

danger arising from the rapidity of the current, and from other local causes, made an appropriation for the construction of a lighthouse at the outlet of the lake, but, on a local survey being made, it was found that the most eligible site for the erection of the lighthouse was a reef known by the name of the "Horseshoe Reef," which is within the dominion of Her Britannic Majesty; and Mr. Lawrence was therefore instructed by the Government of the United States to ask whether the Government of Her Britannic Majesty will cede to the United States the Horseshoe Reef, or such part thereof as may be necessary for the purpose of erecting a lighthouse, and, if not, whether the British Government will itself erect and maintain a lighthouse on the said reef.

Viscount Palmerston stated to Mr. Lawrence in reply that Her Majesty's Government concurs in opinion with the Government of the United States, that the proposed lighthouse would be of great advantage to all vessels navigating the lakes; and that Her Majesty's Government is prepared to advise Her Majesty to cede to the United States such portion of the Horseshoe Reef as may be found requisite for the intended lighthouse, provided the Government of the United States will engage to erect such lighthouse, and to maintain a light therein; and provided no fortification be erected on the said reef.

Mr. Lawrence and Viscount Palmerston, on the part of their respective Governments, accordingly agreed that the British Crown should make this cession, and that the United States should accept it, on the above-mentioned conditions.

ABBOTT LAWRENCE.

PALMERSTON.
