omething That Stops Carelessness. Our reporter interviewed M. McConnell Our reporter interviewed M. McConnell yesterday respecting the National Cash Regis, ters. The following conversation passed:

Reporter: "I see you are using one of those national cash registers. Will you blease give me your opinion of its working? Mr. McConnell—I am only too pleased to say anything in favor of this ingenious invention. Reporter—Does not the machine come ex-

tion it gives. rter—It will take a long time to pay fo Reporter—It will take a long time to pay for itself?

Mr. M.—Well, it costs me just about 4 cents per day intrest on say \$200.

Reporter—Is your register durable?

Mr. M.—Yes, I consider it the same as a clock, it will last a life time.

Reporter—Will //you explain how it works?

Mr. M.—You see those keys here with different denominations?

Reporter—Yes.

Mr. M.—Well. suppose I sell three cigars for 25 cents, all I do is o press the 25 cent key, and the little tablet at the top shows up 25 cents. At the same time the drawer opens, and the wheel attached to the 25 cent keymakes a revolution of one, showing 25 cents against the drawer.

without resetting?

Mr. M.—It will register 870 times on each wheel, or upwards of \$20,000, without resetting.

Reporter—You seem to be well satisfied with your investment?

Mr. M.—Yes, and I would not feel disposed to part with it at any cost. On my trip to the exhibition at New Orleans I enquired about the registers, and I found them working in all the principal satablishments I visited. Howah & Hogg of Chicago use fifeen of them, and told me they found them of inestimable value, and would sooner part with any other part of their business than them.

prise which has been undertaken since the establishment of our two choral societies is the project for holding a series of Monday popular concerts during the seas in 1885-6 on the plan so successfully adapted in London, England. The series will coas so of twelve fortnightly concerts, commencing on Oct. 19 next, and while the performance of classical chamber music will be a feature of the scheme, a strong bid for the support of the general public will be made by bringing forward a succession of star vocalists and solo pianists. The educational advantages offered students of music by the regular performance of standard works will be at once evident. To the general public the concerts offer the advantage of hearing first-class solo singers at moderaty prices. Circulars fully explaining the scheme and terms of subscription can be obtained at the store of Mesers, A. & S. Nordneimer. A solo violencello player is to be brought over from Germany to complete the efficiency of the string quartette party.

Don't wait too long, hot weather is coming fast and the bankrupt stock of dress silks is well worth notice at the Boy Marche.

Will Last Till Mid-Summer. A World reporter met H. H. Cook, M.P., on the street yesterday. Mr. Cook was looking the street yesterday. Mr. Cook was looking hale and hearty. "When will the session end, Mr. Cook?" was asked. The big member for East Simcoe looked at the reporter sugpiciously and said: "You tell me and I will tell you. We liberals down in the house do not know what to make out of it. Nothing whatever has been done this session. If the business that should be transacted is got through with we will be sitting till the middle of July. Several of the members now carry their souches and lunch to the house."
