PAID-UP CAPITAL \$850,000. Has pleasure in announcing that the directors have, WITHOUT COST TO THE SHAREHOLDERS, AND WITHOUT DRAWING A DOLLAR FROM THE RAPIDLY ACCUMULATING TREASURY FUNDS, secured to the company 360 ACRES of oil leases, situated in the boll Byldstread, 24 miles southwest of the company's holdings in the Raleigh Oil Fields, and adjoining the several wells recently drilled and operated by the Union Gas and Oil Company. The directors consider this a very valuable acquisition for the company, the property having been acquired by them upwards of a year ago for personal development. The contracts are now being made for active de-

velcpment upon this property. The Gurd Gusher is steadily producing about 100 barrels of oil per day, and the president states: "I have every reason to expect, as soon as we can make improvements by the installation of an air compressor, that the production will be increased to from 400 to 500 barrels per day." Owing to the courtesy of the Standard Oil Co., having, without expense to the Dominion Oil Co., Limited, installed a pipe line from the Gura Gusher, the Company posseses exceptional facilities for marketing this product, which is bringing THE HIGHEST PRICE OF ANY OIL ON THE NORTH AMERICAN CONTINENT.
