Present Political Situation.

The electorate have declared in favor of the Grits; the Government of Sir Charles Tupper has been defeated. There is no doubt on these points. Now, that the smoke of battle has cleared away and people have come to their sober second thought, we feel sure many serious minded men who supported the Liberals...

MR. DAVID MILLS of Bothwell, and Mr. William Paterson of Brant, Ontario, both of whom have held seats in the House of Commons for a long time, and who are certainly two of the ablest men in the Grit ranks are among the Grit slain as a result of the recent contest. It is said seats will be obtained for them.

The first election returns for New Brunswick placed Mr. Powell, Conservative of Westmorland, among the defeated. But on Saturday he was officially declared elected by a majority of five votes. The latest returns from Richmond, Cape Breton, give the seat to Mr. Gillies, Conservative. Thus the Grit majority comes down.

As in every election, some constituencies were carried by extraordinarily large ones on June 23rd. Mr. Davin is reported to have been returned for Assiniboia by a majority of only two votes. Mr. Powell has only five in Westmorland. In York County, N. B., Mr. Foster, Minister of Finance was elected by a majority of 1,542. In West York, Ont., Clarke Wallace has a majority over the Conservative Government candidate, of 3,825.

It is reported from Ottawa that, provided the home authorities assent to one slight modification in the contract for the fast Atlantic service, it is settled that it will go to the Allan Line for \$1,125,000 a year for ten years. Of this amount the Imperial Government is expected to contribute \$315,000 a year. The contract is subject to ratification by Parliament, and although some Liberals objected to the project last session, it is questionable whether they will venture to throw out the contract.

It is announced from Hamilton, Ont., that the Ontario Rail Works have closed down for an indefinite period. Nearly one hundred men will be thrown out of employment. It is also stated that Mr. George Mathews, whose pork-picking house in Hull, opposite Ottawa, was gutted by fire last week, will not rebuild and resume operations at present, in view of the uncertainty as to what industries will be first attacked by the "gradual" progress of the tariff reform. Mr. Mathews announced in his campaign speeches, Mr. Mathews spent about \$30,000 a year in wages.

The Laurier boom does not appear to be a business boom. Note the following: Mr. John Palmer, a Fredericton leather manufacturer, has had a \$3,000 order from Toronto cancelled, the reason given being the uncertainty of the future caused by the tariff reform.

The Matthews pork-picking establishment at Hull, which was burned down on Wednesday, will not be rebuilt until it is held what the liberals will do to the protective pork duties. The liberal tariff reform policy is affecting trade in exactly the same way as the democratic tariff reform policy affected trade in the United States.

LATEST advices from Ottawa indicate that Sir Charles may not hand in his resignation for some time yet. Constitutional precedents warrant him in holding office until Parliament meets and the strength of parties is tested on the election of a speaker. Whether or not Sir Charles Tupper will do so, is not known. In any event, the Government may hold office till July 16th, the day fixed for the meeting of Parliament, and still be within the limit of the time occupied by the McKenzie Government between their defeat at the polls and their resignation. The election on September 17th, took place on September 17th, and the Ministry resigned on October 16th, a period of 29 days. Let our Grit friends just possess their souls in patience.

During the past few days a colored man has been traveling the streets of this City, in a bicycle carriage drawn by two large Russian dogs. He is an advertiser for the American Cigarette Company of Canada, and in a tin box mounted on his carriage he carries samples of tobacco cigars and cigarettes which he distributes to the stores. He is dressed in a dark suit with advertisements of his business displayed in large red letters, on his cap, the back and sleeves of his coat and his trousers legs. This novel outfit and the unique trappings of man and dog, have attracted considerable attention. That is, no doubt, what was intended.

"D.L." MENTHOL PLASTER. Easy to Take. Easy to Operate. Hood's Pills. Sir Leonard Tilley filled the office of lieutenant governor of New Brunswick from Nov. 15th, 1873, until July 11th, 1878, when he took the oath again in the conservative interest and was returned to represent his old constituency in parliament. In the new administration he became once again finance minister, and shortly afterwards framed the National Policy, with

Death of Sir Leonard Tilley.

Sir Leonard Tilley died in St. John, N. B., on Thursday morning last, after a brief illness, aged 78 years. Sir Leonard was one of the Fathers of Confederation and one of Canada's greatest statesmen. The following sketch of his life is condensed from an account published in the St. John Sun: Samuel Leonard Tilley was born at Gagetown, Queen's County, May 18th, 1818, and received his education at the Gagetown Grammar School. His father, Thomas M. Tilley, was a grandson of Samuel Tilley, and Elizabeth, his wife, was the daughter of Partridge, now Sir John, in 1783. He removed when only thirteen years of age, from Gagetown to St. John in 1831, and commenced the study of Materia Medica with Dr. E. Cook and, subsequently in 1838 entered into business as a druggist on King St., in partnership with Thomas H. Peters, under the firm of Peters & Tilley. It was at this period he joined the Society of Temperance from which time to the present he has been a constant and consistent member, doing, perhaps, in his long public career, more for the temperance cause in the way of resolutions than any other person in America. He was absent in Boston in 1850, he was nominated as one of the candidates to represent the city of St. John in the provincial legislature and was returned at the head of the poll in 1851. He resigned his seat, but was again returned at the general election of 1854 for the same constituency. When the government was formed November 1st of that year, he became provincial secretary, and proposed the first tariff passed under responsible government, and submitted the first estimates after the institution of the money grants were surrendered to the executive. During the session of 1855 he introduced and carried through the Legislature the act known as the "Prohibitory law," which prohibited the "importation, manufacture and sale of all intoxicating liquors except for religious, medicinal and medical purposes." After this had been four months in force, after January 1st, 1856, to May 1st of that year, the lieutenant governor, the Hon. J. H. Mansfield, ordered the dissolution of the legislature, and when Mr. Tilley and his whole council, who were his advisers, promptly resigned at the council board. At the election which followed Mr. Tilley was elected, but was returned at the general election of the following year, and on the restoration of the old ministry again became provincial secretary. On the resignation of Mr. Fisher, in 1861, Mr. Tilley became leader of the government in the legislature, and he held this position until 1865. In 1864, as leader of the government, he headed the New Brunswick representation at the union conference held at Charlottetown and Quebec. At the general election which followed the meeting of 1865 to test the opinion of the Province as to the terms of union agreed upon at Quebec, Mr. Tilley was defeated, but at the general election in 1866 he was returned by a majority of over seven hundred. On the resignation of the Smith-Wilmut government in 1866 he was invited by Lieutenant Governor Gordon to form a new administration, but not having a seat in the house, he advised that he would not accept the office.
