To-Day's Opening at Dineens'.

To-day Dineens' officiate as introductors of the new fail fashions in silk and felt hats for ladies and men. Being sole agents for Duniap of New York, Heath of London, Eng., and the greatest selling house in Canada for other celebrated English and American hat styles, it is easy enough to understand why a man's hat taste or hat fancy can be met with finer precision and greater satisfaction at Dineens', 140 Yongestreet, corner Temperance, than anywhere else in Toronto. And to-day's displays at Dineens' xxxth annual fall hat opening affords a striking demonstration of the leadership, which this house asserts in its line. To-morrow the store remains open until 10 o'clock.

London Markets Better.

New York, Sept. 15.—The Evening Post's financial cable from London says:

The stock markets here were generally better to-day. President Faure's consent to a revision of the Dreyfus trial imparting a less troubled aspect to French politics, whale confirmation of the reassuring telegram concerning the Argentine-Caliboundary question, as told in these despatches yesterday, also had a good effect. The chief gains to-day are in Argentines and Americans. The latter were benefited by reasuring cables received through arbitrage houses as to dearer money in New York. These cables said that any great rise in money rates will be prevented by gold imports. Pacific stocks were especially improved on the adjustment of rates and on Berlin buying. The market closed at about the best.

Spanish fours were better on Paris buying and there was a general recovery in Kaffire,

Gold is still wanted for New York and Berlin at 78s.

The Paris Bourse was firm and the Berlin at 78s.
