Montreal, July 7.—A generally strong tone again prevailed on the Montreal stock exchange this morning. Winnipeg Electric was the center of interest, and in the early dealings touched the new high of 51%. Penmans changed hands in odd lots at 162, as compared with the last board lot sale at 161.

Montreal Power was a firm feature, with a recovery of 2% points to 191½. National Breweries, which gave a firm display yesterday, was slightly easier at 45%. Grain Markets

Winnipeg Winnipeg. July 6.—The wheat market here today was featureless and with a lack of export trade and general buying power, quotations fell away from Saturday's close, recording losses of to 1%c at the close. October, the strong feature of last week, declined 1c, closing at \$1.31%, after having reached a high for the day of \$1.32%.

There was good buying of both July and October at times, but the volume was small and sellers were more in evidence in a market weak in buying power. The early part of the session witnessed slightly higher prices, but when the limited demand was filled, recessions started and there was no "come back."

the limited demand was filled, recessions started and there was no "comeback."

The coarse grain markets were a dull, narrow affair, with prices holding firm and little changed from Saturday. There was no export business reported and the demand was very ordinary. The flax market was very weak, breaking about 6c on the early trading.

Cash grain offerings were light again today, and very little demand existed, with the result that all markets were generally quiet. Canadian mills took small supplies of wheat, but there was no buying from other sources. no buying from other sources.
