Don't fail to attend the grand musical entertainment at the opening of the new St. Joseph's Hall, on Tuesday evening, 24th inst., at 8 o'clock. Supt. Jones remarked Saturday that few people were aware of the fact that glass could be cut with sissors if the glass were held under water. The water prevented vibration of the glass and thus made it impossible for the glass to break. The effect of the water on steel springs was also remarkable. A high tempered spring such as used in gun locks will last for years in the air, but under water the spring would snap to pieces. It is for this reason that low tempered springs of poor quality are used in muskrat traps.

Lawrence Badgley, an inmate of the House of Refuge, appealed to County Clerk Fleming Saturday for sympathy. Lawrence said he couldn't get along at the House of Refuge with some of the other inmates and he had left a good home for good. One man took matches from his pocket and another went into his room. These actions annoyed Badgley, who is a poor unfortunate cripple, and he left. Lawrence said he didn't want to have any trouble and wanted to be good because "if there was a heaven, he wanted to see it."

Despite the disagreeable weather, the moonlight excursion down the river under the auspices of the Park street Methodist church Epworth League Friday evening was run as advertised. Only a small crowd took in the trip and many who would have gone were deterred by the rain which was just about the time the boat was leaving the dock. Messrs. Westman, Will Shillington, Miller and others who had the excursion in charge, say that when all returns are in that the League will not be much behind expenses, but they expect to lose a little.
