Halifax, Feb. 10th, 1872—Mr James I. Fellows—Dear Sir: In order that some other sufferer may be benefited, you are at liberty to give this letter publicity. In the winter of 1869 I was taken ill with disease of the heart, accompanied by violent palpitation, and from that time gradually became weaker, notwithstanding continued professional attendance, up to a few weeks ago, when your Compound Syrup of Hypophosites was recommended to me. The use of it during a very short time enabled me to resume my usual work, and now I am as well, fat and hearty as I could wish to be. Yours very truly, W. FRANK COCHRAN.

The Heart being a great muscular organ, requires vigorous nervous force to sustain it. As Fellows' Hypophosphites restores the nervous element, it will always strengthen the Heart weakened through loss of this element.
