RADIO CLAIMS KING AND QUEEN AS FANS

LONDON, July 9—The routine of Royalty has been altered by radio just as it has changed the habits of millions of other people throughout the world. Whereas King George, formerly, spent many an evening over his postage stamp collection, now, with wireless sets in Buckingham Palace and Windsor Castle, His Majesty often listens in 50 what the radio waves are saying. Queen Mary, too, is fond of the wireless, both she and the King preferring terms of the cast of the stream near the West Side, opposite Reed's Point. The Enaj IV. Is no stranger to Saint John, having entered the harbor during cruises three times last summer.

The owner is a retired business man of New Haven and an enthusiastic yeachtsman. The commander is Capt. William E. Torey, who has with him a crew of nine. The yacht left New Haven a week ago and called at New London, Dorchester, Mass., Portland, Northeast Harbor, Me., and Campobello was encountered until after leaving Campobello yesterday forenoon. The Enaj IV. will probably sail some time today, possibly for Yarmouth or Digby. Over 35,000 people, many of them lifetime sufferers and some who had been almost helpless with Eczema and similar skin affections, say Ovelmo internal and external treatment gave prompt relief and stopped the trouble. Your druggist guarantees the complete Ovelmo Treatment to do the work or money back. Try it. See how quickly itching stops and eruptions disappear.

No. 141. This section will and the theorems of Mill and Union streets and halt there to join the other section of the parade.

The Saint John County East Lodge section will assemble at Orange Hell, Germain street, at 2 p.m. and will be accompanied by the Killtle band. The units in this section will include: Queen's and Trinity Preceptories, Scarlet Chapter and L. O. L. lodge shoes, 1, 3, 24 and 27, carrying banners, Grand and District Lodge officers with County Master and Director will also march in this section, which will proceed by way of Princess and Charlotte streets to Union and along Union to Dock street where they will meet the section from the North Ead.

TO ENCIRCLE MONUMENT.

The full parade will then proceed along Dock and King streets to the monument in the Square. The parade will encicle the monument by rarching around this section of the Square. During the ceremonies at the Warm Memorial addresses will be offered by Rev. H. A. Goodwin.

The parade will then march to Centenary church by way of Charlotte street, south side of King Square, Lefnster and Wentworth streets. After the service the Orangemen will march in parade down Princess street to Sydney street, south side of King Square, Lefnster and Wentworth streets. MAN'S BODY WASHED Heard on All Sides at The funeral of Robert J. Armstrong, proprietor of the Victoria bowling alleys here, whose death occurred yesterday morning in the Ross Memorial Hospital, Montreal, will be held from St. John's (Stone) church on Monday afternoon at 2.30 o'clock, relatives in the city advised last evening. The body is expected on the noon train today.

Mr. Armstrong had been taken on last Monday to Montreal, following failure to recuperate from illness that attacked him some months ago. The news came as a great shock to all who heard of the word received by his brother-in-law, A. Ernest Fleming, yesterday in a despatch.

Mr. Armstrong's brother, T. E. G. Armstrong, of Manchester Robertson Allison, Ltd., and his sisters from here were with their brother when he passed away.

ON THEIR HONEYMOON.

Mr. and Mrs. N. D. Crisp, of Toronto, arrived in the city yesterday and rac guests at the Admiral Beatty. Mr. and Mrs. Crisp are on their honeymoon and will visit several Maritime points before returning to their home.

ASHORE AT ST. ROSE

HALIFAX, July 9—C. H. Harvey, local agent for the Marine and Fisheries Department, received a telegram today from John A. MacLeod, director of customs at Margaree Harbor, stating that an unidentified body was washed ashore at St. Rose yesterday washed ashore at St. Rose yesterday with a lifebelt. Mr. MacLeod suggested that the drowned man had been one of the crew of the ill-fated Halifax dredge Ferguson, which sank in Northumberland Straits several weeks ago with six men.

The Opportunity of a Lifetime FRENCH GOVERNMENT 6% BONDS ARE ON THE BARGAIN COUNTER

WE BELIEVE that an investment made today in French Government 6% Bonds (Loan authorized Dec. 16th, 1920; redeemable at par at the option of the Government on or after Jan. 1st, 1931), presents an exceptional opportunity for profit on any material advance in the value of French money (Francs).

Due to the depreciation of French Francs a French Government 6% Bond (of 1,000 francs denomination) can now be bought for \$27.00, with French exchange at normal (19.3c per Franc) the same Bond would have a value of \$193.00

International bankers believe French Francs will sell at 10 cents per Franc before very long. Just think what this means to French Government Bonds; with the Franc worth 10 cents, each Bond of 1000 france will be a selected by the selecte of 1,000 francs will have a value of \$100.00 a rise of over 270%, or a profit of \$73.00 for every \$27.00 invested today. With the franc selling at 15 cents, each Bond of 1,000 Francs will have a value of \$150.00, a rise of more than 455%, or a net profit of \$123.00 for each Bond of 1,000 francs, or for every \$27.00 invested

We made a lengthy and thorough investigation to determine the best way to buy French Francs for maximum profits. buy French Francs for maximum profits. We are of the opinion that these French Government 6% Bonds afford the best medium, for they represent to French investors precisely what British Government and our Canadian Government Victory Bonds represent to us, being legal investments for every Institution, Trust Fund and Savings Bank in France, and constituting a strictly high-grade Government investment. They may be sold again instantly for spot cash, as they are listed on the Paris Stock Exchange and traded in throughout the financial centres traded in throughout the financial centres of the world. The interest coupons (payable June and December 16th) have always been paid promptly on the dot, and can be cashed in Montreal, New York, London, and other financial centres through our House, banks or other in-

French Government Bonds will, we believe, unquestionably come back to normal (\$193.00 per 1,000-franc Bond.) The United States were financially bank-rupt after the Civil War. Their securities could be bought for a song, yet in a few years the Americans were on their finan-

cial feet again, and today are considered the richest nation in the world.

Even England was once faced with what seemed to be a financial disaster. With Napoleon virtually pounding at her gates, British Bonds went for next to nothing, but the victory at Waterloo sent them sky-rocketing. The Rothschild family accumulated the major portion of its wealth by investing in British bonds and selling them when Wellington's victory became known.

The experience of France, too, bank-

ory became known.

The experience of France, too, banktupt at the hands of Bismarck, is within the memory of living man. Her Bonds sold down to 7% of their value after the Franco-Prussian War. They appeared hopeless, yet in two years they had recovered 95%, making fortunes for the farsighted investors who had the courage to invest in them. When millions of men and populations of pations land their collecpopulations of nations lend their collective efforts to the task—nothing is impossible. The French franc will undoubtedly come back to normal.

edly come back to normal.

A study of history convinces one forcibly that the most difficult thing in the world to destroy is national existence. History is repeating itself. The opportunity of a lifetime, to earn remarkable profits, exists today for investors, through the purchase of these high-grade French Government Bonds. They rank as the pre-eminent class of French Government securities, and are virtually a first mortgage on the entire assets and resources of the vast and wealthy Republic of France. The Bonds are valid for 30 years after maturity, and the interest coupons for 5 years after their respective maturity dates, thus enabling the investor to cash them at any time the exchange rates are favorable.

France is a first-class commercial, naval and military power of the world. French industries are thriving and working overtime. France is exporting goods to every country of the globe; her shipping is crowding the world's ports, and the nation shows every evidence of industrial and economic progress. Reparation page and economic progress. Reparation payments from Germany are further enhancing the French treasury. These conditions will be quickly reflected in a rapid rise in the French Franc, which in turn increases the value of French Government Bonds. That is why we urge you to buy French Government Bonds NOW, while they are on the bargain counter.

INTEREST INCOME The income from the average corporation of industrial Bond is fixed, that is to my, a 6% Bond of \$1,000 denomination yields exactly \$60.00 every year smill maturity. The income from French Government 6% Bonds comprises many of the attractive features of an ordinary share, or share of common stock. While the income expressed in French money remains fixed the value of that money to the Canadian of American investor depends upon the exchange value of the French franc expressed in dollars.

Thus it will be seen that at the present rate for the franc the holder of a 10,000-Franc Bond will receive for his coupons aggregating always 600 francs per annum a sum in Canadian money equivalent to a return of nearly 7% on his investment, that is, on the cost of his 10,000-Franc Bond which at the present time is \$270.00.

When the franc reaches 8 cents, however, the value of the coupons will be much higher; 600 francs will be worth \$45.00 which on an investment of \$270.00, is equal to a yield of 17% %. Pew common stocks offer so astractive a return.

When the franc has reached 10 emits or \$1,000.00 per 10,000-franc Bond the return will be proportionately higher. Bvery 600 france in interest coapons will bring \$60.00 when cashed. Here the yield is more than

At 15 cents per frame the compose on a 10,000-frame Bond costing only \$270,00 to-day (normal value \$1,930,00—a profit on the principal of \$1,660,00) will be worth \$90,00, representing a return of over 33%. And lastly, with the franc at par, i.e. 19.3 cents or \$1,930.00 per 10,000-franc Bond, the coupons for one year amounting to 600 francs will be worth \$115.80—an amount equivalent to a return of nearly 43% on the original investment of \$270.00.

Holders of French Govern-ment 6% Bonds can sell them at any time for spot cash at the prevailing mark-et price.

In view of the excellent prospects for a sharp advance in the value of French money, investors should buy as many French Government 6% Bonds as they can conveniently afford. We are convinced that present purchasers will double if not trable their money in a remarkably short space of time, but of course, immediate action must be taken if early profits are to be made.

We are averse to referring to our success in the field of foreign exchange but we may, with pardonable pride, boast of one of the most outstanding records on the contisent. We had the courage to advise investors to buy British, Swiss, Dutch, Swedish, Japanese, Norwegian, Spanish, Brazilian and Argentine Government and Municipal Bonds when such securities, because of the depreciation in the value of the money is which they were payable, could be bought for fractions of their former values.

Remember: French Government 6% Bonds are a genuine investment bargain. The opportunity to buy them at their present low price is not likely to recur between now and the day the French franc reaches par.
