**COALOX!**  
**Saves Coal and Money**  
 COALOX is a reddish powder containing chemicals which, when dissolved in water and sprinkled over coal, effects a great saving.  
 One ingredient retards the escape of burnable gases and gives time for the other chemicals to create more oxygen and so aid in a more even and total combustion.  
 When COALOX is not used 75 per cent. of the efficiency goes up the flue unburnt. When COALOX is used nearly 60 per cent. is saved.  
 The fact that customers come back for more is its best recommendation.

**Notice to the Public!**  
 Since Re-starting business in 1919 I have been warned that there would be a scarcity of  
**First-Class Material.**  
 With a view to ensuring a supply to meet my customers' requirements I have during that period made heavy purchases of costly goods to an extent, owing to the general depression, in excess of my needs.  
 In order to capitalize this stock and incidentally to provide employment for my staff of workmen, I have decided to make a large sacrifice by reducing the price of my Suits and Overcoats until this stock is sold out.  
 With the exception of a few super-quality Cashmeres and Overcoatings I propose to offer the whole of my stock with  
**A Discount of from Fifteen to Twenty-Five per cent.**  
 for Cash.  
 At these new figures profit is practically eliminated and, in some instances an actual loss will be incurred. This, however, cannot be obviated if I am to achieve my threefold aim—to dispose of my stock, find employment for my staff, and to induce my customers to renew their normal patronage, which may have felt it imperative to curtail owing to the necessarily high costs.  
 Trusting to be favored by an early call where your commands will receive my prompt and careful attention.

**Values!**  
 The Stock Markets now are literally flooded with seasoned gilt-edge securities that are priced to net the investor 10 to 15 per cent. on outright purchases or up to 30 per cent. when trading on margin.  
 The cycle of low values, however, is passing and we are entering on an era of better prices. Don't make the mistake of thinking that really-good stocks can forever sell at reduced figures, but get into the market now while current values make it well worth while. We are fully equipped to execute all orders on margin.
