THE SUNDAY OBSERVANCE BILL

The Lord's Day bill is passing through great tribulation. Before it was introduced, and for some time after, many delegations came to the Government and to the Lord's Day Committee to ask that it should pass as it stood. But the recent delegations have all been highly critical and most of them adverse. Spokesmen for the railway interests, delegates from certain manufactories, Jews, Second Adventists and other objectors have put in protests. The Minister of Justice, who has charge of the measure, is not resolute. It is understood that this bill was the chief subject of an animated debate in Thursday's caucus of the Liberal party. Judging from the tone of the conversation in that secret session it seems likely that when the Lord's Day bill is brought before the house by Mr. Fitzpatrick it will have been so mutilated that it will be a stranger to

portation Commission; and the second time on the discussion of a bill introduced by the Government for the reorganization of the Montreal Harbor Board, The Conservative member for Simcoe pointed out that the Government has been expending immense sums of money, year by year on railway and canal projects, and in harbor works, without having any consistent plan or policy of any sort as to national transport routes. In the meantime the export of grain from our Northwest through Montreal has decreased, while Buffalo has doubled its grain business in ten years. Canada has poured money into ports that are not on the main traffic lines. The Government has built elevators which have been standing idle for years. Several years ago a commission was appointed to consider and report on this question and as yet no action has been taken, and until a few days ago no report had been received.

The other transportation discussion arose over the Montreal bill, which, by the way, vests in the Government the appointment of three future commissioners who are to fill the places of eleven former unpaid members of the Board, The commissioners that are to be, will receive at least, \$5,000 a year each, and Mr. Brodeur thinks the salary SCOTT & BOWNE, Toronte. Oat. may be \$7,000. The Mainister of Marine was in this connection pressed by Mr. Monk, Mr. Armstrong and Mr. Stockton, to disclose the policy

In "'Way Down East," Manager Wm. A: Brady has met with one of those opportunities that comes to but few, and for which we all are few, and for which we all are anxiously looking. WANTED: A POLICY.

The question of Transportation and Traffic routes must always concern Canadian public men. It came up twice last week in the Dominion House, once on a motion by Mr. Bennett, that the House should deal at once with the report of the Transportation Commission; and the sec-

THEIR SLEEP "I can tell by my little ones' sleep when a cold is coming on" said a mother when speaking of the advance symptoms of colds in children. They toss about, are restless, their breathing is heavy and there are symptoms of night sweats. The next morning I start with Scott's Emulsion. The chances are that in a day or two they are all over it. Their rest is again peaceful and the breathing normal."

Here's a suggestion for all mothers. Scott's Emulsion always has been almost magical in its action when used as the ounce of prevention. Nothing seems to overcome child weakness quite so effectively and quickly as Scott's Emulsion.

CHILDREN, REVOLVER, DEATH. Three-Year-Old Boy Almost Instantly Killed by Little Brother.

Three-Year-Old Bey Almest Instantly Killed by Little Brether.

Kalifax, April 30.—A fatal shooting accident, in which three children agured, took place at Wellington Barracks Saturday morning.

They were the three young sens of Provost-Sergeant Hunt of the Royal Canadian Ragiment. The youngest of the trio, aged 5, was shot in the head and almost instantly killed by a shot from a revolver which, in the absence of their parents from the room, the two elder boys had got possession of. It is not know which of the latter was responsible for the accident, both being terrified at the result, and teiling conflicting stories.

The mother left the children to go to a neighbor's for a moment. Almost immediately afterwards she heard the report of the revolver shot and a child's frightened cry of "Mummy!"

Bunning into the room, the little 3-year-old boy was found lying upon the floor with blood streaming from an ugly wound in the temple, from which
