

## SPLendid SHOWING OF CLYDESDALES AT THE WESTERN FAIR

Judges Experience Considerable Difficulty in Selecting the Prize Winners.

The judging of the Clydesdale horses took place at 1:30 o'clock yesterday afternoon. The entries were large, and the judges experienced difficulty in selecting the prize winners. The following are the winners in the different sections:

Stallion, four years old and upwards—**Brandon Bros.**, Forest; Albert Bass, Oil City; W. Colquhoun, Mitchell; J. C. Henderson, Lakeside; J. W. Jackson, Oil Springs.

Stallion, three years old—**J. Sercombe**, Theford; W. W. Hogg, Thameford; Alexander F. McNiven, St. Thomas; Hastings Bros., Guelph; St. Thomas, Wallaceburg.

Stallion, two years old—**Brandon Bros.**, Forest; A. McMahon & Sons, Wyoming.

Stallion, one year old—**A. and J. Broadfoot**, Seaford; W. W. Hogg, Oil Springs; N. C. Montague, Jarvis; W. Hogg, Thameford.

Stallion, any age, for sweepstakes ribbon—**Brandon Bros.**, Forest.

Brood mare with foal by her side—**J. Broadfoot**, Seaford; W. W. Hogg, Thameford; Herbert Peacock, Jarvis.

Filly, three years old—**R. Duff & Sons**, Myrie; Herbert Peacock, Jarvis.

Filly, two years old—**R. Duff & Sons**, Myrie; W. Galloway, Oil Springs.

Filly, one year old—**Brandon Bros.**, Forest.

Foal of 1921—**A. J. Broadfoot**, Seaford; W. W. Hogg, Thameford; Herbert Peacock, Jarvis.

Mare, any age, for sweepstakes ribbon—**R. Duff & Sons**, Myrie.

Stallion and three of his get, any age for sweepstakes ribbon—**A. Bass**, Oil City.

## EXCEPTIONALLY GOOD SHOWING OF HONEY

Judging Took Place Monday Afternoon—Prize Winners Announced.

The honey exhibits at the Western Fair this year, as judged yesterday, of an exceptionally high standard. The judging took place at 1 o'clock Monday afternoon. All honey shown, under the regulations of the Fair Board, is the production of the exhibitor.

The results in the different sections are:

Best 200 pounds comb honey in sections, put up in most marketable shape—**F. Wright, Glanworth**.

Best 200 pounds liquid extracted honey, display to count 50 points—**F. Wright, Glanworth**; J. C. Teiford, Southwood.

Best 40 pounds liquid extracted clover honey, display to count 20 points—**F. Wright, Glanworth**; J. C. Teiford, Southwood.

Best 30 pounds liquid extracted honey, any other variety in glass containers, display to count 50 points—**F. Wright, Glanworth**; J. C. Teiford, Southwood.

Best 40 pounds granulated honey, in glass display to count 30 points—**F. Wright, Glanworth**; J. C. Teiford, Southwood.

Best 24 sections comb honey—**F. Wright, Glanworth**; G. Kimball, Ilderton.

Best 10-pound beeswax display—**F. Wright, Glanworth**; J. C. Teiford, Southwood.

To the exhibitor making the best display in honey department, including all sections—**F. Wright, Glanworth**.

To the exhibitor making the best display, and who has never previously won a first prize—**J. C. Teiford, Southwood**.

Maple syrup, half-gallon, in quart glass packages—**W. J. Kennedy, Ilderton**; A. C. Baker, R.R. 4, London.

## HAD LUNG PUNCTURED BY HEAVY HAYFORK

Thomas McQueeney, of 486 Elias street, in St. Joseph's Hospital in a precarious condition from injuries he received while helping unload hay at the farm of Dr. J. Stevenson, Monday on Saturday afternoon. Mr. McQueeney, who is 70 years old, was struck in the back by a heavy hayfork which ran four inches into his lung. The blow knocked him off the load of hay and Mr. Wilkie, who was close at hand, rushed to his assistance and pulled the fork out. He was rushed by auto to London, where he was attended by Dr. J. Stevenson. Although his condition is very serious it was stated last night that there is every hope for his recovery.

## Crowds of Excited Youngsters Enjoyed Sights At Big Fair

Attendance at Western Fair on Monday Record for First Day—Over 25,000 on Grounds, Say the Officials.

Before packed grandstands, which must have contained not less than 8,000 or 9,000 spectators, a brilliant program of varied acrobatic and comedy acts closed the first big day of the Fair, which registered the greatest attendance for any Monday in recent years. There must have been not less than 15,000 children on the grounds during the day, and with an adult attendance of at least 10,000 or more, the total attendance for the day must have been well over 25,000.

Two bands provided plenty of excellent music, the 1st Western Ontario Regimental Band playing throughout the program, and the W. O. R. Pipe Band, as a feature attraction, was enthusiastically acclaimed when it came marching around the ring.

**Clever Mirth-Provokers.** Morris and Morris have an unusually fine novelty act comedy and their equipment including a made-to-order horse and cab, with which many a well-known situation has been produced. Their fancy trapeze work with a broomstick is also very clever.

The Four Ortons, a pair of highly-trained ducks provide a remarkable amount of merriment, as they swim and also on a bicycle.

Dutton's Equestriennes, a company of splendidly trained riders and horses, are exhibiting a splendid display of dressage, jumping, and many other features. Daily Mack and Daly are roller-skating artists in a class which they themselves, their marvelous skill on the rollers evoking repeated rounds of applause.

**Bear and Bicycle.** Robinson's baboons, as trick bicycle riders, perform riding feats that are truly remarkable, while a well-trained bear sports himself in almost every imaginable manner, both on a large globe, which he rides, and also on a bicycle made to his measure.

The Four Baltons perform great feats of acrobatic stunts, difficult to surpass. Perhaps the biggest and most original feature of the fair is that of the Hand's International Nine, in the person of which is represented Arabian, Japanese, Mexican, Russian, French, Italian, Polish, English and American races and nationalities.

Harry Thompson, a young fine vocalist, opens the program with song numbers. **Fireworks Noley.**

The fireworks were as good as ever in years past. It was varied and beautiful, and while it included nothing strictly new in the matter of display or color, some pieces of it probably surpassed anything ever heard at the fair. The collection of fireworks for export is of intense interest.

Despite the large crowds of school children, many of them from the surrounding towns, and the fact that the fair was open for many hours, there were no accidents of any moment suffered by the young folks. Fifty or sixty of them, however, were taken to the hospital for various reasons, or lost their chaperones, teachers or parents with whom they came to the fair.

**Members of local clubs took home in autos all whose parents failed to call after the fireworks.** Members of the Florence Nightingale Division and the No. 51 Division of the Canadian Ambulance Brigade had no milk waiting for all the local kiddies who were brought in, and this in most cases caused them some trouble in getting home, and they were taken home quite happily.

**Several Emergency Cases.** Serious cases handled by the emergency hospital include one nasal hemorrhage, which a workman suffered following a blow on the nose, a fractured shoulder and elbow suffered by a foreign-speaking woman who was kicked by a horse while crossing the grounds, and an incident case of blood-poisoning attended just in time. In the last case the sufferer had injured his knee on the way to the fair, and the infection probably would have resulted more seriously had not the emergency hospital been close enough at hand for him to be treated conveniently.

**Lions Treat Orphans.** Two hundred children from the various orphanages in the city enjoyed the Fair through the co-operation of members of the Lions' Club of the city. Thirty automobiles brought the little orphans from the Protestant Orphan's Home, the Mount St. Joseph's Home, the Byron Preventorium, the Ronald Gray and Thomas Alway Homes, Candy, Ice cream, horns and balloons were also provided for each child.

The Lions' committee in charge included Charles Graham, Wismer, Forge, Sherwood, Whittle, Wray, Hamilton, Moore, Foster, Stirling, Orme, Chambers, Keene, McFie and Lewis.

## NOTABLE EXHIBITS AT WESTERN FAIR

THOMAS BROS.' EXHIBIT

"Keep your eyes on Thomas," when you visit the Western Fair this year.

See this exhibit on the second floor of the Crystal Palace. The charm of a perfectly appointed parlor or living-room is always emphasized by the Thomas Bros. exhibit. It is a luxuriously comfortable davenport, or a large sofa, in a jiffy into an elegant bed, or a splendid variety of modern overstuffed, colonial and period styles, luxuriously upholstered in the richest of tapestries, velours, leathers or leather substitutes. All woods, all finishes, but only one standard of quality—this is the highest and fully guaranteed. Kroehler Davenport are made long or short—for rooms large or small. But either size is equipped with fine size patented, eagles, metal, folding end-frame and springs, and also with a luxuriously comfortable 35-pound Kroehler made-and-fitted resilient mattress. A mattress, which is illustrated booklet containing all the necessary information on this davenport will be given if asked for.

For stoves and heaters of the better kind, "Keep your eyes on Thomas" in the Machinery Building.

## CHRISTIE-BROWN BISCUITS

One of the most attractive exhibits at the Fair is the splendid display of biscuits made by the Christie-Brown Company, Limited, in the Pure Food Building at the Western Fair. Among the collection of the chocolate and coconut macaroons, which are such a welcome addition to the tea or dainty luncheon, are also a variety of other biscuits, which are no greater treat than a visit to the booth of this popular firm. It is situated at the west end of the building, and has an alert staff to answer questions of the housewife.

Christie-Brown biscuits have become famous the world over, and the many new brands exhibited are sure to please the most discriminating housewife. "Which biscuits are absolutely best?" is the question that every housewife asks. The answer is, "Christie-Brown biscuits, you eat the best." is the slogan of the company.

Fair visitors were intensely interested and well delighted with the display of the sample biscuits, which were generously supplied to the always large crowd in front of the booth.

Pre-war biscuits for afternoon tea, such as Philadelphia, acorn, wafer, rolls, and an absolutely new line, lucerne chocolates, are on exhibit.

## WHO SAID ORANGE CRUSH?

That snappy drink that so many people are talking about at the fair grounds this year is Orange Crush. It is made from the juice of the choicest of California oranges, and is exceptionally healthful and appetizing. Fair visitors were intensely interested and well delighted with the display of the sample biscuits, which were generously supplied to the always large crowd in front of the booth.

Pre-war biscuits for afternoon tea, such as Philadelphia, acorn, wafer, rolls, and an absolutely new line, lucerne chocolates, are on exhibit.

## BEEKEEPERS' SUPPLIES

The largest manufacturing concern of beekeepers' supplies, which is located at Ingersoll and has factories throughout different cities in the States, has set up a booth in the Machinery Hall at the Fair this year. This exhibit was one of the most popular at the National Exhibition in Toronto.

It is well worth the while of beekeepers to see this exhibit. Valuable information can be obtained regarding the rearing of bees from a very obliging staff. This firm also mails queen bees to all parts of the world. Bees actually hatching can be seen in the brood chamber. All the necessary utensils for the bee-keeper are on exhibition.

## "CHARM" THE CLEANER

In the course of research work when the war was at its height the discovery of an entirely new method of cleaning was made. This new method has been made adaptable to household and other purposes, and is now being offered to the public as the chemical product called "Charm." This is on exhibition in the Machinery Hall at the Western Fair this year, and free samples of the product are being given away. It cleans clothes, dishes, floors, or you may wash your hands and face with it. It forms no suds, has no odor, dissolves completely in water, and it goes a long way and lasts a long time.

This product is for sale at all grocers, and is the friend of all housewives. Ask for it!

## LONDON SIX POPULAR

One of the main exhibits in the Motor Building is that of the London Motors, Limited, manufacturers of Canadian-made cars. Special interest is being manifested in this exhibit, because of the fact that this is the first car to be introduced into Canada which possesses the undisputed qualities of the London Six. And there are still more reasons. It was a Canadian, W. R. Stansell, who introduced the car, and who is now president and general manager of the London Motors Limited. This car is manufactured in London, Ont., by Canadians.

## SMOOTHER THAN VELVET

"Smoother than velvet" is the motto that Silverwood's Limited, has used for years in reference to the quality of their ice cream. This year at the Fair the motto is better backed than ever. Children's day found a great demand for Silverwood's on the grounds, and no matter where your eyes changed to room you were confronted by a Silverwood's sign.

Silverwood's Limited, have a wonderful system of distribution, and their ice cream is shipped to all points between Windsor and Niagara Falls, the shore of Lake Erie and the Georgian Bay. The capacity of the present plant situated in London is 4,000 gallons a day. The product is manufactured in five distinct flavors.

Silverwood's Limited, has secured exclusive rights to manufacture ice cream by the new carbonated process, and in the Pure Food Building a demonstration of this process may be seen in the Crystal Palace balcony, far away from the noise and turmoil of the open grounds, one may sit down in perfect contentment and enjoy a dish of Silverwood's. This booth is being conducted under the auspices of the I. O. D. E.

## HYDRO WASHING MACHINE

If you are contemplating buying an electric washing machine, have a member of the staff of the Hydro Shop exhibit in the Crystal Palace at the fair, show you the many advantages of such a machine. These machines take the pressure for the housewife to do her own weekly wash. The Hydro Shop is exhibiting the "1900" Cataract Washer, which is so simple in design and construction that no knowledge of machinery or electricity is necessary to produce work of the finest quality. After the washing comes the ironing. This is another drudge to the housewife. But why worry if you have an electric iron? These irons can be heated by gas or electricity and can do nearly all the family ironing. Ask to have one of them demonstrated to you.

A full line of up-to-date electric stoves are also on exhibit. Made in London, Ontario Electric Lamps. They are exceptionally serviceable.

## A BUSINESS TRAINING

The young man or woman who contemplates taking a business college course in the near future should visit the exhibit of the Western Business College in the machinery hall at the fair. This college was established 27 years ago in this city by J. W. Westervelt, Sr., who is still head of the penmanship and commercial papers departments of the school. The business men of this city recognize this school as the best place to get office help from. The school is equipped with the best mechanical bookkeeping machines. A full line of calculators, adding and electrical bookkeeping machines are also shown. Students are taught to use these at the school for adding, subtracting, dividing and multiplying.

Each member of the teaching staff has received the very best of experience. The principal, W. E. Marshall, has had eleven years' experience in teaching. He was formerly principal of the Sarnia Business College. J. W. Westervelt, Jr., C.A., is head of law, rapid calculation and advanced bookkeeping departments. Mrs. Harris, who has been teaching for eighteen years, Misses McArthur and Wright, who have charge of the Gregg shorthand department, have been teaching for a number of years. Miss McGoig is in charge of the Pitman shorthand department and Miss Selman is head of the typewriting department.

## COOKING BY ELECTRICITY

A popular exhibit in the pure food building shows in a demonstration of cooking and baking with the McClary electric range. The simplicity and sanitary advantages of this electric range are shown to the always large number of onlookers.

There are many reasons why this range has become so popular. The heating system under your control. You turn the switch to either full, medium or low. There is no gas, no smoke, no heat of your oven. With definite heat you can time the process of cooking or baking to a nicety. There is no constantly watching—relaxing, anxiety and toil.

Four types of McClary's electric ranges can be seen at the exhibit in the machinery building. They are of battleship gray porcelain enameled finish. This finish is the same as that of the battleship, and is used on your bathtub or kitchen sink. It is clean and indestructible. McClary's electric ranges, which this finish is used, all exposed parts are enameled.

McClary's electric ranges with the enameled finishes makes it possible to have such a charming kitchen, so pleasing to the eye that it is a joy to work in it, so easily kept immaculate that it noticeably brightens the day's work. Make it a point to have one of these stoves demonstrated to you.

## "RUGGLES BUILT" MOTOR FIRE TRUCK

SEE THIS TRUCK AT THE WESTERN FAIR.

When London Needed a Powerful Reliable Motor Fire Truck Ruggles were commissioned to build it

Because they are building trucks that are making motor-truck history every day—trucks that are standing up to all kinds of work and handling and "delivering the goods" as they were built to do.

Cities and towns thinking of motorizing their fire departments—in whole or part—would do well to write us for prices. Full information gladly furnished.

## RUGGLES MOTOR TRUCK CO., Ltd.

LONDON, CANADA.

The Whitaker Company of Brantford is also a user of Snow White Flour. This is the first time that the company has been able to produce such a large quantity of flour in this city. As an example of the popularity of Snow White Flour, leading baking companies of the city are now using it. All these firms have on exhibition a sample of their work. Companies using Snow White Flour in this city are: The Ideal Baking Company; F. E. Leavens, Baking Company; Brantford O.K. Baking Company; and the Dean Baking Company.

## DECORATION SERVICES HELD AT CLINTON

CLINTON, Sept. 12.—Very successful decoration services were held yesterday afternoon at Clinton Cemetery by Lodges No. 83, I.O.O.F., and No. 116, L.O.L. The lodges marched to the cemetery, which is about a mile from town, headed by the Clinton Band and followed by a large number of motor cars.

It was the first occasion on which the Orangemen held a decoration service, and on account of their large membership in this vicinity a record crowd was in attendance.

The order of service as printed for the occasion was carried out successfully, and in addition to special music, two addresses were given by Rev. Capt. McKenney of Clinton.

More than 100 graves were decorated by the Orangemen, among which were those of three returned soldiers, thirteen young ladies, all dressed in white, assisting in this part of the service. The Oddfellows decorated about 50 graves.

One large bouquet was placed on a soldier's grave in honor of those who had fallen overseas, and Col. Combe read the names of the 400 boys who had paid the supreme sacrifice, the members of the order bowing their heads for one minute.

One large auto conveyed the bouquets of the Orangemen to the grounds, in addition to those carried by the returned soldiers and Oddfellows.
