They have a Derby over in Persia. A lot of men enter their horses and deposit the entrance fees with the Shah. The race is then run, after which the Shah takes possession of the winner, and sticks to all the entrance money. There is a business-like simplicity about sport in Persia which speaks for itself.

The yacht race at Belleville on July 23 for the commodore's cup attracted but two for the commodore's cup attracted but two entries, viz, the Gracie, 11 tons, and the new Iolanthe, 12 tons, both second-class yachts. During the first round the Iolanthe led on time, but in the second she got becalmed, and the Gracie got a lead of 8 min. 45 sec. on time, and finally won by 2 min. 18 sec.

A great many improvements have been made to Gates' race course at Newmarket. The track itself has been put in good order The track itself has been put in good order and things generally are assuming a ship shape appearance. A new judge's stand is to be erected. Meetings either for running or trotting will be held every Saturday throughout the season, and on the civic holiday a steeplechase and a flat race are to be given. Gates is undoubtedly one of the best cress-country courses in the dominion, and its new lessee, Mr. Smart, with commendable enterprise, is determined to make it one of the most popular. ed to make it one of the most popular. An exchange seriously discusses the "Deseased Wife's Sister Bill." It appears that the bill which made it lawful for a man to marry his "deseased" wife's sister, has been defeated in the English house of commons. And it is not surprising that a bill proposing to treat an sflicted wife in such a heathenish manner should have been killed. The author of it should be similarly treated.

RESIDENT-SIR W. P. HOWLAND, C.B. WM. ELLIOT, ESQ.

Referring to the advertisement of this association in The World of Tuesday last, it may be explained that the much larger sum called for by the valuation made by Professor Cherriman, under the government standard for Canala, the is required by the valuation made by Mr. Homans on the standard for the Starts or New York, arises solely from the greater severity of the Mortality Table of the Institute of Actuaries of Great Britain as compared with the "American Experience" Table of Mortality, as the same rate of interest was used in each case.

The reason why the valuation made by this Association's own actuary calls for a STILL LARGER RESERVE than even that required by Professor Cherriman's valuation arises from the fact that the directors consider THAT SECURITY TO THE FOLICY-HOLDERS is the FIRST thing," and, therefore, not content to provide simply as in other companies, they add an additional TEN per cent. to the liability under all BONUS ADDITIONS and PAID UP ASSURANCES AS WALLD.
