### WHAT A TRUE SCHOLAR IS.

The scholar in the true sense is the man or woman for whom the schools have done their best. The scholar knows some one thing thoroughly, and can carry his knowledge into action. With this, he must have such knowledge of related subjects and of human life as will throw this special knowledge into proper perspective. Anything less than this is not scholarship. The man with knowledge

and no perspective is a crank, a disturber of the peace, who needs a guardian to make his knowledge useful. The man who has common sense, but no special training, may be a fair citizen, but he can exert little influence that makes for progress. There may be a wisdom not of books, but it can be won by no easy process. To gain wisdom or skill, in school or out, is education. To do anything well requires special knowledge, and this is scholarship whether attained in the university or in the school life. It is the man who knows that has the right to speak.—David Starr Jordan, in Atlantic.

—Johnny.—"Pa, what is the law of supply and demand the papers tell about?" Wise Pa.—"It is a universal law, my son, that when a man is well supplied with this world's goods he demands more."—Boston Transcript.

—Mr. W. L. Brown, president of the American Ship Building Co., in an interview given out in Chicago, says that he is confident that ship building will continue to be an increasingly important industry on the great lakes. Wooden boats are wearing out and going to pieces, he says, and the territory fed by the lakes is rapidly increasing. The modern steel carrier must continue to supplant the poorer class.

—District Attorney Jerome was rather amused by the manner in which a tramp who strolled up to the kitchen door of his Lakeville home last Sunday morning sized up the labor situation. While the wanderer was devouring the food set before him he bitterly complained about the hard times. "But I had imagined that work was plentiful now," ventured Mr. Jerome. "Oh, yes," was the reply, "there is plenty of work all right, but if you belong to a union you have to be on strike most of the time, and if you don't belong to a union they won't let you work anyhow."—New York Times.

—Should the standard price of pig lead in the London market exceed £12 10s. per long ton, such bounty is to be reduced proportionately by the amount of the excess price. The Canadian Government has decided to pay a bounty of 75c. per hundred pounds, or \$15 per short ton on lead, the bounty, however, not to exceed half a million dollars in any one year. It is stipulated, moreover, that if the charges for the transportation and treatment of lead ores in Canada are accepted, and that there is any discrimination in Canada in the smelting of lead the Governor-in-Council may reduce the bounty to such amount as may be deemed just on the lead contained in such ores mined in Canada and exported for treatment abroad. The bonus expires on the 30th of June, 1908. This arrangement will enable some of the mines of the Kootenay to re-start. But there is still a demand for greater protection.
