Tonight sure! Take Cascarets and enjoy the nicest, gentlest liver and bowel leansing you ever experienced. Wake up with your head clear, stomach sweet, breath right and feeling fine. Get rid of sick headache, biliousness, constipation, furred tongue, sour stomach, bad colds. Clear your skin, brighten your eyes, quicken your step and feel like doing a full day's work. The Perfect Corn Flakes

Sold by Grocers everywhere.

New Post Toasties are not only inexpensive but they have a new deliciousness, produced by a new process of cookery—the first to produce corn flakes with the selfdeveloped true corn flavor.

So fine is this flavor that New Post Toasties are wonderfully good eaten dry. Try some that way-you'll appreciate the point, though they're even better when served with cream or good milk.

These New Post Toasties don't mush down in milk or cream, and they are not "chaffy" in the package, like common flakes. They're new in form, new in flavor, and new in appearance. Note the tiny "bubbles" on each flake—an identifying feature.

Put up in wax-sealed packages, New Post Toasties retain their oven-crispness and flavor until served at your table.

Have your grocer deliver a package for tomorrow's breakfast,
