The vessen four American women disposed of in this manner. They were all the wives of Chinamen. One of the death of the clath of th It was a scorcher, too, that poem. It was as sultry as August under the Flatiron building. "Woman," went on Mr. Purinton, clasping his hands with an "O, you saucy thing!" gesture, "is the event, man the incident.

"I have a woman's soul. Byron, Oscar Wilde had women's souls. Richard Le Galliene, Elbert Hubbard, I—all who rouse the divine heart of women today—have women's souls. "Love is impulse, ebullition. One can't be expected to feel what he doesn't know. There is the creative age. Bernard Shaw has purposed, but he has not loved. When has purposed, but he has not loved. When nature starts to make genius, she forms one man or woman who is oversexed. Nature makes the siren and blesses her in the making. Civilization makes the vampire and damns her in the making. Fay Davis, who plays the lead in 'Man and Superman,' plays it is a vampire. Shaw treats of husbands and lovers. Does he not know a good lover is always.

es he not know a good lover is always a bad husband? There are no husbands or wives in the scheme of creation, only overs, sweethearts. I don't like the word wife. It makes me shudder—shudder."
Mr. Purinton spent several seconds flut-"I have written a poem. Let me read it to you," he continued.

This was all about the east wind and "and," declared Mr. Purinton in the last line, "I am the child of the soundless sea and the great east wind."

In closing he said:
"But all genius is feminine, anyway. Ah, remember through life and birth and death it is only love that counts—love."

His voice drifted into a dying fall which set the silks rustling all over the house, and he flowed out into the wings.

Later he stood behind the scenes hugging his ways and the scenes hugging his ways and the scenes hugging his ways and he flowed out into the wings.

recovering.
"Ah, I am restless, restless," he said.

A MEDICINE CHEST IN ITSELF.—
Only the well-to-do can afford to possess a medicine chest, but Dr. Thomas' Eclectric Oil, which is a medicine chest in itself, being a remedy for rheumatism, lumbago, sore throat, colds, coughs, catarrh, asthma and a potent healer for wounds; cuts, bruises, sprains, etc. is within the cuts, bruises, sprains, etc., is within the reach of the poorest, owing to its cheapness. It should be in every house. Many a business man keeps his con science in cold storage.

Never judge a woman's love for housecleaning by her dislike for dirt.

TORONTO, ONT.

PHOTOS SENT BY WIRE

German Scientist Can Transmit Pictures by Telegraph.

Munich, Oct. 31. - Prof. Korn, a leading electrical inventor, claimed in a recent lecture before the Electro-Technical Association that the problem of transmitting photographs by telegraph had been solved in principle, and was now possible to transmit a photograph or sketch six inches square in from 10 to 20 minutes. This was done over a telegraph line between Munich and Nuremburg, but was equally practical over 1,000 miles. The photograph to be transmitted is placed in a transparent glass cylinder, which revolves slowly, at the same time moving from right to left. A ray

of electric light is thrown upon the cylinder and iens, and when the ray reaches the interior it is brighter or Inside the cylinder is some selenium which transmits an electrical current lum transmits the current more rapidly in bright and less rapidly as the

light decreases. This selenium is con-The demonstration was the most ders at the thought of what Trafalgar so that women stirred uneasily in their at the other end, and thus reproduces the exact shade of the original photograph.

Chinese First Printers.

Centuries before "the art preservative" was known in Europe the Chinese had practiced printing, and had produced ilengravings dating from the thirteenth ligion for reproducing texts and images of the Buddha.
