bars. When the main party arrived, the sconts informed them of their discoveries and a meeting was held. Grider refused to attend but was forced to do so. Then the men demanded an explanation, and, according to the statements of L. Wer-theimer, one of the prosecuting witnesses, Grider threw up the sponge, admitted that he had led the expedition on a wild goose chase, and handed back to the white goose chase, and handed back to the party the sum of \$600. Grider stated, Wertheimer says, that J. D. Wells, the mining recorder for Omineca, Capt. Black and J. W. Pearson were indirectly responsible for the enterprise.

At the close of the meeting Grider was made a prisoner by the fifty and brought back to Port Simpson, where he was turned over to Stipendiary Magistrate Alexander. Acting under the in-structions of the magistrate Constable Norrie brought Grider to Victoria and gave him in charge of the provincial police on the following information sworn to by the committee of three chosen to

He was a passenger north on the steamer Princess Louise, which was met by the Tees at Rivers Inlet. Sergt. Langley, of provincial police, who is going in to Omineca country to investigate the Gordon case, was also on the Louise, and he was told of the affair by the party and requested to arrest Wells, but declined to do so, saying he could not with-out specific authority. The steamers then parted. It is the belief of the members of the party who same down that he will be arrested at Port Simpson.

They have also circulated a petition to the attorney-general praying for the pun-ishment of Wella. It rends as follows:

Kiondike Minang District. On board the steamer Tees which arrived from Alaskan waters last evening were a party of miners just returned from the rich gold fields of the Kiondike. One of the members of this party, E. H. Cleer, of Ohio, brings news that another new strike has been made on an island in the Yukon river at the mouth of Ainsley creek and 18 miles from Dawson. Gold was first dis-covered here by some Swedes who were logging and doing a little prospecting "on the side." They immediately commenced to burn a hole on finding color and about thirty feet down got dirt which yielded \$8.50 to the pan. As soon as the news of the find was reported at Dawson a number of Dawsonites sped down to the island and soon it was all staked off. One of the chain holders is Fred. Wade, the new fegis-trar.

Mr. Clear brought out \$6,000 and says that in all \$40,000 was brought down on the Tees. Other miners who arrived from Dawson are C. C. McComber, C. H. L. Mc-Intosh. A. J. Hamilton, M. C. Eswege, Chas. Govett and H. Porter.

TO LOOK FOR ANDREE. An Eminent Swedish Professor Now Victoria Will Try to Find Him.

An eminent Sweilsh scientist is at pre-sent in the city, in the person of Dr. Otto Nordenskjold, professor of geology in Up-sala University, Stockholm. The primary object of the doctor's visit is to explore the Yukon country, and for that purpose he will leave here with seven or eight of his countrymen about the beginning of next week

week. The professor left Stockholm about a month ago sailing direct for Halfax. The expedition is backed by a well-known Swed-ish financier, and has in addition semi-official recognition from the government. The professor is accompanied by Dr, An-derson of the same university, and part of their efforts will be directed to an endeavor to learn of the whereabouts of Dr. Andree. Dr. Nordenskjold believes Andree to be still alive and will endeavor to learn, through the agency of the northern In-dians, the whereabouts of bis distinguished countryman. Dr. Nansen and Dr. Soen Hedin are both personal friends of the professor.

All records showed that Mr. Martin had always voted against resolutions to prevent the encroachment of Mongolians. Mr. Dedne then proceeded to point out some of the effects of Chinese labor, instancing the state of affairs at Union, and proceeded to argue that Mr. Martin's votes in the legislature proved that he had invariably supported monopolies and Mongolians. He, had, at every meeting and in"the paper, refrained from the private or business affairs of those opposed to him. He wanted to keep out all controversy of a personal nature.
