

MUSIC AND DRAMA

A notable revival of a remarkable play will be presented at the Grand Thursday night when Mr. Tyrone Power and a select company of players will be seen in Charles Rannedy's famous morality play, "The Servant in the House."

It is the first production to be put by Trans-Canada Theatres, Ltd., the newly organized All-Canadian corporation which controls a chain of theatres from the Atlantic Pacific throughout the Dominion.

Theatre-goers will recall the sensation which the play created when it was first introduced twelve years ago. The controversy which arose over the astonishing portrayal of the role of the Drunken Man, by Mr. Power.

The dramatic critics both in New York and in all the principal centres of the population throughout the United States and Canada, agreed that Mr. Power had created a character that was destined to stand out prominently among the most notable of a decade.

The high reputation which this distinguished actor has attained on both sides of the Atlantic has been largely built up through his uncompromising stand against any form of suggestiveness or impropriety upon the stage and his firm adherence to nothing but the highest form of drama.

It is in keeping with the avowed policy of Trans-Canada Theatres, Ltd. that Mr. Power should be presented in such a play as "The Servant in the House," as their initial production in this Dominion.

The cast selected to support the star includes members of the original cast, and among its personnel will be found such players as Mr. Edward Foster, Mr. Harvey Hays, Mr. Walter Edwi, Mr. Harold DeBecker, Miss Alma SShester, Miss Chela Knight and others.

CONVALESCING FROM INFLUENZA

The bracing atmosphere found in Algonquin Park is just what is needed for those convalescing from influenza or those who are in need of a rest and recuperation. The Highland Inn offers comfortable accommodation at reasonable rates. Apply any Grand Trunk Agent for descriptive booklet or write Mr. N. T. Clarke, Manager, Highland Inn, Algonquin Park Station, Ont.

Few Folks Have Gray Hair Now

DRUGGIST SAYS LADIES ARE USING RECIPE OF SAGE TEA AND SULPHUR.

Hair that loses its color and lustre, on which it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wm. Howey was killed by the explosion of a compressed air tank at the McIntyre Marble Works, Winnipeg.

Floods, following the rapid thaw, drowned during the night, 29 young yids in the stables of Wm. Robertson, Con. 4, Huron Township, and two calves.

NEW ENGLISH BOOKINGS MADE BY TRANS-CANADA THEATRES FOR DOMINION

An announcement of great interest to theatre-goers is made by Trans-Canada Theatres, Ltd., the new All-Canadian theatrical organization. It has already been made public that Mr. Tyrone Power, now touring in "The Servant in the House" and "The Little Brother," will cover the same ground from coast to coast next season, in "A Bunch of Violets" and "The Middleman." Further plans now embrace the return of this distinguished artist over the same territory in "Claudius," made famous by the late Wilson Barrett, and "The Red Lamp," Conan Doyle's fascinating romantic drama.

In addition too, this Mr. Power will be followed over the Trans-Canada circuit of playhouses next season by two notable All-English productions, Grossmith's famous farce-comedy, "The Night of the Party," and a new play, "Lucky Durham," which has been drawing crowded houses throughout the English provinces, and which is still on tour across the water.

The success which attended the opening of Mr. Power's tour in "The Servant in the House" is being duplicated all along the route. From the middle west on he will play that drama and "The Little Brother," in which he made a big impression in Toronto, alternately.

The All-Canadian tour of Mr. Wilkie Bard, the greatest of all English comedians now upon the stage, will embrace two acts by Mr. Bard, and a series of first-class vaudeville attractions in addition. The selection of the acts in which Mr. Bard will appear has not yet been made, but it will most likely include at least one in which he has never before been seen on this side of the Atlantic.

COMMISSIONER HIGGINS HERE TO CONFER ON SALVATION ARMY MATTERS

Com. W. J. Richards, head of the Salvation Army in Eastern Canada and Col. John McMillan, Chief Secretary are conferring with Commissioner Higgins, Chief of Staff, and Second in Command of the Salvation Army for the work who arrived in Boston from London, England, recently. Com. Higgins came to America to discuss matters pertaining to Salvation Army affairs in Canada and the United States, with Commander Eva Booth, head of the Salvation Army in the United States and with the Canadian officials. He was for many years Chief Secretary of the United States and recently succeeded Com. Howard as Chief of Staff and Second in Command. Many matters having any important bearing upon the future policy of the Salvation Army, and its reconstruction work are to be taken up at this meeting and it is expected that on his return Com. Richards will have something to say in regard to the questions affecting the policies to be followed in Canada.

TEX RICKARD WILL STAGE DEMPSEY-CARPENTIER GO

NEW YORK, March 18.—Tex Rickard is sure to get the Dempsey-Carpentier fight according to Nate Lewis Chicago fight manager, who has returned from a tour of France.

"When I met the offer of Dominick Tortorich for the fight in New Orleans," Lewis said, "he showed me the terms offered by Rickard and I couldn't meet them. He also told me that Rickard would stage the fight in America or Paris."

Carpentier according to Lewis wants to fight in New Orleans, on account of the large percentage of French people there.

Making Biscuits Since 1858

SIXTY-ONE years ago, we commenced making biscuits—McCormick's Jersey Cream Sodas were the first of our lines. They enjoyed instant popularity, and throughout the years the demand has grown until our sales now total many tons a day, and shipments are made to all parts of Canada.

If you have not tried them, do so. You will soon realize what you have been missing.

McCormick's Jersey Cream Sodas

Sold fresh everywhere. In sealed packages.

Factory at LONDON, Canada. Branches at Montreal, Ottawa, Hamilton, Kingston, Winnipeg, Calgary, Port Arthur, St. John, N.B.

PROMOTING PURE BRED CATTLE

The livestock men of Alberta have adopted a novel means of promoting their industry, and, incidentally, of bringing to the notice of the people both within and without the province, the standing of Alberta as a livestock country.

Thirteen of the largest breeders have donated thirteen steers, mostly purebreds, to the University Farm without any charge whatsoever. These steers represent the cream of twenty-four of Alberta's leading herds, and constitute what is thought to be the finest selection of this kind owned by any institution in Canada.

During the past a number of grade steers had been bought from time to time by the University Farm for judging purposes for the students of the College of Agriculture. The best of these were shown at the local live stock shows and later sold. It was next to impossible however to secure the class of stock best suited to this purpose with the funds available, as it entailed going to the larger breeders and paying top prices for selected individuals, and in all probability the breeders would not care to dispose of the animals of the age most suitable. It was thus that this work could be made more valuable to the province at large if instead of using ordinary grade steers, animals of higher merit could be obtained. In any case the cost of labor, feed and housing would be the same.

To Professor A. A. Dowell, Chief of the Department of Animal Husbandry, of the University of Alberta, came an inspiration, whereby the University was able to get the required animals without paying a cent for them, yet giving their owners a good return. It appears that there are a number of breeders in the province of Alberta who are not in a position to do their own fitting and showing. Consequently their herds suffer from a lack of advertisement. Prof. A. Dowell evolved a plan by which the breeders advertised at the exhibitions, and the University Farm the desired class of animals. The plan suggested was that the breeders donate five or six calves of the three leading beef herds, and the University would use them for judging purposes for two seasons, and exhibit them at the International Live Stock Show at Chicago. Practically all of the

breeders approached were perfectly willing to assist in carrying out this scheme. The plan was submitted to the Alberta Breeders Association at their annual convention held at Calgary last May, and, receiving the entire approval of the Association, twenty-four breeders offered the best calves of their herds.

Immediate steps were taken to visit the various farms, and after three months' thirteen calves were selected from the twenty-four herds. Grades were not debarred, but pure bred were preferred.

The big difficulty that Prof. Dowell had in selecting these calves was not getting the owners to consent to part with them, but rather in refusing animals from breeders who offered them. Many of the breeders actually urged the University to send a representative to their farms, and take the best of any of their calves.

What is most outstanding about these calves is their uniformity, quality, and also their age. At the present time most of them are from five to seven months old, and without exception they can all account for a 100 pounds per month. All of the animals are on exhibition at all times in the University stables, and a placard hanging over each stall denotes the breeder, and the breeding of each animal. The animals are kept in the pink of condition and it is the expression of many of the leading live stock men visiting the stables from time to time that, collectively, they are the finest lot of steers of their age owned by any one concern in Canada today. They represent the very best that

there is in Alberta.

The best two or three animals of each breed will be exhibited at the International Stock Show at Chicago next fall by the University. The selections will be made by a committee appointed by each breed Association. All of the steers will be shown individually, and each will stand upon its own merits.

If the steers in this exhibit make a creditable showing in Chicago, it should prove an excellent advertisement for their breeders, as well as for beef producers and farmers generally, not only in Alberta, but throughout Western Canada. On the other hand, it gives to the students of the College of Agriculture, the future breeders of the Province, absolutely the best class of live stock for their judging work. The live stock breeders who have made it possible for the University to assemble these excellent animals and from whose farms the selections were made, are as follows: Short-horns, The Hon. Duncan Marshall, Oids; Geo. E. Lane Company, High River; Two pure bred Shorthorn calves were added from the University Farm, Hereford, John Wilson, Innisfail; S. M. Macle, High River; Curtis Cattle Company, Sheshard; J. McD. Davidson, Coal Dale; V. W. Smith, Camrose; and Fynn Bros., Mirror, Aberdeen Angus; A. E. Noad, Oids; C. H. Richardson, Bowden; Chas. Elliot, Edmonton; South; Canada Land and Irrigation Company, Medicine Hat; and J. D. McGregor, Brandon, Man. The total number of calves including the two added from the University Farm is fifteen.

New Triplex Springs Iron Out the Wrinkles of the Rough Roads

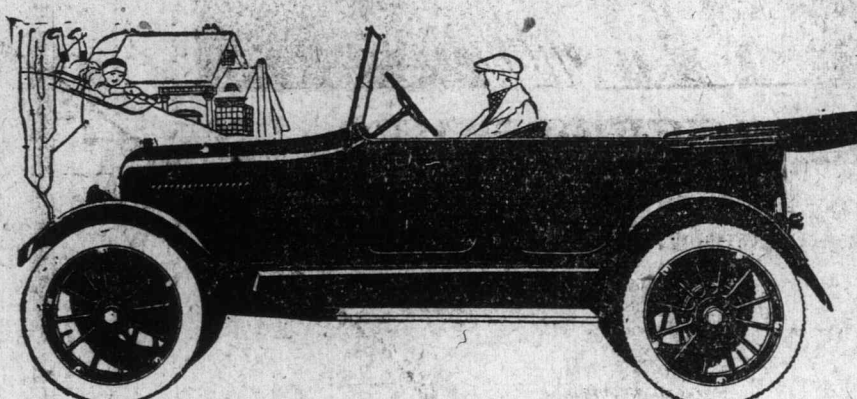

THE wrinkles of rough roads seem smoothed out completely by the wonderful springs of Overland 4.

These springs hold the wheels to the road, while the passengers ride in even comfort. The astonishing qualities of these diagonally attached Triplex Springs have created an utterly new conception of light car riding ease.

Best of all, this heavy car kind of comfort is now obtainable with economy in fuel and tires and remarkably low upkeep cost.

Overland 4 is started and lighted by two-unit electric starting and lighting system. It has rain-vision windshield and unit power plant. It is equipped with all the latest car essentials and conveniences.
