

In the Affiliated Colleges in Arts the following are in attendance :—

Morrin College, Quebec—		
Undergraduates	12	} 24
Partial and occasional	12	
St. Francis College, Richmond—		
Undergraduates	9	} 15
Partial and occasional	6	
Wesleyan College, Stanstead		1
		40

Of the above total number, about 560 are Undergraduates taking complete courses for Degrees, besides the teachers in training of the Normal School. About 500 are persons not permanently resident in Montreal, but resorting thither for purposes of education.

With reference to these numbers, it should be understood that they include only students actually in attendance on lectures. In the Faculty of Arts the numbers do not include the students from other Faculties, as the Faculties of Applied Science, Medicine and Veterinary Science, attending on classes in Arts. Such students are reckoned only in the Faculties to which they belong.

In the Faculty of Law, the increase of students is necessarily in the first year of the course. It is to be anticipated, therefore, that under the new arrangements the total number will be considerably augmented next session, but the full number of students cannot be reached for two years.

In the Faculty of Arts, while the number of men has steadily increased, the fact that this Faculty now outnumbers the others is due to the increase of students in the Donalda special course, which now furnishes one-third of the total number of students in this Faculty. Of the total number in Arts, 121 men and 47 women are Undergraduates, taking the full course of four years for the degree of B A.

There is reason to hope that the additions made to the means of instruction in Applied Science will attract many additional students next session.

At the meetings of Convocation on April 1st and 30th, the
