Cariboo.

The Cariboo Express brings us dates to the 10th inst., but the news is rather uninteresting. We compile the following summary from the *Sentinel*:—

MISCELLANEOUS ITEMS.

On the 7th the Gold Commissioner held an inquest on the body of a Chinaman, found on the road between Van Winkle and Richfield. The jury found that deceased came to his death by the visitation of Providence. $34 37 were found upon his person.....The four men connected with the Canadian Claim in the late suit, and who were sentenced to a short term of imprisonment, were set at liberty by the Commissioner on the 8th inst., for which act he is highly commended.....Up to the 10th upwards of 100 freighted animals had arrived on the Creek, in consequence of which the market was well supplied.....The Gold Commissioner has issued an order requiring those whose flumes are connected with the Bed-Rock Drain to assist in preserving the drain from damage, by the construction of bulk-heads &c. .....A number of milch cows arrived on the Creek on the 3d inst.

MINING INTELLIGENCE.

WILLIAM CREEK.

Owing to the havoc caused by the late freshet on William Creek, none of the creek companies below Barkerville had been able to resume operations. A large amount of cribbing and breastwork had been done for the purpose of securing claims against an overflow. It was hoped work would be resumed in all these claims in about two weeks. The claims above the canyon being all worked by the hydraulic, or ground sluice, would not wash up for some time, so that the only 'wash up' worth noticing during the week was the Davis co., 290oz.

CONKLIN GULCH.

Tie United Co washed up on the 9th 108 oz and declared a dividend for two weeks of $300 to the share. The Britannia co, are making $10 to $14 a day to the hand.

LIGHTNING CREEK.

The copious supply of water that now runs in the creek has enabled almost every company to commence operations, and it is expected that in the course of a few weeks a great deal of gold will be taken out. Much interest is felt as to the developments soon to be made by the bed rock tunnel, now being run by the Now-or-Never co. into the east bank, where it is well known a hill channel exists. Should this company find good prospects on tapping the channel, quite a rush may be expected, as there is every reason to believe the channel will follow the whole length of the creek. There are now about 53 white men, and from 20 to 30 Chinamen at work in the various claims.

GROUSE CREEK.

The Black Hawk Co. washed up from 5 days work last week, $5000.—Heron co, are not taking out much pay, having got into what appears a very narrow canon,—Full Rigg and Discovery co's are busy ground, sluicing their front ground.—Blind Channel Co. have commenced drifting up stream in order to strike bed rock, and are getting encouraging prospects.

KEITHLEY CREEK.

The Anglo-American Co. have suspended hydraulicing operations, and commenced drifting. It appears they got on the old channel, but found no pay. Touvener Co, about a quarter of a mile above the last named company, are preparing to run a tunnel into the bench.

HARVEY CREEK.

There are two companies at present on this creek. Kimbell & Co, are engaged running a bed rock tunnel into the hill, where they are sanguine of getting a "big thing." They are now in 120 feet from the creek.—The other company, which is located at the mouth of the creek, have been making from $5 to $6 a-day to the hand, until lately, when they were compelled to quit in consequence of the high water.

CEDAR CREEK.

According to late accounts from there, most of the claims had commenced work. The Discovery Co. are said to be making an ounce a-day to the hand. Provisions are selling at very reasonable prices: flour 22c. and beef 40c. per lb.

COQUET CREEK.

There are some 20 Chinamen at work on this creek, who are reported to be making $7 and $8 a-day.

STEVEN CREEK.

Some little excitement was manifested during the latter part of the week, in consequence of a rumored strike on this creek, causing a stampede to that locality. On Friday, we are informed, 3100 feet of ground was staked off, and as much more on Saturday. It appears that a company which had been working on the creek all winter sank a shaft in the bank to the depth of 20 feet, and washed up two ounces from the bottom.

STORIES FROM A PARIS COFFEE HOUSE.—The Paris correspondent of the London *Star* says: A few years ago a man of a certain age, very well dressed and gentlemanly in appearance, frequented Tortoni's, and every morning asked for a cup of coffee and a roll. He one day went away without paying; the same circumstance occurred the second, and even the third day. The waiter informed the proprietor. "Serve the gentleman as usual, and do not pay the least attention to his conduct," said the latter. For one year this went on, when suddenly the customer disappeared. The proprietor had almost forgotten him when to his surprise he received carriage paid, twelve chests of coffee and twelve bales of sugar. A letter accompanied these singular packages, stating that the writer was a rich planter of Martinique, who for some time had been in difficulties, and begged thus to acknowledge the polite kindness of his host, who for one whole year had allowed him to run in debt to him. The manager and proprietor of another *cafe* situated in the Quartier Latin, was one day informed by one of his waiters that a well dressed personage had just been observed to pocket a silver spoon and a fork. The waiter was desired to make no remark, but when the bill was handed to the strange customer its last entry ran thus: "To a silver spoon and fork which monsieur has in his pocket, 50f.—£2." The latter paid without making the slightest remark, but naturally never reappeared.
