CHICAGO MERCHANT MAKES STATEMENT.

After Spending Thousands of Dollars and Consulting the Most Eminent Physicians, He Was Desperate.

CHICAGO, ILLS .- Mr. J. Q. Becker, of 134 Van Buren St., a well-known wholesale dry goods dealer, states as follows:

"I have had catarrh for more than thirty years. Have tried everything on earth and spent thousands of dollars for other medicines and with physicians, without getting any lasting relief, and can say to you that I have found Peruna the only remedy that has cured me permanently.

4 "Peruna has also cured my wife of catarrh. She always keens it in the house for an attack of cold, which it invariably cures in a very short time."

The Age of Steel. The substitution of steel for wood goes steadily on. The National Lead Company will pack its white lead in steel kegs, having decided to abandon the use of wooden kegs. This innovation is made because the company has concluded that steel kegs will have many advantages over the wooden kegs. In the first place the steel package does not absorb the oil from the as porous wooden packages do, and there is therefore no drying and caking of the lead around the edges, making it possible to remove every particle of white lead easily from the teel keg. The new steel kegs also will be much lighter, as well as being stronger than the wooden ones, and this will effect a saving in freight charges. Taking up less room than the wooden kegs, the new steel package also will save storage space.—Chicago

A Sure Corrective of Flatulency.— When the undigested food lies in the stomach it throws off gases causing pains and oppression in the stomachic region. The belching or eructation of these gases is offensive and the only way to prevent them is to restore the stomach to proper action. Parmelee's Vegetable Pills will do this. Simple directions go with each packet and a course of them taken systematically s certain to effect a cure.

"Its very simple, after all , to tell where the cars will stop.' 'I can't see it that way."

SANATIVE ANTISEPTIC SHAVING

Not only is Cuticura Soap, assisted by Cuticura Ointment, unrivalled for preserving, purifying and beautifying the skin and hair, but it is a luxury for shampooing, bathing and especially for shaving. It possesses in mod ified form the medicinal, emollient, sanative and antiseptic properties of Cuticura Ointment, while supplying a firm, moist, non-drying, creamy and fragrant lather. After shaving, and before bathing the face, gently anoint the shaven parts with a bit of Cuticura Ointment. This method renders frequent shaving a pleasure and commends itself to men with tender easily irritated skins, and as a preven tive of irritation and inflammation o the hair glands which, if neglected, often lead to obstinate and disfiguring eruptions.

A Philadelphia physician, in de claring that insanity was frequently productive of sound logic tempered by wit, told the story of a patient he once met in an asylum.

He came across this patient while strolling through the grounds, and, stopping, spoke to him. After a brief conversation on conventional topic the physician said:

"Why are you here?"
"Simply a difference of opinion," re plied the patient. "I said all men were mad, and all men said I was mad - and the majority won." - Lippin-

Peculiar Lakes.

On the Mangishlak peninsula, the Caspian sea, there are five small lakes. One of them is covered with salt crystals strong enough to allow a man and beast to cross the lake of foot. Another is as round as any cir cle and a lovely rose color. Its banks of salt crystal form a setting, white as the driven snow, to the water which not only shows all the colors from violet to rosy red, but from which rises a perfume as of violets. Both perfume and color are the result of the presence of seaweeds, the violet and the pink.

YET ZAM-BUK CURED HIM

I had been kept in such a constant state of happiness that the night of my grand opera debut seemed like a beautiful dream, writes Marie Rappold. I was eager — not fearful—to come face to face with the audience. Heinrich Conried came to my dressing room. He had promised me a surprise for that night, and there he stood in the doorway in the costume of a chorister, so that he could be near me on the stage. If there was a trace of anxiety left that dissipated it. The months are resorted to the ordinary salves and into the wings. I heard my entrance cue. "Watch the conductor," he whispered. Next moment I was on the stage, Faces everywhere and reaching to high heaven—that was the moment's impression of my first Metropolitan audience.

My dream had come true, and I sang with joy in my heart—a joy that overflowed when I stood dazed and spellbound by the volley of applause and cheers. "Famose!" boomed the voice of Mr. Conried behind me, and I drank life's sweetest draft from the cup of success. The end of the night was like the beginning. I remember it only dimly. But the three weeks of preparation, I shall never forget them.
