

nd g Co's.
 This is, as Charles Dudley Warner said in Toronto, the Hardest Question to Settle.
BIG KILLING AT PALMETTO, GA.
 Four Negroes Shot and Killed and Five Wounded by the Enraged White Mob.
 Palmetto, Ga., March 16.—A mob of masked men stormed the little house doing service as a jail here at an early hour this morning and shot down nine negroes. Four were killed outright, and the other five are badly wounded. The negroes have been held for the burning of a room, three from since Jan. 1 having almost curiously destroyed it. The mob rode into the town about 1 o'clock. The little house has been used as a jail since the fire was near the centre of the town. The guard was called on to turn over the nine negroes held there for trial on the charge of arson.
But Vengeance Was Strong.
 He refused to answer his assistants. They were quickly overpowered, however, and with a rush the whites made for the prison which had been awakened by the noise outside. They began begging for mercy, but were shot down quickly. The greatest excitement prevailed. Nearly everybody was aroused by the shooting and spent the remainder of the night on the street. An outbreak on the part of the negroes in this vicinity is feared. There are many threats to the shooting of the members of their race.
 Governor Chandler was called on for troops about 4 o'clock to ally the application here, and put down any uprising but none have arrived.
Dispersing the Negroes.
 The citizens are patrolling the main street of the town and dispersing an occasional group of the dimly-lighted negroes. It is determined to get some sort of revenge for the slaughter of four of their race.
 The scene this afternoon at Johnson's warehouse, where the nine negroes were confined and shot, was revolting and miserable. Blood covered the floor and the blackened walls were indented with rifle shots.
A Weird Spectacle.
 Wives and children of the negroes knelt by the bodies in the dimly-lighted room and made the spectacle more weird by their moans and screams.
 The coroner announced that he would empanel a jury about noon.
Cotton Mills Shut Down.
 The Palmetto cotton mills shut down for one day on account of the excitement. The mob was composed of 150 men on horseback. Where they came from is a mystery. It is thought that some of the people of the town in the mob, however, is certain. Every face was masked, and when the warehouse was reached a special guard of five men were covered without a word, in a minute the mob was in the big warehouse, and the negroes were taken to the jail. The frightened negroes sent up yell after yell, begging for mercy. When the work of the mob had been finished, the masked men turned and quickly disappeared.
Incendiary Fires.
 Two fires of great origin have occurred here this year—on Feb. 23, and the other five days later. Fourteen business places in all were destroyed, about 2000 were arrested on suspicion and taken to Johnson's warehouse to await preliminary trial, which was to have taken place this morning. Yesterday the leader of the gang, Jud Cotton, is said to have made a confession of the guilt of himself and associates. He was the first to be shot.
The Negroes Are Bad.
 The negroes of this community threatened in the past week to burn Fairburn, the county seat, and it is reported that the mob came largely from that town.
 Sheriff J. C. Adair is expected from Atlanta to-day with a large posse. The militia from Atlanta arrived about 11 o'clock, but there was nothing to do. Later the soldiers were put on patrol duty in different parts of the town, the citizens being apprehensive of an uprising of negroes to-night in an effort to have revenge.
A Reward Offered.
 Atlanta, Ga., March 16.—Governor Chandler to-day issued a proclamation offering a reward of \$500 "for the apprehension and delivery of the first member of the mob and a further reward of \$200,000 for each additional person implicated in the killing of the four negroes at Palmetto this morning."
 The governor said: "I regard the outrage as simply inexcusable. The men had been arrested as I am informed, and they were taken to the jail. The citizens being apprehensive of an uprising of negroes to-night in an effort to have revenge."
UNCLE SAM'S HARDEST QUESTION
 Is to Settle the Question of Race Differences in the South.
 Some years ago, when Mr. Charles Dudley Warner, the eminent American writer, visited Toronto, he was interviewed by a newspaper man who is now a member of The World staff. Mr. Warner was asked what he thought was the most difficult question the United States had to settle to secure permanent prosperity.
 "The question of color in the South," said that eminent gentleman, "is by far the most difficult question which will ever face the great American nation."
 It certainly does look from the foregoing dispatch that Mr. Warner's words were prophetic.
The Late Dr. H. P. McCausland.
 The remains of Dr. H. P. McCausland, who died suddenly from apoplexy in Baltimore, Md., arrived in the city at 10.40 a.m. yesterday and were taken to the undertaking establishment of B. D. Humphrey. The funeral took place yesterday afternoon at Mount Pleasant Cemetery, and was attended by members of the family. Dr. McCausland practiced in Aylmer for three years, but had lately been traveling for the firm of Park, Davies & Co., Detroit. His relatives reside at 254 Jarvis-street.
They're Still Kicking.
 A large delegation, representing the Dominion Lord's Day Alliance, waited upon the Government yesterday afternoon to protest against Sunday car privileges being allowed in the electric railway to come before the House, and also to express their views regarding the liquor measure and the request of the hotel men to lengthen the hours of sale.

THE SENSATION IN SUGAR.

The Aggregate Trading in the Wall Street Market Was Over a Million Shares.

New York, March 16.—The sensational rise in sugar was largely responsible for the elimination of much of the short interest in the rest of the list, material gains appearing notably among the specialties, while the railways at the high point averaged 1 1/2 up, but there were recessions from the best, and the market closed under pressure. It was a wild day on the Exchange. Sugar figuring for over a quarter of a million shares, with the aggregate trading reaching nearly a million shares. The market was moving cautiously upward when Sugar burst into prominence and touched 37, a rise of 2 1/2 points over last night, 11 points above the September boom prices of 37. The stock closed at 16 1/2. The fluctuations were erratic. An instance in point was the drop of 10 points on two transactions from the high point. A trader sold short 200 of the shares and bid at 17, and within a moment covered at 16, the only intermediate transaction being 100 shares at 16. This procedure realized \$300 on his short sale. There were various rumors connected with the movement in Sugar, among them the report that the trade war had been settled, that an agreement had been reached with the Gloucester Refining Company, and that the American and Arbutle interests. People in the trade generally discounted the rumors, professing a notion of any deal which they would likely be posted were it in existence. Local interest in the sugar market was concentrated likewise in the case of the President of the Sugar Refining Company, who had been in the market for some time. In some quarters the move was attributed to a corner in the stock and a punishment of the shorts, while, on the other hand, a house which was active in the dealings claimed to be in the possession of the market. The advance, but thought it of too great a magnitude to have been merely a maneuver against the market, a reformation of the market before the market closed. COUGHS ARE FLOWERING.

What the Aldermen of Toronto Need Badly Just at This Time is a Good Leader.

SHAW DOES NOT FILL THE BILL

Has the Legal Department Been Used to Portray the Opinions of a Few Individuals?

The City Legal Department is making itself extremely obnoxious to the free lance aldermen by its too open subservency to the Mayor. It has proved too powerful a weapon in the Mayor's hands. Aldermen have been getting grumbling at the way the legislation before the House was being manipulated. Council as a whole has not been consulted. Individual aldermen have been directing the city's legislation, adding things at their own personal discretion. The Solicitor took up the word for it, with the result, the botching of the chain ferry bill.

Park Bill May Be Killed.

It has also been suspected that the generalizing of the application for leave to use Stanley Park for a cattle market would result in the bill's being killed. It would be another case of such wagers more and loses all. Mr. Shaw's bill may not get so far as the Council. Mr. Caswell's explanation as to why he would like to see the bill passed is a private bill may be right, but Mr. Shaw's bill may not get so far as the Council. Mr. Caswell's explanation as to why he would like to see the bill passed is a private bill may be right, but Mr. Shaw's bill may not get so far as the Council.

Why This Dense Mystery?

In this city there was such a dense mystery pervading the application for leave to use Stanley Park for a cattle market, that it is difficult to say whether it should be passed or not. It is difficult to say whether it should be passed or not.

Council Lacks a Leader.

In justice to Mr. Caswell, it should be said that he is the victim of a system. Things seemed to be running in a loose, haphazard way at City Hall these days. Council is doing nothing on other things. The Queen-street railway question, while it is as monotonous as the elevator matter, is in its trail. Council lacks a leader. Mayor Shaw does not fill the bill. Had he taken an opportunity afforded by the Mayor's own hand, and adopted by the Board of Works, Board of Control and Council.

THE CHICAGO MAYORALTY

Carter H. Harrison Has Been Nominated by the Democrats to Succeed Himself.

Chicago, March 16.—The Democratic City Convention to-day nominated Carter H. Harrison to succeed himself as Mayor. The platform adopted steers clear of national issues, and the Mayor will stand on the ground against the Allan bill and other street railway legislation.

The Tract Society.

The Board of Directors met last night, with Hon. Charles W. Wilson in the chair. During February the collectors sold their many journeys 325 Bibles and religious books. Many parcels of religious literature have been sent out during the month to missions, needy Sabbath schools and churches.

Now the Band Will Play.

The trouble between the Musical Association and the Toronto Ferry Company may practically be considered at an end, the company having agreed to play the four city bands, whenever they engaged them, the scale of prices called for by the association as set out in the schedule. The first band to play at Haun's Point under the new arrangement will be the Her Majesty's Army and Navy Veterans, which has been engaged at the new price to give two concerts at the Point on May 24, next.

City Hall Notes.

The salary reinstatement proposed at City Hall involves about \$4000 more annually. A Don freest played havoc with Cherry-street bridge yesterday afternoon. The City Council will attend ex-Mayor Beatty's funeral to-day.

S. Ackerman, commercial traveler, Belleville, writes:

"Some years ago I used Dr. Burdock's Blood Bitters for Rheumatism, and three bottles effected a complete cure. I will never give up this summer medicine to move without crutches, and every movement caused excruciating pain. I am now out on the road, and have passed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others, as it did so much for me."

MILITARY REVOLVER LEAGUE.

Results of the Preliminary Competition Under the Auspices of the Toronto Garrison Association.

The preliminary revolver competition for association or regimental teams, held under the auspices of the Toronto Garrison Revolver Association, has just been completed, and the scores of the teams, eight in number, are published herewith.

The Scores.

The executive of this association are advocating the formation of a Military Revolver League, and the holding of competitions during the winter months, something after the style of the competitions held during the summer months by the Military Revolver League. It is expected that several teams, both regimental and association, who had not completed scores in the preliminary match, will be able to participate in the first match of the league.

A STORY FROM LIFE.

And One That is True.

At an uptown hotel last evening was a tall, dark, well-dressed Irishman, quick-witted as all his race, and boasting a government job. After a few games of pool he started home, thinking cheery of the month yet to elapse before the winter would expire.
