THE BABIES SAILED ALONE.

A Couple of Infants Arrive at New York, Having Been Deceived by Their Mother as Having. New York, March 12.—A letter has just been received in this city by which it is learned that a couple of infants, who were supposed to be the children of a certain gentleman, had sailed from New York on the steamer California yesterday morning. The children were found by the captain of the vessel, who had been informed by a woman who claimed to be the mother of the children. The children were found in a room on the ship, and were found to be the children of a certain gentleman who had been deceived by his wife. The children were found to be the children of a certain gentleman who had been deceived by his wife.

THE UNITED STATES.

Notable Events on the Other Side Told in Brief Form. It is said that New York City will this year spend \$1,000,000 on asphalt pavements. Christian Newbourn, the oldest man in Orange, N.J., is dead at the age of 92. Rothschild, Baum & Stern, one of the largest clothing firms in Rochester, N.Y., has failed. A large decrease in acreage of wheat this year is reported from the United States. The New York Sun has been assessed \$2500 for saying that a telegraphic dispatch furnished by the Reuters Co. was bogus. The Reuters Co. sued the Sun and produced the original telegram. Attorney-General Hancock of New York has engaged counsel to bring suit against Armiger & Co. for selling oleomargarine. Irvy Brooks, on trial at Atlanta, Ga., is charged with the murder of Thomas M. Jackson, admits the killing but says it was in self-defense, and that a woman companion of his was the murderer. The 250 Georgia negroes who went to the top of a mountain to get a good start in their fight to have a constitution all night, but did not try. The only one who did fly was the pastor of the flock, who heaved a stone at the negroes. Col. North, the Nitrate King, is capitalist of a syndicate of English capitalists who have cornered the camphor market. The price has already risen 100 per cent, and is now wholesale in New York at 50 cents a pound. An Anglo-American syndicate in London, England, has sent to the Treasury Department at Washington, \$2,500,000 sterling as a consequence money. Rev. J. H. Barff, Vicar of St. Giles, London, sent the money. The Standard Oil Company's profits amounted to 17 per cent, on the capital last year, and it is said will be 22 per cent this year. The capital is \$100,000,000, and it earns \$2500 per minute.

THE RAINES EXCISE BILL IN N. Y.

It Passes Both Branches of the Legislature—Similar to the Ontario Law. Albany, N.Y., March 12.—The Raines Excise bill has passed both houses, and now goes to the Governor. The bill is an extremely radical measure. It takes the liquor traffic completely out of the hands of the local authorities, except that two-thirds of the amount received for licenses goes to the municipalities. There is a provision that the law is in many respects similar to the Ontario law, a noteworthy exception being that the minimum fine is \$300 in New York City, and \$200 in Buffalo and other cities. The measure has been bitterly fought, but the Republican leaders who made it a party measure, whipped their senators and assemblymen into line, and having a big majority in both branches of the Legislature, forced the measure through. It will probably, if the Governor should sign it, create a revolution in state politics.

SLEW 39,000 IN ONE PROVINCE

A Turkish Official gives Statistics of His Comparisons' Slaughter of Armenians. New York, March 12.—A letter has just been received in this city by which it is learned that a certain official, who was supposed to be a certain gentleman, had sailed from New York on the steamer California yesterday morning. The children were found by the captain of the vessel, who had been informed by a woman who claimed to be the mother of the children. The children were found to be the children of a certain gentleman who had been deceived by his wife.

MUSIC CAME FROM HIS COFFIN.

The Fall-bergs Were Frightened at the Strain "After the Ball." Wetzel, Mich., March 12.—Jas. Mulholland, an employe of a logging camp, died in the woods a couple of days ago. His friends placed his body and his belongings in a coffin to ship to his home. They decide to carry the coffin to the railroad station. Eight stalwart woodsmen undertook the task of carrying it a mile over the frozen ground. They had not gone far when they suddenly stopped. One of them had dropped pale with fear, and they nearly turned back. Then someone remembered the box which James brought to help shorten the long nights in the coffin, and it is supposed the jarring motion of the coffin brought the music which reassured and proceeded on their way. "Jim hadn't been dead," said one of them, "after listening to that tune he surely would have died. No danger of his being buried alive now."

RIOTS EVERYWHERE IN COREA.

British and French Governments Reorganizing Their Consulates in Formosa. New York, March 13.—A despatch from London, says that riots are reported from every province of Corea. The Seoul Government has repeatedly requested the Japanese representatives to employ troops in suppressing disturbances, but the envoy persists in refusing. The Japanese local officials in Formosa are so strongly opposed to the policy laid down in Tokio that Gov. Gen. Kakayama has been compelled to resign. He will not depart until he has been replaced by a more leniently minded man. The British and French Governments have reorganized their consular force in Formosa, filling the several posts with officers who have hitherto served in Japan.

USE "WINDSOR" SALT

PUREST AND BEST. Costs no more than common kinds do. TORONTO SALT WORKS, City Agents. TRADE IN CANADA. R. G. Dun & Co. says: Country reports in the Montreal district are reported as being of a more hopeful tone, and light buying is still the order of the day, and the market generally is not so active as it was in the volume of business as yet. There is a general feeling of uncertainty, but a poor one for the general run of country merchants, owing to a lack of snow in December, and a large percentage of unsettled roads since then. The production of paper this week was rather smaller than last year, but some business reports that the general run of remittances is rather better. There is no apparent increase in the wholesale price of merchandise in Toronto. A fair trade is reported in dry goods and some improvement in hardware, but business generally is not so active as it might be. Warner and more spring-like weather would help things. There is said to be a great scarcity of money at interior points, owing to limited receipts of money, and a general feeling of uncertainty. The market is generally weaker, and millers have great difficulty in making sales. There is a general feeling of uncertainty, but a poor one for the general run of country merchants, owing to a lack of snow in December, and a large percentage of unsettled roads since then.
