VIEWS OF MEMBERS OF THE INSTITUTE

Closing Session at Nelson Was Devoted to E. B. Kirby's Paper-The Next Meeting.

afternoon was almost entirely devoted o the discussion of Edmund B. Kirby's paper on "The Influence of Government it that dealt with the alleged proportion British Columbia next year. It was to take out ore in a camp that has a stated that the minister of mines was saloon than a camp without one? Liquor trying to arrange for such a meeting to licenses alone contribute very largely to be held in Victoria in September, 1903, and that there had been some corres-tioning the customs duties on liquors, ndence in the matter. The opinion of etc.

following gentlemen were selected to act a this capacity, with S. S. Fowler as chairman: Messrs, Fowler and Hedley, Nelson; Macdonald and Kirby, Rossland; Keffer, Greenwood; Parrish, Eholt; Garde, Slocan; Cronin, Moyie; Tonkin, Fernie; Hobson, Cariboo; Robertson, Victoria, and Brewer, Vancouver. The committee have power to add to their number, and will fix the date of the

the chairman invited discussion of Mr.

Kirby's paper. H. E. Croasdaile said that there were e shown in detail just how that estimate is arrived at. Another statement

E. B. Kirby, in response to Mr. Croas-daile, prefaced his remarks by assuring dared to publish over his own signature approximately estimated, but in allowing an additional 10 per cent. he did not think any over estimate was made. In the memorial of the Mine Owners' As-the memorial of the Mine Owners' Association, issued last year, all the statistics are handled in detail, and show that 22 7-10 per cent. of the gross products

This taxation is derived from the formation in the logislature how much taxation per work for the solution of the solution of

in duties on machinery, etc. H. E. Croasdaile-I thought that Mr.

by mining. It is rather a bold state- tis's remarks, a motion was adopted that by mining. It is rather a bold state-ment to say that mining is loaded up with such an immense tax without the thereon, should be printed in full and figures to support it. I must protest distributed among the members of the in-that such a statement that the mines are paying a tax of 30 per cent, on their gross output should not be made with-out the clearest proof that such was the case. It is a very harmful statement. Mr. Kirby-There is nothing more that I can explain except that there is no guesswork about the figures on which the conclusions are based. They are as accurate as possible, and there would be no difficulty in looking up the references

B. T. A. Bell-While fully appreciat ing the value of Mr. Kirby's remarks, I think it is giving somewhat an errone conception of the present depression to blame it entirely on the 2 per cent. tax. All will admit that over-capitalization, passengers and her crowd of Orientals poor management and inflation have had a good deal to do with present condi-

E. B. Birby-The 2 per cent. tax bears upon the low-grade ore especially. aper on "The Influence of Government n Mining," or rather of that portion of out which that tax makes unavailable. Rossland is a particular case in point. t that dealt with the aneged properties. f taxes borne by the mining industry. There was a good gathering when Mr. Kirby apportions the taxes collect-There was a good gattering with the first matter taken up was order. The first matter taken up was the prospective meeting of the Ameri-can institute of mining engineers in the taken up to take the prospective meeting of the taken up to take taken up to taken up to take taken up to take taken up to take taken up to take taken up to taken up to taken up to take taken up to t

the meeting was that nothing should be done to clash with arrangements already under way, but that the provincial tails it is only necessary to say that the financial statements of the provincial under way, but that the provincial statements of the provincial statements of the provincial would gladly co-operate with the department of mines in making the visit a success.

A. McEvoy-I don't think that a fair distribution. When a storekeeper in Nelson pays his trade license or duties

on goods imported, it is hardly fair to charge it to mining. H. E. Croasdaile—If Mr. Kirby's logic

is correct, if the mines produce more, then the taxes must go up. If the mines would go up a million dollars. The only way to consider the situation is to get a

thing to be taken into consideration is Hing to be taken into consideration is H. E. Croasdaile said that there were statements contained in this paper of a very grave nature. He did not question the accuracy of Mr. Kirby's figures, but he thought the exact data from which there were deviyed should be given The he thought the exact data from which they were derived should be given. The bald statement that the mining industry of the rovince had to bear 20 per cent. of the total taxation would assuredly have the effect of restraining capital from coming into the country. It should be shown in detail just how that estigolden stories about the wealth of ore Miss Helen W. Munroe, W. H. Newall, the mountains in British Columbia con-Mrs. W. H. Newall, J. B. Pierce, Mrs. mate is arrived at. Another statement made by Mr. Kirby was that 2 per cent. tax absolutely bars the treatment of low-grade ores. Upon the estimates of Mr. Kirby the mining industry of the prov-ince had to bear over \$4,000,000 of the annual taxation, and this upon a pro-duction of \$15,000,000. E. B. Kirby, in response to Mr. Croasbe purchased in Canada, and when it arrived at Rossland there was just \$6,-Capt. R. E. Tilney, C. M. Túrner, F. W. eeting that he would not have to publish over his own signature to publish over his own signature such appalling figures had he not exer-cised the utmost care in compiling them and had he not by painstaking investi-gation satisfied himself of their entire accuracy. The figures are taken from the provincial government statistics, save in determining the relative amounts shifted by the other industries upon the shifted by the other industries upon the mining industry. These could only be

B. T. A. Bell-I am glad that this cently arrived. Each has a specialty on that he had received that the Domin that he had received that the Domin tics are handled in detail, and snow that 22 7-10 per cent. of the gross products of the mines of the province have been consumed in taxation. "These figures have stood, although the report has been hammered jat and criticized by the ene-mies of the mine owner. These figures have not been impugned, and cannot be, because they are true, and it is easy to prove the 'truth of them. I would be only too glad to go into detail in the matter, and I have some of the data with

roportion is as I say. As to supplies acre was paid on agricultural land. I that is there that we use that is not was old 31/2 cents, while upon the land he whole at 30 per cent. I am guessing, you will. Some of you may estimate it unioubtedly is a bad thing for an im-mession to go abroad that mining in Bri-tish Columbia is taxed 25 or 30 per cent. S. S. Fowler-What Mr. Croasdalle ould like to know is how that \$5,400,-00 of taxation is derived. In answer that I suppose the returns from the rts of entry should show a proportion, much from duties on machinery, etc., id the provincial returns show how ach is paid on mining real estate, etc. It uncloubtedly is a bad thing for an im-much from duties on machinery, etc., if the large amount of taxes paid per cent. in the gross output to to be a grierous indirect, imounts to 20 per cent, of our indirect at entry shead in cash. While Mr. indirect scheme for the sun was visible most of burden if properly adjusted, and the pro-ceeds equitably distributed. The 2 per axed to its full capacity? In placing of the unworked crown granted mineral S. S. Fowler-What Mr. Croasdaile on the gross output, but it is worse for it to be so. In Ontario the customs duties would like to know is how that \$5,400,-paid per head average \$4; in British Col-umbia \$20. Taking into consideration blicit report showing how much had cent, tax hears hardest upon the lowd cent, tax hears hardest upon the low-grade properties, which support com-nunities to a far greater extent than the high grade. d At the conclusion of Mr. Smith Curby had probably gone into the figures high grade. Oughly to apportion the amount paid At the conclusion of Mr. Smith Cur-

that he had received that the Dominion government was granting to a company of men the crown grants for the fore-shore at San Juan. This formed the only could not be regarded as amendments neans of outside communication for a and amendments to the amendment, and amendments to the amendment. The matter was discussed, C. E. Red-fern introducing the following resolution: the Nitinat lakes and the watershed of the San Juan river. It was said that these men had now a wharf, and that there were abuses complained of in con-nection with this. Different rates were charged for wharfage. This company of men had, in his opinion, control of too much. The three blocks of land for which the grant was asked, included about all the land upon which a wharf could be built, according to the peculiar position of the harbor. He asked that a committee of seven be appointed to look into this matter. C. E. Redfern rose to a point of order. The held that without notice having been previously given that this motion was out of order. The chairman upheld Mr. Redfern in this, and asked for reports from com-

this, and asked for reports from committlees. A. L. Belyes reporting for a special

committee reported as follows: Your committee met on Wednesday morning. September 10th, and decided to wait upon the Mayor and request his co-operation in urging upon the people the ndcessity of immediate action. We met the Mayor at his office, at 10.45 a. m., and he promised to move in council for a grant to cover the necessary cost so that the work could be carried out at once, and sig-nified his intention of interviewing Mr. Wells before doing so, to obtain a reftera-tion of his promise as to share of costs. The committee also waited on Mr. Mc-Quade, president of the board of trade, who promised to bring the matter up at the first committee reported as follows: The committee also waited on Mr. Mc. Quade, president of the board of trade, who promised to bring the matter up at the first meeting of the council to endorse the action of the municipal council. We were later informed by the secretary of the board of trade that he had recently seen Mr. Wells, who had stated to him that the survey would be undertaken by the government as formerly promised. On Saturday last Mr. Richard Hall, M. P. P., saw Mr. Wells on behalf of the committee, and was assured by him that the work would be undertaken by the government and would be begun not later than the 20th inst. Respectfully gubmitted,
