

Treatment and Care of Cows.

At least have a supply of pure water in the yard for winter... better if it could be in the stable and the cows not obliged to go out of doors except in pleasant weather for exercise.

Facts for Farmers.

If you invest your money in tools and leave them exposed to the weather, it is the same as loaning money to a spendthrift without security—a dead loss in both cases.

By way of variety, Hamilton roughs institute dog fights.

The medal of John Wesley, which is to be placed in Westminster Abbey, is nearly completed. A bas-relief under the profile represents him as preaching at his father's grave.

The Township Council of Morris at last meeting, repudiated their railway debentures and instructed their Clerk to notify the Reeves and influential men of the adjoining townships that a meeting will be held at Vinham on Friday the 20th inst. for the purpose of taking united action on the matter.

An important invention.—The new quadruple telegraph invented by George B. Prescott (the electrician of the Western Union Telegraph Company) and Thomas A. Edison, by which four messages are sent simultaneously over a single wire, has been for several days in successful operation on the Western Union T. Co. lines, between New York and Boston, and arrangements are making for immediately extending its use upon all the principal lines in the country.

Ocean currents.—A discovery of great importance which promises to change the whole theory of ocean currents has been made by the exploring ship Challenger. It has always been supposed that there was an Arctic current coming from the north, which gradually became warmer as it reaches the equator.

Smelter for tools.—The Farmer's Union says:—Now that harvesting is over, take care of the tools. A harvester that costs two hundred dollars is too expensive a piece of machinery to lie out in all weather, exposed to wind, sun and rain.

MARKING PENS.—A novelty has been introduced in this line in the shape of a glass pen which will not corrode or wear out, there is no split at the point to catch or spatter, and the ink flows freely off the point.

THOROUGH CULTURE.—The theory that there can be no drought in the soil which is ploughed so deeply and committed or pulverized so thoroughly that the air can strike down into it far enough to come to a temperature below the dew point is nothing new.

BREAKFAST.—Epps's Cocoa, GRATEFUL AND COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills.

Special Notices.

THE GREAT SUPERIORITY OF DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALCIUM consists in its being purely physiological in its action in restoring all forms of debility by supplying the waste of tissues resulting from mental and muscular exertion, and thus preventing nervous prostration and general debility.

THE GREAT ENGLISH REMEDY.

Before Taking. After Taking. Specific Medicine. Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over-indulgence in the use of tobacco and alcoholic spirits; but the Specific Medicine is now especially recommended as an infallible cure for seminal Weakness, Spasmodic, Impotency, and all diseases that follow as a sequence of Self Abuse, or Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other Diseases that lead to insanity or consumption, and a premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over-indulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one. The Specific Medicine is sold by all Druggists at \$1 per package, or six packages for \$5, or will be sent by mail on receipt of the money, by addressing WILLIAM GRAY & CO., Windsor, Ont. PROTECT OUR BUILDINGS

Which may be done at one-fourth the usual Expense, by Using Glines' Patent

SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slat may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slat, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and NEVER CRACKS NOR SCALES. For Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Shingling Felt can be made water-tight at a small expense. The Slat Paint is

EXTREMELY CHEAP!

Two gallons will cover over 100 square feet of shingle roof; or over 400 of tin or iron. No Tar is Used in this Composition, therefore, it does not effect the water from the roof, if turned off from the eisters before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN.

And when required will be Thoroughly Repaired.

Orders Respectfully Solicited.
