PTE. A. GREEN KILLED BY BLOOR STREET CAR

Was Crossing Tracks at Queen and Simcoe Streets Last Night When Struck

WENT BEHIND TROLLEY

Fractured Skull and Died in Ten Minutes Home in Beeton.

About 11.10 lest night Pte. A. Green, 123rd Battalion, was struck by an east-bound Bloor car, at the corner of Queen and Samoe' streets, and almost instantly killed. He was picked up and carried into the surgery of Dr. Poole, 163 Simcoe street, where he died ten minutes later of a fractured skull.

Green was crossing the tracks from the south side of Queen street when the actident happened. He stepped behind a westbound Queen car, and was struck by the other. The trolley car was driven by J. Strathee, 11 Gloucester Grove avenue, Fairbank, and he conductor was George Jackson, 106 Emmerson avenue.

Letters found in the soldier's pockets established his identity. He is about 25 years of age, and h is thought that he came from Beeton, Ont, as some of the letters were marked with the name of that town. He was taken to the morgue in the police ambulance.

The appointment of Mr. J. B. ST. GEORGE'S SOCIETY HELD ANNUAL MEETING

Satisfactory Statement of Affairs Presented to Organization Last Night.

A very satisfactory statement of the affairs of the organization was presented last night at the 81st annual meeting of the St. George's Society at Toronto, which was held in St. George's Toronto, which was held in St. George's Hall. Owing to the financial stringency, which existed at the beginning of the year, the demands upon the society were the largest they eyer had, and in order to maintain its obligations, an appeal was made to the members, which was met with a generous response. During the year relief was given to 1524 families.

The receipts for the year amounted The receipts for the year amounted \$6527.45, and the expenditure was

WAR SUMMARY:

Today's Events Reviewed

ERMANY refuses to acknowledge the sinking of the Lusitania on the demand of the United States as an "illegal act," and the tension between Washington and Berlin continues to exist in its most extreme form. Count von Bernstorff had assured President Wilson that his country would comply with the American demands, but evidently some change in the situation has diverted Berlin from its avowed intentions. Whether Germany admits the illegality of the act or not, the allied powers will punish her for murder and piracy when the present "war drums beat no longer and the battle flags are furled.'

Germany is said by Frederick Palmer, who has the confidence of allied commanders, to have sunk the Lusitania to impress the Balkans, so as to be able to declare that the United States was afraid to make war on her, believing her invincible. This argument won Bulgaria entirely over to the German side of the struggle. Roumania now looms up on the eastern horizon as a possible enemy of Germany, and it would appear to Berlin a dangerous confession of weakness to make submission to the demands of the United States.

What President Wilson will do in the face of this fresh and insolent rebuff, with the evident playing with him on the part of Count was von Bernstorff, cannot be foretold, for his patience has surpassed the ers' Life Insurance Company yester patience of any other statesman of a great country in modern times. It may be presumed that the Germans in the United States have organized themselves for a reign of terror if diplomatic relations between Germany and the United States are severed.

Nine sea raiders of the Moewe type have been fitted out for raiding British commerce, says Mrs. Francis Fuller, wife of the British consul of Ashanti, who was released from the Appam. Another privateer escaped from Kiel with the Moewe. The vessels are extremely fast, with large coal bunkers, she says. The British navy will have a busy time rounding them up.

For the first time in many months, the official communique of the German war office has become frank, and acknowledges that the allies are directing continued, and increasing artillery fire against the Teutons in Belgium and France. This sudden change in the tone of the reports is not due to a sudden conversion that truth and honesty is the best policy, but has some object behind it, probably to prepare the German public mind for some offensive of the allies, or else to instil into the public the necessity for a greater output of munitions, and to steel its nerves to the expectation for a greater output of munitions, and to steel its nerves to the expectation amounts to \$83,476,172. The assets that the war will be long and hardly fought. It may also be intended to of the company have now reached arouse antipathy towards the United States for exporting munitions.

Sir Douglas Haig says that yesterday the British artillery was active against the German trenches between the rivers Ancre and Somme. The Germans heavily shelled the British trenches about Elverdinghe, northwest of Ypres.

Earl Curzon, lord privy seal, and Sir Douglas Haig are to proceed on a special mission to the King of the Belgians. This must concern some change in the British war policy.

As the Germans and Bulgarians have fought only a half-equipped army in Serbia, deficient in big guns and munitions, and confronting odds of about three to one, it will be interesting to see what they can do against a scientifically fortified port like Saloniki, behind which is established an army as well equipped with arms, heavy guns and shell as they are. The Austrians also continue the making of progress along the Albanian shore towards Avlona. By reason of the establishment of the Austrian fleet in Cattaro Harbor, it is probably considered not feasible by the Italians to defend Durazzo.

The German army, which has been established at Monastir, in Macedonia, since early in December, is evidently nearly ready for the expected attack on Saloniki, for the official report issued from Berlin yesterday mentions the Balkans as a war theatre for the first time in several weeks, and also mentions the reporting by aeroplane of the observation of many fires in the Vardar Valley, across the Greek frontier, and in the port of Saloniki. a is reasonable to assume that, warned by their scouts that an advance by the enemy is impending, the allied commanders have set fire to bridges, culverts and railway ties, in order to destroy the line, so as to impede the progress of the Germans and gain two or three weeks' further respite from following a letter received from Lindattack while the enemy is repairing the damage so as to be in a position say's wife in Belfast, Ireland, allegto bring forward his big guns and supply them with heavy shell.

COUNCIL REFUSED TO PAY BILL OF DOCTOR

York County Will Pay Patriotic Fund Grant at Rate of \$5000

The York County Council yesterday

The York County Council yesterday gave the bylaw authorizing a grant of \$250,000 to the Red Gross and Patriotic Associations its third and final reading. Payments will be made in the sum of \$5000 a month until November, when the balance of the entire amount will be handed over.

Council refused to pay the medical fees charged by Dr. Serson of Mimico for attendance upon one of three men arrested while trying to break into the Mimico Postoffice some time ago, one of the men being shot in the leg while making the attempt at burglary.

The doctor was summoned by a county constable, and the injured man was removed to Grace Hospital, where Dr. Serson continued his professional services. Later an account from Grace Hospital, which the county officials supposed included the full costs, was ordered paid. The county solicitor yesterday advised against the payment of the account.

PUT TAX ON RUNNYMEDE FOR PATRIOTIC FUND

Fire Chief.

Fire District Chief D. McLean, formerly captain of the Keele street station, and who lately received his promotion, was last night the recipient of a gold-filled fountain pen from the members of the Keele street fire hall. The presentation was made by Capt. John Robinson, who voiced the kindly sentiments of the whole brigade toward the district chief, to which the latter briefly replied. The ratepayers of School Section No. 29, Runnymede, met last night in St. George's School to discuss ways and means for the raising of funds for the Patriotic Association. Norman Sommerville and W. C. Noxon spoke at some length, and the principle of levying taxes over the district was adopted.

According to the message received by Officer Smith from Colonel Sherwood, Strony left Ottawa two hours after the fire started. He was not suspected until noon Friday, when certain papers were found, which, it is alleged, implicate Strony. He will be sheld at Windsor pending further instructions from Ottawa. Colone! Sherwood gave orders that Strony was not to be interviewed by anyone until further investigation.

In a short conversation with Colonel Sherwood, Officer Smith learned sufficient to show that the Ottawa authorities believe that the destruction of the parliament buildings was the work of German plotters. Smith said that from statements of Cole Sherwood, the police were in a posession of evidence to prove that the fire originated from an explosion in

the reading room.

In telegrams received in Windson Friday afternoon from Oliver J. Wilcox, member of parliament for North Essex, it was stated that the Essex member was among those who barely scaped from the burning building. "I had a narrow escape from death," was one message sent by Wilcox.
