## MORE QUESTIONS RE WATER DEPT.

Commissioner McLellan Adds to His List—City Will Buy Nets For Protection of 'Longshoremen—The Teamsters' Stand—Harbor Fisheries—Ferry Employees Want Increase

At the meeting of the common council yesterday afternoon Commissioner McLellan submitted some additional questions regarding the water department and the commissioners dealt with several matters of importance including harbor fisheries, tenders, protection for longshoremen, teamsters' stand and the housing survey.

Commissioner Agar reported that he had been able to find no more suitable stand for the teamsters than those now in use to replace the old stand on the north side of King square. He was given authority to submit estimates of the cost of a shelter and telephone booth. The tender of the American LaFrance Engine, Inc. for 800 feet of fire hose with couplings and branch pipe at 85 cents a foot for use in no 4 warehouse was accepted.

The mayor was given authority to purchase nets for use around the steamer landing stages to protect the men at work on them and the council decided to ask the federal government to pass legislation requiring the steamship companies to make such provision in future.

The Trades and Labor Council wrote asking that steps be taken to hasten the arrival of the ambulance at the scene of accidents and also asking for an amendment to the fair wage clause providing that laborers employed as artisans should receive artisans' wages.

W. F. Burditt, for the Board of Trade, asked the city to pay the cost of labor for a survey of housing conditions in a certain section of the city and the common clerk reported that applications for grants had been received from various bodies. All the requests were laid over for later consideration.

The sum of \$81.80 paid for side wharfage of the schooner Eliza Burritt, was ordered refunded to John Jackson.

The application of J. S. Armstrong for the exclusive right to fish eels in the harbor was refused. An amendment to the by-laws giving the city power to deal with unauthorized fishing in the harbor was adopted.

An application from the ferry employees for an increase in wages was referred to the commissioner of harbors and ferries.

"To Alderman R. W. Wigmore,

"City Engineer."

"Dear Sir: Concerning the list of questions submitted by you under date of December 28, and of which questions were answered by me a week ago, I have to ask for a further extension of time.

"The work of preparing the amount assessable against the frontiers on the recently paved streets on which I was engaged when the questions were submitted was delayed to study the water department question; but I was given to understand that the pavement assessment was of extreme urgency, therefore I returned to that and dropped the water question.

"Respectfully submitted,

(Signed) "WM. MURDOCH,

"City Engineer."

The mayor explained that the assessment of the frontiers on newly paved streets must be submitted before the estimates for the current year are made up.

Commissioner McLellan—"I understood that the street surveying business was entirely in the hands of Mr. Hatfield."

Commissioner Agar—"These assessments have to be made up officially by Mr. Murdoch as city surveyor."

Mayor Fink—"The matter of assessment has to be rushed before January 15."

**A Few More Questions.**

Commissioner McLellan—"I have no objections to a further delay in this case, but I have a few more questions to ask that arise out of the answers Mr. Murdoch furnished at the last meeting:

"What reason existed for omitting to answer question No. 4.

"In answering No. 7 question, you state the draft from Lake Latimer to be from 8,000,000 to 9,000,000 gallons per day. Will you please explain how the above figures are computed, when the records in the water office show from daily readings taken at Lake Latimer that the average daily draft from Jan. 1913 to Dec. 31, 1913 was 10,222,000 gallons, and the average daily draft from Jan. 1, 1913 to September 30, 1913 to be 12,417,000 gallons?

"What is the reason for the difference in the readings at Lake Latimer, taken on September 26, and September 27, 1913, and being as follows: September 26, 11,022,000 gallons, and on September 27, 9,605,000 gallons, a difference of 1,417,000 gallons?

"As it is generally understood that there is a large leak in one of the mains leading from Lake Latimer, will you please inform me as to the manner in which the size of the leak has been determined?

"You make the statement that the Venturi meters are unreliable under the present conditions and their readings of from 8,000,000 to 10,000,000 gallons have been found to be in excess of the delivery ascertained by means of a pitometer. As the amount according to the Venturi meters is not in excess of the Latimer Lake readings, but considerably below them, I would like to know how the readings at Lake Latimer compared with the measurements taken by the pitometer, as the water was delivered to the pitometer location from Lake Latimer?"

When Commissioner McLellan had read these questions the mayor said he did not see any reason why they should not be answered by the city engineer without any delay.

Commissioner Wigmore—"As a matter of fact, Mr. Murdoch told me in conversation that he would in all probability answer all the questions by next Monday."

A copy of the questions was handed to Commissioner Wigmore who said he would place them before the city engineer.

The Ferry.

Commissioner Schofield read a partial statement of the ferry expenses during the year 1913, with a comparison of the work done by the Ludlow and the Governor Carleton, the two ferry boats now in use.

While the Ludlow had only been used for 160 1-2 days, and the Governor Car-

## HER LITTLE SON WAS DYING

Gave Him "Fruit-a-lives" And Saved His Life

Campbellville, Ont., May 5th, 1913.  
"Our little boy, Lawrence, was sorely affected with Chronic Indigestion, and the doctor did not think he would recover. He started with a sore mouth and it developed into this other trouble. Everything he ate just passed right through the system without change. He cried incessantly and life was a misery to him. My husband had been using "Fruit-a-lives" for Indigestion, getting much benefit from them, and I thought what did him good, might help our boy. We tried "Fruit-a-lives" giving Lawrence half a tablet at a dose, and the result was marvellous. Today, he is the picture of health, and he is perfectly well."

MRS. J. VANFLEET.  
50c. a box, 6 for \$3.50, trial size, 25c. At all dealers or from Fruit-a-lives Limited, Ottawa.

**Temperance Gains.**

Toronto, Jan. 5.—Returns received at the Dominion alliance headquarters here tonight show that the temperance forces have won fifteen new districts, wiping out seventeen licenses. In sixteen places the required three-fifths majority was not secured; in five there were straight majorities against local option. In all fourteen repeated contests, local option was sustained.

## Woman's Hair Reaches to Knees

A Year Ago Was Threatened With Baldness. Tells How She Made Her Hair Grow

Mrs. Esther Emery, now visiting friends in the city, is the fortunate possessor of marvellously beautiful hair, which, when loosened from its coils, falls to her knees. Moreover it is soft, shiny and curly texture and in color a glorious glossy gold. Yet just one year ago she was threatened with baldness. Urged to tell how she had obtained this wonderful growth in so short a time, she said: "Had anyone told me such marvellous results could be accomplished with my hair, I positively would not have believed it. Twelve months ago my hair, which then reached barely to my shoulders, was falling out in an alarming rate and growing very thin actually exposing the bald scalp in several spots. It was dull and lifeless in color, turning grey in patches, and very dry and brittle. My head was covered with dandruff and itched like mad all the time. I tried fully a dozen different hair tonics, but they were all the same and never did me a bit of good. One day I chanced to read in my home paper of a simple home prescription to make the hair grow that was recommended by a well known physician. It said that by taking ordinary Lavona de Compose and mixing with Bay Rum and Menthol Crystals and applying to the scalp each night with the finger tips that new hair would grow every rapidly. I decided to try it and I had my druggist mix 2 oz. of the Lavona de Compose with 6 oz. of Bay Rum and 1-2 drachm of Menthol Crystals, and started to use it. My hair quickly began to grow. First the hair stopped falling, the itching ceased and the dandruff disappeared. Then tiny little hairs appeared all over my scalp. These grew and grew as though nothing would stop them. They are growing in yet, and while, of course, I have used the treatment steadily and expect to continue it, at least until my hair reaches the floor, I might have stopped and been perfectly satisfied at the end of three months. I think that any woman can get long, thick, beautiful hair by using this prescription as I have recommended it to several friends and all are delighted with the result. The prescription is very inexpensive and any druggist can fill it."

ton for 2041-2 days, the former consumed an average of eight tons, 484 lbs., daily, and the latter five tons 2,181 lbs., the respective consumption in 1913, working out at \$83.84 and \$24.84 daily.

The total maintenance of the ferry for the year had cost \$56,848, besides bond issues for \$11,700, the receipts are not yet compiled. The figure for maintenance, the commissioner said, was about \$8,000 in excess of that of 1912.

Repairs for the Ludlow had cost \$6,182, and for the Carleton, \$5,875.

It was remarked that the Governor Carleton was a very much cheaper steamer.

"And she did not have those patent doors on either," Commissioner McLellan said, laughing.

While the total receipts were not yet forthcoming, the commissioner reported an increase in single teams transported of 8,960 over the preceding year, with an increase of 232 double teams.

**RYDER-TURNBULL.**

In Lexington, Mass., on January 1, Miss Sadie Turnbull, daughter of Donald Turnbull, of W. street, Lexington, was united in marriage to William E. Ryder, of Hampton, N. B. The ceremony was performed by Rev. A. B. Critchton, rector of the Lexington Episcopal church, at the bride's residence. The bride, who was given away by her

father, wore a very pretty traveling suit of amythist shade and velvet hat to match, with ostrich plumes and marabou

feathers. Following the ceremony a dainty luncheon was served, after which Mr. and Mrs. Ryder left for their future home in Hampton, in which place Mr. Ryder is most popular. Mr. Ryder and his bride have the good wishes of numerous friends.

**Midget in Trouble.**

Edmonton, Alta., Jan. 6.—Thirty-two inches high and claiming to be the smallest man in Canada, B. Collins, who described himself as a cigar traveller, was fined \$10 and costs by Magistrate Massie for insulting conduct towards a woman in the street.

**Greece to Buy Battleship.**

Vienna, Austria, Jan. 6.—Greece, it is understood, has begun negotiations for purchase of a dreadnought now being built in England for the Chilean republic.

Thomas' annual January fur sale now going on.
