S., Aug. 19.-Judgment was delivered by the chief justice in the Admiralty Court in the case of the seized American fishing schooner Frederick Gering, sustaining the seizure, and ordering the vessel forfeited to the Canadian Government. The Gering was seized for alleged fishing within the three-mile limit.

SUDDEN DEATH OF A SINGER. San Francisco, Cal., Aug. 19.-Miss Flora Finlayson, the well known opera singer, was found dead in he room at a private hotel today. Heart failure is supposed to have been the cause. As a contralto singer she had gained celebrity while a member of Lillian Russell's Company, and also with the Bostonians. She was to have made her first appearance here to-

A Question.

How can we raise more corn to the acher? Why, of course, by using Putnam's Corn Extractor. Putnam's Painless Corn Extractor has given universal satisfaction, for it is sure, safe and painless. Like every article of real merit it has a host of imitators, and we would specially warn the pub-lic to guard against those dangerous substitutes offered for the genuine Putnam's Extractor. N. C. Polson & Co., proprietors,

None Better in the Market.

New Dominion Legislators Begin Work This Afternoon.

Hon. J. D. Edgar Nominated as Speaker of the Commons.

Opposition Caucus Proves a Fizzle and Adjourns Without Doing Anything.

Ottawa, Aug. 19.-There was a very small attendance at the Conservative caucus this morning, and in consequence an adjournment was made without doing any business, so that the question of the leadership and policy which the Opposition intends pursuing has been left in abeyance.
R. R. MacLennan occupied the chair.
Motion to adjourn was put by Sir Charles Tupper. The understanding was that no opposition was to be made to the election of Mr. Edgar as was that no opposition was to be will shortly take the stump for Mr. made to the election of Mr. Edgar as Bryan. Miss Mitchell has been au-Speaker.

OPENING OF PARLIAMENT. The new Parliament opened at 3 o'clock this afternoon. The first session of the eighth Parliament convened at that hour. Members of the House of Commons met in the chamber, and Dr. Bourinot, clerk of the House, took the chair. A summons was received by the assembled Commoners, inviting them to visit the Senate chamber. They were met in the Red Chamber by the Deputy Gor ernor, Sir Henry Strong, who in-formed them that when they had elected a Speaker his Excellency would be pleased to state to them the reason for which they were called together. The representatives of the people then returned to the House of commons to decide who should be Premier Laurier moved that Mr. Edgar, member for West Intario, be Speaker. The proceedings were in progress as The Advertiser went to press.

THE FIRST TO SIGN. The members of the House of Commons commenced at 12 o'clock to sign the roll and take the oath of office on the floor of the House of Commons at the Clerk's table. The first to sign the roll was Julius Scriver, of Huntingdon, and M. C. Cameron, of West Huron. Both signed together. They took the oath in batches. The first their holidays with friends in this four who took the oath were: Messrs. Scriver, Rinfret, Cameron and Mignault.

> LEGISLATION WILL BE LIGHT. three divorce bills. Out of the 36, 24 pertain to railways, four to banking and commerce and five come under the heading of miscellaneous.

The divorce applications are as follows: Albert Nordheimer, of Toronto, from his wife, Edith May Van Koughnet, who is now residing in London, England; C. E. U. Pointon, of Toronto, from his wife, Lillian; Adeline M. Lawrey, of Hamilton, from her husband, T. H. Lawrey, now residing in Oklahoma. Adultery is alleged in each case.

Among the railway bills is one in Mr. and Mrs. George Rush, of Lethbridge, N. W. T., are spending their honeymoon in this city, at 238 King street.

Among the ranway bins is one in which the C. P. R. and G. T. R. are jointly interested, the measure seeking to confirm the agreement granting running powers to the C. P. R. over the tracks of the G. T. R., between Toronto and Hamilton, for a period of 50 years.

THE REFUGEE CREES. The Department of Indian Affairs has been notified that the fifth and last party of refugee Cree Indians from the United States have reached the international frontier under the escort of a troop of United States cavalry. The total number of Crees transported from the United States to Canadian territory, from which they strayed some time ago, in the past few weeks

A Narrow Escape.

A Lady Bicyclist Struck by a Trolley

At the Busy Corner, and Thrown Off the Track.

Miss Edith Knevel, a waitress at the Grigg House, had a narrow escape at the corner of Dundas and

Richmond streets yesterday after-

Miss Knevel was riding westward on Dundas street on her bicycle. She slowed up at the busy crossing, but was confused by two Richmond street cars, one coming north and the other south. In avoiding the northward car she collided with the southbound one, and was thrown off her wheel, alighting on the pavement clear of the tracks. Spectators ran to her assistance, but she required none. She was only slightly bruised. The bicycle was shoved along by the fender and badly smashed, the rim of the front wheel being cracked, the spokes bent and the pedals broken.
Had Miss Knevel fallen under the wheels of the trolley car she might have been killed. It is also fortunate that the car was not going at full speed, or the impact would have re-

very dangerous one. SOLD WELL.

sulted seriously. The crossing is a

Refreshment Booths on the fair Grounds Bring Better Prices Than Ever Before-The Purchasers.

A number of refreshment booths at the Western Fair Grounds were sold by auction yesterday under the direction of James H. Brown, chairman of the grounds and buildings committee. Mr. Cooper wielded the hammer. The booths brought better prices than ever before, owing to the improvements. Following are purchasers and

prices E. J. Hardy, \$18; Mrs. Pinel. \$15: Mrs. Johnston, \$15 25; J. W. Knowles, \$20 50; Mr. J. Dunn, \$20; Mrs. Legg, \$20; Mrs. P. Gray, \$20; Mrs. C. Pitt, \$20; Mrs. M. Hodgins, \$20; Thos. Henshaw, \$20 25; Mrs. Gibbons, \$20 25; Mr. Langdon, \$20 50; Mrs. Anderson, \$21 50; Mrs. Buckingham, \$22 50; Chas. Forward, \$23 50; S. E. Gale, \$15.

The balance of the booths together with the dining-hall will be sold on Aug. 24. The action of the Fair Board in not having booths on the grounds north of the grand stands greatly pleased the lessees.

Democratic National Committee Short of Funds,

A Kansas City Lady Going to Stump for Bryan.

Washington D. C., Aug. 19.—The Democratic national committee is hard up for funds, and its members discuss with spirited displeasure the failure of the silverites to come to the front with the generous campaign contributions that were promised. Not only is the Democratic campaign waning for lack of the sinews of war, but there is little, if any, hope in sight that any will be forthcoming. The statement is made in a letter from Chairman Jones to a Chicago Democrat that he (Jones) has been unable to raise \$5,000 for the campaign

thorized to do so by Mr. Bryan.

up to date. He attributes this failure

Under a Fiery Stone.

An Arizona Family Crushed by a Mighty Meteor

That Covered Two Acres of Ground-Twelve Hundred Sheep Buried Beneath It.

Tucson, Ariz., Aug. 19.-Dr. P. M. Smith,- of -Hagerstown, Md., and a party of mining men from Ripley report that a meteoric stone covering two acres of ground fell on the 9th near Ripley, burying under its red-hot mass a Mexican herder, his wife and three children, his house, corral and about 1,200 sheep.

Major Thomas Hayes, of Louisville, Ky., who was of the party, was over-come by the phenomenon. "It was the most brilliant, grand and awe-inspiring sight I ever witnessed," he said today. "It is simply beyond the power of tongue or pen to accurately describe it. The heat from the meteor is so intense that it mill be several days before the mound can be examined clos-

As described by the party, the me teor came down red and smoking. The The legislation promises to be Mght air for miles around was filled with this session. Notice has been given for sulphurous gas, and the earth for private bills, in which are included many miles trembled under the shock of the fall. The stone seems to be imbedded hundreds of feet in the earth. It rises from the earth like a great mound The scene of the descent is in vicinity of Hall's Ranch, about 60 mfles from Tucson and about 40 from Globe.

A large number of people have gone from here to see the stone. FIRED AT THE FLAGSHIP. Somebody Blundered A French Ad-

miral and His Staff in a Hot Place.

Paris, Aug. 19.—During the artillery squadron yesterday, off Toulon, says down the shaft with fearful velocity. a dispatch from that city, Admiral Gervais and his staff had a narrow escape. Instead of aiming at a target which had been towed 500 yards behind the flagship Brennus, a battleship of 11,000 tons displacement, the cruiser Vautour turned her guick-firing guns on the flag ship for some time.

The shots rained around Admiral Gervais and his staff, and how they escaped is a miracle. The glass i the admiral's conning-tower was riddled and a sailor was wounded. There is much mystery as to how the mistake occurred, as it is thought impossible that the gunners could have missed the mark by 500 yards.

DISASTER IN EAU CLAIRE.

Three Men Crushed to Death and Others Fatally Injured.

Eau Claire, Wis., Aug. 19.-While a force of 25 workmen were engaged in tearing down the Music Hall, a fourstory frame structure, the building collapsed. Twenty-five men went down

The dead are: Halvor Oleson, William Dean (contractor), Nicholas Roach. Injured-John Thorson, cannot live; James Dean, cannot live; Chas. Agan, badly crushed: Ole Solberg, ceriously crushed; John Larson, Gus Meyers, Ole Johnson, Brady Nedrum, H. B. Walters, Wm. Berg, W. F. Fvans. Wm. Arnold, Bert Wallum, Ludwig Berg. Of the injured several may not recover. The workmen were on the per floor and roof when the walls began to bulge, and fell before anyone could escape, except five who remained on the roof and were uninjured. The fire department at once began the work of rescue, and all the dead and injured were taken from the ruins but Dean and Roach

BOY BLED TO DEATH. Toronto, Aug. 19 .- A lad named Mc-Cord arrived at Lee's drug store last night bleeding at the mouth. comparatively short time he was dead. An inquest will be held, as no satisfactory explanation of the cause of his death has been forthcoming.

A NEW CATTLE DISEASE. Ottawa, Ill., Aug. 19.-Farmers just south of Marseilles are greatly exercised over a new disease which has broken out there. It has spread in three cattle herds of over 100 head, and many of the animals are hopelessly blind and others rapidly losing their sight. It may be mecessary to have all the affected killed to prevent the spread of the peculiar malady.

KILLED BY A PANTHER. Mansfield, Mo., Aug. 19.—A family of homeseekers named Allen camped night before last under a tree just over the Arkansas line. The father and mother slept under their emigrant wagon. Their two children, 6 and 4 years old, slept in the wagon. In the early morning a panther leaped from a tree into the wagon, tore open the throat of the baby and struck the old-er child a fatal blow with its paw. A dozen armed settlers were hunting yesterday for the wild beast.

THERE is not a more dangerous class of disorders than those which affect the breathing organs. Nullify this danger with Dr. Thomas' Eclectric Oil—a pulmonic of acknowledged efficacy. It cures soreness and lameness when applied externally, as well as swelled neck and crick in the back; and, as an inward specific, possesses most substantial claims to public confidence.

172 and 174 Dundas Street.

Glass Toweling for 5c.

We can interest the shrewdest buyer in these lines. No exaggerated sentences here. A look at these lines means offering satisfaction and not wretched disappointment.

FELL 1,200 FEET.

The Terrible Fate of Three Montana Miners.

Butte, Mont., Aug. 19 .- Peter Ryan, foreman of the St. Lawrence mine, the property of the Anaconda Mine and Jack Campbell and John Manning, two miners, were killed last evening by a fall of the cage from the top of the mine to the bottom of the shaft at the 1,200 foot level.

The two miners were at the bottom beneath the bulkhead at the 1,200 foot level, deepening the shaft, when the cage containing Ryan fell from the top, instantly crushing the life out of the two men below and killing Ryan. Ryan had gone to the top and was about to step from the cage. The brake actice of the French Mediterranean refused to work, and the cage started The engineer tried to throw on the clutch, but could not. The safety appliance also refused to work, and the engineer and brakeman jumped from the window in time to avoid the crash of iron and wood as the reel broke to pieces and tons of iron were shot shrough roof and walls.

DROWNINGS.

Fatality at Ottawa - Two Boats That Never Returned

Ottawa, Aug. 19.-Mrs. Jane Ann Lewis, 55 years of age, was found drowned in Patterson's Creek early yesterday morning. Deceased had a married daughter and a son about 18. The circumstances point to suicide. Bowmanville, Aug. 19.—There has been no word of the two young people

Alf. Peate and Lena Darch—who went out on the lake on Sunday after-noon and were carried out with the wind.

Owen Sound, Aug. 19.-H. E. North and the woman who accompanied him as his wife, and who left here on the afternoon of Aug. 5 in a sail-boat, were doubtless drowned. Mr. Wm. Boyd, lighthouse keeper at Griffith's Island, states that on the evening of the day the couple left here he saw the sail-boat, during the storm, standing out in the lake under a single reef fcresail. He immediately went up in the tower of the lighthouse and took his glass, but the boat had disappeared. In such a storm as the one of that evening, with a single reef foresail up, there is no doubt but that the boat upset. Since then nothing has been heard of the boat or its occu-

Corton, the present agent, will be transferred to Port Dover, Mr. J. A. Telfer being made ticket More changes are reported about to agent at Toronto.

A new time table of the Grand Trunk system has lately been issued. It is the first time that the Chicago and Grand Trunk has been included in a time table with the re-mainder of the road. The pamphlet will be quite valuable to travelers. It gives the total mileage operated as 4,168 miles, distributed as follows: Grand Trunk, 3,512; Chicago and Grand Trunk, 335; Detroit, Grand Haven and Milwaukee, 189; Toledo, Saginaw and Muskegon, 97; Cincinnati, Saginaw and Mackinaw, 53. A list of all the prin-cipal Grand Trunk officials is given.

PLAYED GHOST

And the Ghost Got the Worst of the

Jamestown, N. Y., Aug. 19.-A Poland farmer thought he would have a little fun with his 15-year-old son by playing ghost with him. He covered him-self with a sheet and slowly approached the boy in his home. The lad waited until the ghost got near him, when he picked up a chair and went after

Before he learned that it was his father he had broken two of the old man's ribs and otherwise injured him.

THE PARAGON OF EXHIBITIONS. The major part of the entries having now been made for Toronto's big exhibition, which is to be held from

Aug. 31 to Sept. 12, it is possible to

state definitely that the scale of the exhibition will really be greater than ever. Never before did the exhibits cover such a wide range as they will this year. It almost looks as if every province had striven to do its best to make the exhibition worthy of the country. This of course is not only patriotic, but is intensely gratifying because it shows when the material prosperity of the Dominion is con cerned, sectional differences are for gotten. At the forthcoming exhibition in Toronto there will be seen food products of Prince Edward's Island; food products, manufactures fruit and live stock, of Nova Scotia and New Brunswick; an extensive dis play of horses and cattle, manufactures and minerals from Quebec; the products of forests, waters, mines, gardens, farms, studs, workshops and Ontario the grain minerals and horses of Manitoba; the grain and minerals of the Northwest and cereals, fish and minerals of British Columbia. The Governments of Ontario, the Dominion and British Co lumbia will make special exhibits of the wealth of the earth, while the Can adian Pacific Railway Company will supplement these displays by showing cereals, vegetables and minerals from many points on their lines to the ex tent of double what the company has shown in other years. In art especially will the exhibition be strong with the three pictures painted by F. M. Bell-Smith, illustrating incidents connected with the death of Sir John Thompson at Windsor Castle for one of which pictures her Majesty the Queen, Princess Beatrice and members of the royal household gave special sittings. There will be Edison's wonderful Eidoloscope, an electric theater; Ontario Trotting Horse Breeders' stake races; Lockhart's performing elephants; the magnificent historical spectacle, entitled the "Feast of Nations" and commemorating the "Taking of the Bastile," and a thousand and one other things; while in consideration of the cattle being on show the first week the railways have agreed to grant one fare for the round trip for the entire exhibition from all points in Canada, and to run a special cheap excursion

the first week, on Sept. 3, and two the

The Great Salt Lake.

Very few people knew much of the Great Salt Lake of Utah, beyond the Great Salt Lake of Utah, beyond the facts that it is a very large inland sea with very salt water. Some of its physical characteristics, however, are extremely interesting. While the Atlantic Ocean contains but 31-2 per cent of solid matter in solution, Salt Lake contains 18 per cent, being of such great density that it is impossible for a man to sink in its waters without additional weight. This solid matter is principally plain salt and soda, alis principally plain salt and soda, alquarters at Burgessville.

Traveling Passenger Agent Smith, of chlorine, bromide, potassium, surplus, the G. T. R., will probably succeed D. calcium, magnesia, lithia and boracic acid. The result of this great salinity is that tons and tons of salt are detailed. posited by evaporation along the shores of the lake, many tons being of-

> on the land. Salt Lake is 100 miles long, with an average width of 27 miles. Its mean depth is 20 feet, and frim these figures it may be easily calculated that the contents of the lake are 1,505,483,600,000 cubic feet of water, one-sixth of which, or 250,905,600,000 cubic feet, is salt and sulphate of soda, over 219,500,000,000 cubic feet of which is salt. As a cubic foot of salt weighs 80 pounds, it may be seen that the Salt Lake contains about 17,560,000,000,000 pounds, or 8,-780,160,000 tons of salt. As salt is worth about \$10 a ton, it is evident that there is a fortune in the Salt Lake, for its salts alone, by the side of which the riches of Monte Cristo are as a drop in the bucket. It is enough to pay the national debts of all the civilized nations of the world.

WHEN IN THE DARK.

In passing through a dark passage or room it is wise not only to extend the arms in front but to cross them: otherwise one might come in contact with a projection or the edge of an open door, which would strike the face while the hands were either side of it. The writer is acquainted with a woman who, by disregard of this precaution, destroyed the sight of one eye.

DISTRESSING MALADY.

REV. J. M. McLEOD, Zion Church, Vancouver. B. C.—"It is nearly three months since I finished the package of K. D. C., and though I have for more than twenty years suffered from Indigestion that one package seems to have wrought a perfect cure. Since taking your remedy I have not had the slightest symptem of a return of my old enemy. It affords me much pleasure to recommend K. D. C. to the numerous family of dyspentics as the best known remedy for of dyspeptics as the best known remedy for that most distressing malady." Sold by druggists at 35c and \$1 per bottle.

Handsome women every where, no matter how graceful and lovely they are, realize the necessity of also having their clothes graceful and stylish to properly set off their charms. A limp and poorly hanging costume will spoil any one's appearance while a stylishly stiff gown falling in the proper modiste folds, will cover a multitude of defects in the wearer. That is why Fibre Chamois is equally popular with all women. It gives a flexible willowy grace to

sleeves and skirts-a pliable stiffness that can't be exhausted—a durable style that is just as chic and charming at the end of the season as at the beginning. It is the back-bone of all stylish effects in gowns or wraps and yet is of such feathery lightness that its presence is never felt. Save yourself from disappointing imitations by finding the label on each yard.

Study Economy...

Everybody considers it a luxury to use Johnston's Fluid Beef, and so it is, but when it can be bought in 16 oz. bottle for \$1.00 it is also economical.
