SECCOTINE is an intensely strong
adhesive for joining new or fac-
tor surfaces in wood, leather, iron,
cloth, paper, pasteboard, etc., etc.

It is unequalled for office use. Being
immensely stronger than gums or
pastes, a much smaller quantity is
required. It replaces glues and
cements in the manufacture of
small fancy articles.

The general uses of SECCOTINE
are too numerous to mention.

A tube goes a very long way. It re-
quires no heating or other prepara-
tion; keeps for years, and is
always liquid and ready. It sticks
binds and cements all articles of all
materials.
