Mr. Winslow misrepresented himself on the 10th, and it reads as follows:— No person shall be qualified to be elected Mayor or Alderman unless he shall be a resident of the town, or during such time as he shall directly or indirectly be a shareholder in an incorporated company, have any interest in any contract made with the Council, or be a defaulter by any law, fine, or money due to the Town, or who is a minister, priest, or ecclesiastic of any religious denomination, or person accountable otherwise than as a ratepayer for the Town revenue, or any part thereof; nor shall any person presiding at any election of Mayor or Alderman who is presiding, or any clerk or assistant employed by him at such election, while so employed, be so qualified.

The contract to which Mr. Winslow referred—the electric lighting of the town—is that made by Councilors Kerwin and Murray with Mr. Macdonald Snowball, Manager of the Chatham Electric Light Company, in which company Senator Snowball is a shareholder. Mr. Winslow knew this, yet he advanced his own version of both law and fact in order to mislead the electors. What a safe adviser he would be in a law case!

Sal of Pure Bred Pigs. Fanciers of pure bred pigs will have an opportunity on Saturday next, 6th inst., to purchase at public auction some fine specimens of the Chester white and Yorkshire breeds. The sale will take place at the Canada House yard, Chatham, at 11 o'clock in the forenoon and will be unreserved.

These pigs were purchased by the provincial government on the recommendation of the Northumberland Agricultural Society and they are of the best quality and condition that can be had in the County for two years. When the importation was determined upon, the Secretary for Agriculture, Mr. J. H. R. Macdonald, consulted with the officers of agricultural societies throughout the Province requesting them to give their opinions, and their ideas as to the best way in which to distribute the pigs—whether in the usual way of being sold to different localities and there sold to members of the district societies. When he received the information made out a classified list, which gave the numbers and breeds required as well as the opinions furnished at the places of selling.

This list was handed to Hon. Mr. Dunn—the member of the Government who has charge of the matter—and it is needless to say that a more practical or competent man for the work could not have been selected. He has sent six to Chatham and they are beautiful. One is a Chester white sow about six months old and another is a Yorkshire pig, which is also about six months old, and two boars of the same breed six weeks old; also a Yorkshire pig, which is also about six months old, and two boars of the same breed six weeks old; also a Yorkshire pig, which is also about six months old, and two boars of the same breed six weeks old.

to ascertain if any hardship has been imposed on a minority. To our outsider this appears reasonable; to a Canadian it is what we should expect. I sincerely wish to characterize, but I should be accused of using violent language. No man at all conversant with public affairs can be ignorant of the justice practiced by and for the minority in Manitoba. It is a subject for sorrow and humiliation that any one should ignore this injustice; it is a hollow pretence to talk of investigating it is treason against Providence to place this wretched excuse to justify opposition to its abolition. We may add, it is an insult to our Catholics to suppose that any respectable number of them will allow a different religious belief to blind them to the dictates of ordinary justice; or that they can be made the puppets of a movement which must end, if successful, in their surrender to the claims of the minority which is probably contemplated by the leaders, in disaster to the country.

I trust, Sir, you were mistaken in supposing any Catholics in Halifax "most contemned to an appeal to anti-Catholic prejudice." Some of them, indeed, may dislike the Government, and might on a question of trade or other policy, bitterly oppose it; but in common with their non-Catholic fellow-citizens are not blinded by fanaticism, they will surely be on the side of justice, even should they doubt the motive of the Government in acting justly. We are to look at acts, not motives. The former fall under our cognizance; the latter we cannot see.
