WANT DUTY KNOCKED OFF

American Newspaper Men Would Like Paper and Pulpwood From Canada Free.

THEY CALLED A SPECIAL MEETING

And Asked the Government to Protect Them From a Recently Organized Corporation.

Washington, Jan. 30.—A called meeting of the American Newspaper Publishers' Association was held here to-day, with a view to directing the attention of the American members of the Joint High Commission to the urgent need that a policy be adopted which shall protect American forests by securing in the treaty now in course of preparation between the United States and Canada, a reciprocal right to pulpwood on paper and pulp from Canada. Mr. C. W. Knapp was elected chairman, and William G. Bryant of the Brooklyn Times secretary of the meeting. After a brief and informal discussion, a statement of the views of the American Publishers' Association was adopted, ordered to be printed and presented to the representatives of the United States and Canada. The statement is as follows: "We, therefore, urge that advantage be taken of the opportunity offered by the Canadian treaty-making process, to place on paper and pulp on the free list, and thereby give the only strong and permanent assurance of protection to the American forest."

A Strong Committee.

A committee, consisting of S. H. Kaufman of the Washington Star, R. W. Patterson of the Chicago Tribune, H. E. Self of the Pittsburgh Times, James J. McKeown of the Philadelphia Inquirer and Herman Ritter of the New York Staats Zeitung, was appointed to present to the publishers on the question of free pulpwood. The committee will be called on by the President at the White House, and at 5:30 they had an informal meeting with the American Joint High Commissioners.

HAMILTON WILL HOWL

If the Canada Life Comes to Toronto, But It All Rests With Senator Cox.

The Canada Life office at Hamilton appears to be in the state of mind of some old-day settlement of whites hoping to be taken by Indians. Give the company the \$4000 rebate it wants from the city, and it would be glad to escape from the Indian reservation. In this connection, it is to be noted that the company's business is to be sold to a man who is not a resident of the city.

THE CHEAPEST AND MOST SUCCESSFUL MANUFACTURE

water power, cheap wood, cheap and ample machinery, wholesale production and concentration in one place in the super vision. In some cases the organizers of the International Paper Company have secured the right to mill-owners representing the actual investment in the mills, and in gathering together this assortment of mills the Paper Company also acquired very valuable spruce tract where cheap timber could be had, and every large water-power, with one exception, where substantial competition might otherwise be established. This object was easily attained, because our spruce supply is being exhausted at the rate of 1700 square miles per annum.

Capacity Increased.

Winnipeg, Jan. 30.—The elevator capacity of Fort William and the west is now 10,000 bushels, against 18,375,500 bushels in 1898.

Imperialism Gone Drunk.

It is because I am an Imperialist that I am a Crusader to whom Jingoism is the deadliest of all political sins. Jingoism is Imperialism gone drunk—a kind of gin-sodden delirium of the real thing, the true article, which was a peace. It is because I am a peace man that I am an Imperialist. It is my love of peace that I am an Imperialist.

THAT FATAL SMALLPOX.

The Story of the Case From Welford Township—Other Facts Relating to the Disease.

Dr. Bryce says, in regard to the complaints that the Board of Health was negligent regarding the smallpox case in Welford Township, that everything that could be accomplished at this end by wire was done. The office received word on Monday of a suspected case of smallpox at Welford. Dr. Bryce, a member of the Board, was immediately notified to investigate, and reported the case as a confirmed smallpox, and vaccinated the entire family, also stating that a medical man could not be sent, as he was sent the same day, arriving on Tuesday, and the office received word the same day that a nurse was expected from Ottawa. The next day a message came, saying she had not yet arrived. A unsuccessful attempt was made to secure one the same night, and on Thursday, Ottawa wired that a nurse had been sent, who arrived on the same Thursday night.

CRUELTY IN THE PHILIPPINES.

Spanish Civil Prisoners Still Held—Girls and Women Subjected to Shame.

New York, Jan. 30.—The Herald has the following: "Manila, Philippines, Sunday.—The Spanish civil prisoners have not yet been released. Tales of suffering, hunger and dishonor come from the provinces. Young Spanish girls are forced to live in open shame with low-born Indians. Their parents, being poor, are not able to pay the ransom. The women are sold as slaves. The girls are sold as slaves. The girls are sold as slaves."

DRAINAGE CANAL IN HIS HEAD.

Chicago Butcher the Subject of a Surgical Operation Which is Unique and Wonderful.

Chicago, Jan. 30.—With a veritable drainage canal of rubber replacing an insanity-producing tumor in his brain, Joseph Sepp, a butcher, who saw things "double" for many months, is improving at the Mayo Hospital, where he was a few days ago the subject of an operation that a short time ago was considered impossible in surgery, and which is said to be unique in the history of medicine. He came to the hospital suffering from suicidal mania. RADIAL ROADS A LIVE TOPIC

Aldermen Alive to the Importance of Having Urban Lines Run Into Toronto.

SAUNDERS' COMMITTEE AT WORK.

There's Need for Haste in Getting Assistance to Improve the Harbour—City Hall Topics.

The question of radial railways is looming up again at the City Hall. Ald. Saunders has called a meeting of his special committee appointed to confer with the management of the urban and suburban lines with a view to encouraging them to expand or "radiate" with this city as a hub.

Last year, it will be remembered, the committee said that their action largely depended on the verdict of the people respecting market improvement. The verdict having been favorable the scheme seems now further under way than ever before.

The committee is composed of Ald. Saunders, Frankland, Lamp, Hubbard, Russell and Dunn. They will arrange for the conference mentioned to-day.

When Will They Get to Ottawa? Just when the attack on the Government to secure an appropriation from Mr. Tarte to deepen Toronto harbor will take place is now problematical. The estimate of the cost of the improvement is \$1,000,000. It is now up to the city to get on the inside of it. It must get there before the completion of the harbor improvement.

The Mayor is waiting the reply of the President Kemp of the Board of Trade, who has other things to attend to.

PERMANENT CURE OF SCROFULOUS SORES.

Mrs. W. Bennet, Crowson's Corners, Ont., had 3 running sores on the neck. B.B.B. healed them up in 1894. They have never broken out to this day.

THE story of Mrs. Bennet's cure of Scrofula, is simply another of those remarkable instances where Burdock Blood Bitters has not only been the means of giving relief for the time, but has made a cure, so effective and permanent that after the lapse of five years there has been no sign of the disease returning. Scrofula is one of the hardest diseases to cure, and scrofulous sores are the hardest to heal. It is so malignant and deep seated in its nature, that ordinary medicines and ordinary doctors' treatment are of little benefit. Burdock Blood Bitters, though, even in these worst cases, does not fail to put their confidence in it, and those who have tried it, have found it to be a sure cure. It is so simple and so easy to take, that it can be taken by the most delicate of women. It is a cure for all kinds of scrofulous diseases, such as skin eruptions, and all the other diseases of the blood.
