Insurance Rates—Pumping Cost All Right.

Hon, Adam Beck has called a meet-Ing of the sixteen gentlemen who were behind him in January last in his water scheme, to consider his plans before submission to the water com-

The members of the committee are Mr. T. F. Kingsmill, T. H. Smallman, C. B. Hunt, Col. J. W. Little, Col. W. M. Gartshore, F. E. Leonard, Col. A. M. Smith, Geo. C. McCormick, John H. Chapman, R. J. Young, C. R. Somerville, W. W. Thomson, John Labatt, ex-Mayor F. G. Rumball and Mr. Thomas Baker.

The meeting will be held in board of trade rooms, and it is expected that all the members of the committee will be on hand, except Col. Little, who is in Europe.

What Will Be Done. Mr. Beck is out of the city today, but it is understood that he will pro

duce some very valuable information for the public. He will furnish 2,500,000 gallons of

good water, with a reservoir of 5,000,-900 gallons capacity; a steam plant and electrical plant of the most up- tions for the Clyde House, owned by to-date make, and a high pressure will-undoubtedly reduce the insurance rates, for a sum not much in excess of

These figures are based not on estimates but on actual tenders for the work to be done, from some of the best firms in America, as well as from local contractors who are to do a cer tain portion of the work.

Cost of Pumping. The cost of pumping will also be given, and the figures will be an agreeable surprise, it is expected, to those who were informed that the cost pumping would be quite excessive. As a matter of fact the pumping will cost

The Beck wells, seven of them, are being pumped, and they show a fine flow of water sufficient to convince any person that the quantity is there and the quality as well. The McGregor Wells.

There is no probability, so far as

can be learned, that the water commissioners will take in the McGregor wells without consulting the people The transaction would involve

to the matter this afternoon, but he declared that he had heard no discussion among the commissioners about taking over the McGregor wells without consulting the people

"We have not discussed it," he stated, "We are waiting on Mr. Beck, as we understand he has a proposition to submit to us. When that proposition is discussed we will do something, I presume."
