to Its Legality and Practicability.

City officials take kindly to the idea suggested by Ald. G. A. Wenige, that taxes upon all new dwellings erected in the city bt remitted, thereby providing a building boom, employment and reducing rents. However, whether the council has power to enact such a by law is a point in question which will be debated by members of the city council before a final decision is reached. If carried into effect this scheme will mean the remission of approximately \$80,000 in city taxes, or exemption of \$1,500,000 worth of new dwellings, and land valued at \$500,000, at a 40-mill rate. These estimates are based on figures obtained at the city assessor's office for 1920, where it is estimated dwellings to this value were erected. "There are several good points about this thing, and it is an idea worth con-sidering," Mayor E. S. Little informed The Advertiser this afternoon. "Whe-
