

*How well you succeed offshore depends
on how far you extend your network.*

With Hutchison INET* you can connect your PC, LAN or company network to just about any other network of your choice, anywhere.

Whether it's an E-mail, EDI, Fax or Telex link to your business associates or a customized local, regional or worldwide network, we'll bring it right to your desktop at the touch of a key. Count on us for both the distribution of and access to, your information.

In fact, as a subsidiary of Hutchison Telecom, we can set up just about any electronic communications link you want and maintain it around the clock.

To find out more about extending the power of your network, give us a call on 834-5828 or fax 834-5832.
