ORDER TO STOP FIGHTING IS EXPECTED VERY SHORTLY

Efforts of Bulgaria to End the War Hastened by Action of Roumanian Army In Hurrying Troops Over the Frontier,

[Canadian Press.] Vienna, July 11. - A dispatch from Belgrade reports that an or-

der for the cessation of hostilities between the various armies in the Balkans is expected to be issued immediately. It says that a tacit armistice has been in existence at most points since yesterday.

ROUMANIANS MARCH. [Canadian Press.]

Sofia, Bulgaria, July 11. - The Roumanian minister to Bulgaria left his post today after notifying the Bulgarian Government that the Roumanian army had crossed the Bulgarian frontier. Bulgaria has decided not to resist the invasion by the troops of her northern neighbor, which she considers, however, an unprecedented provo-

> MAY END FIGHT. [Canadian Press.]

London, July 11. - The Roumanian eclaration of war on Bulgaria is exected here to assist in bringing to an nd the carnage in the Balkans by orcing speedy action on the part of the powers who have been invited to

The object of King Charles of Roumania in assuming the part of a bel-Agerent is to strengthen Roumania's able to defy a bombardment by the Rustions against the employment claim to participate in the ultimate sians, but after the last Russo-Turkish sharing out of territory in the Balkan war the Turkish troops retired and lef Peninsula. For the present Roumania, it is thought, will probably content herself with occupying the strip of Bulgarian territory from Turtukai, on the Danube, to Baltchik, on the Black Sea, including the city of Silistria. She has coveted this for a long time, and it is believed she will accomplish her object under the prevailing conditions without Bulgarian resistance.

Bulgaria Beaten. While all the Balkan dispatches claim that Bulgaria has been beaten to her knees, by the Greeks and Servian armies, whose road to Sofia is declared now to be practically open, it is possible that Bulgaria's appeal to the Czar, assuming it to be true, has been prompted much or more by Rou mania's action than by the successes reeks and Servians. The Rou manian mobilization has advanced far enough to enable that country to move a large part of its rmy, and, according to reports from Vienna, a Roumanian detachment crossed the Bulgarian frontier yesterday after-

Roumania's Move.

Recent rumors that Roumania was standing by to see whether or not in would pay her better to attack Bulgaria or the Greeks and Servians have now disappeared, and she seems to be determined to use the occasion to wring from Bulgaria all the territory she claimed as a reward for her neutrality during the war between Turkey and the Balkan States, but of which by Building Inspector A. M. Piper, and from the north, accompanied by hurgave her only a part.

The war commentator of the Daily Telegraph, who is now at Bucharest telegraphs that Roumania's mobiliza tion would be completed last night She will want four more days for the concentration of the troops, and then the passage of the Danube will mark a new chapter in the history of South eastern Europe. The Danube will be crossed next week.

Whether this connotes a new war between Bulgaria and Roumania cannot as yet be said, but it is believed here that Roumania intends to occupy the territory in question, especially Silistria, and take chances of Bulgaria's ability to dislodge her.

Greek Victories. There was an ominous absence of any news from Sofia last night, but all dispatches from Servian and Greek centres, report fresh disasters to the Bulgarians. The Servians and Greeks are said to have joined forces at Radovitch, fifteen miles from Ishtib, and are pursuing the Bulgarians.

A whole Bulgarian division under General Ivanoff, variously said to number from 24,000 to 50,000 men, is reported to have been cut of by the holes most certainly should have been victors and to have surrendered en bricked up. This, as usual, needs

It is reported from obtained had the work been put down that the city will, before long, benefit Belgrade that a battle is on at Kusteniil, fifteen miles within the Bulgarian rontier, and thirty miles from Sofia. This also is not confirmed. The Servians claim that not a single Bulgarian soldier except prisoners is now

on Servian soil. ROUMANIA WILL SHARE.

[Canadian Press.] Bucharest, Roumania, July 11. -The Roumanian Government decided yesterday to notify the Bulgarian Gov-ernment that the Roumanian army would cross into Bulgarian territory and also that Roumania would take part in the discussion of the final partition of the territories of what was formerly European Turkey.
