**Tragic Love Affair In Antwerp.**

Antwerp, April 25.—A youth, eighteen years old, and a nineteen-year-old girl, are the principals in a shocking love tragedy enacted here to-day. Arm in arm they climbed to the clock gallery in the tower of Notre Dame Cathedral, and from a height of 180 feet, leaped into space, falling at the feet of passers-by.

Every bone in the bodies of the boy and his companion was broken. As they hurtled through the air several men and women who witnessed the sight, fainted.

According to the police the leap from the church tower was in accordance with a premeditated double suicide pact.

The tragedy occurred at a time when the glove market, in front of the north tower of the Cathedral, was thronged with pedestrians, a large number of whom stood transfixed, helpless witnesses of every phase of the drama.

That the act of the lovers was premeditated is shown by the fact that they had placed five letters, one addressed to the police commissary, and the others to various relatives, where they could be easily seen by visitors to the tower.

The letters showed that the youth was Ellis Waikew, and that his home was in this city. The girl has not yet been identified. The letters, it is declared, stated that the young couple had been driven to their dreadful deaths because of a love affair.

**SAGONA SAILS SATURDAY.**—The s.s. Sagona will sail Saturday for the northward, taking up the Fogota route for the present and will go to Change Islands and intermediate ports. After she returns the Fogota will come here to take up the Fogota service.

**A SUDDEN CHANGE.**—Early this morning a sudden atmospheric change occurred all over the country with a cold N.E. wind and rain in several places. At Bishop's Falls, where it was 80 above a couple of days ago, it was 30 to-day, and the temperature also fell at Humbermouth and other places where it was recently very warm.

**SPRAINED HIS ANKLE.**—Chief officer, Mr. Dalton, of the Sagona, on her last trip while coming over the companion way, slipped and fell spraining his ankle. He suffered much pain until Mr. Frank Carter, of Crobie's office, who was on board and who is a "first aid" man, bandaged it up.

**WHALING NEWS.**—The captain and crew of the whaler Cachetel will be coming on the Allan boat Carthaginian, leaving Liverpool on Saturday. The Cachetel is now at Trinity. She will be brought here as soon as the crew arrives and fitted out hurriedly for the whaling voyage. The steamer leaves here about May 20th, which is much earlier than usual, for Hawke's Harbor, where she will operate for the season.

**CATCHING OODFISH.**—Jas. W. Daley, of St. Mary's, went to the "Keys" about two miles off Cape St. Mary's, a couple of days ago and secured over 200 fine fish. He then secured a halibut of herring and set his traps there. Bernard Coffey, of Angle's Cove, jigged 250 fine fish there Tuesday and in both places cod were found to be abnormally plentiful and large. All hands are now eagerly preparing for the opening of the voyage.

**DIED IN CHICAGO.**—The death occurred at Chicago, Ill., U.S.A. yesterday, of an estimable young man, a native of this city, in the person of George Smith, son of Wm. Smith, Esq., manager of the Empire Woodworking Co. The deceased was operated on for appendicitis Tuesday night, but never recovered from the effects of the ordeal. He was a young man of promise, of agreeable temperament and his many friends here will learn of his demise with deep regret. To his sorrowing parents and relatives, the Telegram extends its condolences.

**More Smallpox.**

Two cases of smallpox were reported in the city to-day. The patients pronounced with the disease are Mrs. Galway, of Pleasant Street, and Mr. W. O'Neill, of the Evening Herald staff. The patients, who will likely be removed to hospital, it is said, contracted the disease from the Moskier family, which is already under quarantine on Pleasant Street. Dr. Brehm, Health Physician has also been apprised of a case of smallpox at Avondale. The disease which has not yet fully shown itself on the patient, is supposed to have originated from the same source as the cases mentioned above.

Opposing Mission.

Special to Evening Telegram.  
LONDON, To-day.

The British delegation, now on its way to the States for the celebration of the Anglo-American Peace Centenary may encounter some hostile demonstrations. Certain leaders of the extreme Irish and Labor movements are advising their American friends to express opposition to the British mission. Suffragette leaders are appealing to American women to denounce any friendly dealings between the two countries until England gives votes to women. The opponents of the Peace Mission predict its public appearance will provoke outbreaks such as occurred at the peace meeting at Carnegie Hall, on December 31st, in support of the ratification of arbitration treaties pending between the States, Britain and France. Because Lord West and other members of the delegation are connected with the Carnegie Peace Foundation, the Laborites call it a "Carnegie Mission." English Labor Unions will hold meetings as is their custom in Hyde Park. Representatives of German Unions will parade with them for the first time. Both English and German speakers intend to denounce the Carnegie Mission. Their ground is that the Mission is designed to foster an Anglo-American Alliance, alienate American sympathies from Germany, whereas they argue workers of all nationalities should stand together for their own interests. Benjamin Tillett, Secretary of the Dock, Wharf and Riverside General Workers' Union of Britain and Ireland, will send a cablegram to Saml. Gompers, President of the American Federation of Labour asking him to oppose the British Delegation.

**Notes and Comments.**

About the beginning of July H. R. H. Prince Albert is expected in St. John's. This intelligence was received yesterday by His Excellency the Governor from the Commander of H. M. S. Cumberland, the naval training ship, on board of which the Prince is one of the cadets. The Cumberland will be in St. George's Bay between June 20th and June 26th, presumably for the salmon fishing. Afterwards she will come to this port. Prince Albert, as the sailor son of a Sailor King, who reigns over us will, of course, receive a hearty welcome, though we understand he and his naval cadet is not permitted to take part in any public or official function.

It is cold comfort for householders to learn that there is a prospect of a rise in the price of coal, and that it is likely to soar to Eight Dollars a ton. It is now nearly five years ago since Sir Edward Morris declared that the price of coal had created a serious situation which was so far-reaching, touching as it did, every fire-side in the colony, as well as every industry, that it had become a national grievance. Sir Edward promised a remedy for the grievance, but he has not been able to find one. Coal has continued to rise in price, and to-day the situation is worse than ever, and the outlook is even worse.

It seems a pity that partisan politics should be allowed to embarrass the efforts to promote good feeling between Britain and America. While we can sympathize with the desire to promote good feeling between workers of all nations, expressed by the British and German Union leaders, and while we can appreciate their dislike of Carnegie and their desire to turn him off the throne of Peace, where his dollars have set him, we cannot see how these officials are promoting their own cause by opposing the efforts to celebrate the centenary of peace between the two great English speaking peoples. It seems to us that they are acting most unwise, and in a way calculated to alienate much sympathy in both countries.

**Stephano Arrives**

The Red Cross Liner Stephano, Capt. Clarke, arrived from New York via Halifax at two o'clock this afternoon, bringing a small mail, few passengers and a full cargo. The ship left New York at 4 p.m. on Friday last and made a good run to Halifax. From the latter port, which was left at 3 p.m. on Monday, fog prevailed, particularly in the neighbourhood of Cape Race; several icebergs were sighted also and the ship had to be carefully navigated. This is the first round trip the Stephano has made for the season and will commence to run on schedule time the latter part of the present month in conjunction with the Frostlet.

**Objects to Biblical 70 Years.**

Doctor Declares 100 years should be Average Age.  
Dr. Frank Ellsworth Allard, professor of physical economics at the Boston University Medical School, believes that 100 years should be the average life of man. The old Biblical passage anent the life of man being three-score years and ten is put into our head at Sunday School, said Dr. Allard, and we later accept it as a matter of course. It is unfortunate that we have the limit of life in mind, we ought to live to be 100. All disease is a process of disintegration. "I believe that every disease of every name and nature begins primarily in the breaking of some of nature's laws. To my way of thinking we must look to sanitation for the solution of our health problems. "Insurance statistics show that among insured, lives of men between the ages of 45 and 55 the death rate is greater than ever before. They would live longer and accomplish more if they ate less, drank less, and indulged in daily periods of rest and recreation. "There are thousands of women—and not a few men—whose health is being sapped by the habits of idleness and gossip. These people are lazy, mentally and physically, and their viewpoint on life is purely personal and usually petty. Laziness gives rise to sluggish livers and unhealthy habits of introspection, which in turn breeds neurasthenia and imaginary ills, that become real so far as the sufferings of the patients are concerned. "Intemperance in the use of alco-
