Report of Dr Hillis Some Which Make the Blood Curdle. —Others That Dare Not be Presented in Words

New York, Sept. 26.—The Crimes and Atrocities of Germany as the logical and inevitable result of the German philosophy of Militarism" was the topic on Sunday of a sermon by Dr. Newell Dwight Hillis, the first of a series of six sermons, in Plymouth Church, based on observations made for the American Bankers' association in France, Belgium and England during July and August, 1917. He has documents proving 1,000 cruel acts.

No Question of Cruelty "Every American who has passed through France and the edge of Belgium this year," Dr. Hillis declared, "has returned home a permanent and sad man. German cruelty and French agony, have cut a bloody gash in the heart, and there is no Dakin solution that can heal the wound. Here upon this pulpit rests a reproduction of an iron coin given as a token to each German soldier. At the top is a German portrait of Dietz, and underneath are these words: The good old German God."

Records are Preserved. For three years German-Americans have protected that stories of German atrocities far better established than the scalping of the Indians on the Western frontiers, the murders in the Black Hole of Calcutta, or the crimes of the Spanish Inquisition. On a battle line 300 miles in length, in whatever village the retreating Germans passed following morning accredited men hurried to the scene to make the record against the day of judgment.

Atrocities Stenking. "The old catalogue of German atrocities now documented and in the government archives of the different nations makes up the most disgusting page in history. Every solemn pledge that Germany signed a year and a half before at the Hague convention, as to safeguarding the Red Cross, hospitals, cathedrals, libraries, women and children, and unarmed citizens are scoffed at as a "scrap of paper."

These atrocities also were committed not in a mood of drunkenness, nor in an hour of anger, but were organized by a so-called German efficiency and perpetrated on a deliberate cold, precise, scientific policy of German frightfulness. It is not simply that they looted factories, houses, bombed every farm house and granary, left no plough nor reaper; chopped down every pear tree with every grape vine, and poisoned all wells.

The German slaughtered old men and matrons, mutilated captives in ways that can only be spoken by men in whispers. They bombed and looted hospitals, Red Cross buildings; violated the white flag—while the worst atrocities cannot even be named in this mixed audience.

No one understands the German people as well as the Kaiser. Our president, in a spirit of magnanimity patience, and good will distinguished between the Kaiser and the Prussian government and over against them put the German people. But Hamburg's board of trade and certain popular assemblies, would have none of this and in the fury of their anger passed the resolutions saying: "What our government is, we are: Their acts are our acts. Their deeds and

Would Legalize Death For Aged Sir William Osler Advocates Government System of Euthenasia.

By Courier Leased Wire Chicago, Sept. 25.—Legalized euthenasia providing easy death for the aged, infirm and those suffering from incurable maladies, an enlargement of the theory advanced several years ago by Sir William Osler, was advanced yesterday at the opening of the sixth annual convention of the Association of Progressive Medical men and received considerable support. Dr. W. A. Guild, of Des Moines, Iowa, read a paper in which he advocated the establishment of government or state commissions, which should have power to make legal the administering of an easy death to the aged, infirm and those suffering who are absolutely past remedial measures and desire it, and where no responsible person objects.
