

U. N. B. TO HAVE TEAM THIS YEAR

GOOD RACING AT HALIFAX YESTERDAY

Special to The Standard.
Halifax, N. S., Oct. 4.—There have been better afternoon races during the exhibition, but few that caused so much enthusiasm as those held today. With the exception of the four year old trot, straight heats were the order of the day. But in that race, although only three horses started, there was much excitement and a lot of money changed hands on the result.

Feature of Day.

The feature of the day, however, was the work of The Surveyor. For three heats he trotted without a hitch, and in nearly every heat the field barely kept up with him. In the third heat of the day he trotted the mile in 2:30. Three heats gives the big Half Blood horse the best record for stallions. He went the miles in 2:19½, 2:18½, and 2:18½. The 2:18½ was the best of the year. It is brief and to the point. The Surveyor was never headed and was mainly a fight for second money between King Orton and Frank Power. The latter was the only horse who was picked to give the winner a strong chase, but Frank Power beat him in all but the last heat. In the third heat he was the only horse who showed he was given the place owing to the repeated breaks of King Orton.

In the first heat the tire of Parker's bike came off and he finished behind the other horses. In the second heat his fourth place owing to the accident

Baring In Three Year Old.

It was the favorite Baring, who walked away with the two heats in the three years trot. Mollie Border with Lydlard up, finished a fair second in the initial heat with King Dodds third. In the second heat Baring had a great lead in the half, but King Dodds went out to cut it down. The last half was a great race, and the Bingara stallion only had half a length to the good at the finish.

There was considerable speculation with reference to the 230 pace, as it was felt that Leonard Wilton was the favorite. Queen Marie and Otto Oakes in looked good. Leonard Wilton was the favorite, but the friends that the Queen has made here were ready to bet on the other two. The first heat was from start to finish, and Queen Marie and Otto Oakes were giving the Wilton stallion a great race at the wire. Tatum was not in form and trailed. The second heat was a close race. It showed a lot of speed and chased the leaders in fine style. Alice Snaffle and Nell Patch finished fifth and sixth respectively. The third heat was Otto Oakes as usual went into the lead on the quarter. On the spurt from the wire to the first turn, none can beat him. The seven horses were in a tight bunch. It was the three-quarters pole with Oakes still holding a bare lead. Leonard Wilton first passed him and then the Queen started one of her spurts and won. The fourth heat was a great finish but Wilton was there with the goods and had half a length at the finish. Otto Oakes and Leonard took the same places as in the first heat, but Tatum came up to fifth place.

Third Heat Similar.
The third heat was much similar to the second, Otto Oakes took the lead at the first turn and lead to the last quarter. At the half they were bunched, but they started to stretch out. Queen Marie made her usual spurt but as before Leonard had something left and met every advance. Ackert brought Isard home in third place with Taitan in fourth. Leonard Wilton took first money; Queen Marie second; Otto Oakes third and Isard fourth.

The four-year old trot was started at the close of the three-year old owing to it taking five heats, the last three were run off with nothing between. A good crowd waited the 20 minute intervals as the race was the most interesting of the afternoon. George Cresceus was the favorite, but four bad breaks kept him behind The Commodore in the first heat. When trotting good he had great speed, but Commodore Epaullet went without a break. Genevieve finished a very poor third and looked to be badly outclassed.

Came to His Own.

In the second Cresceus came to his own and took a good heat. He took the third in fine style, Genevieve for the first time showing signs and the heat was won by the fourth horse. Lydard took the Border colt to the lead and held it to the three quarters. George Cresceus had been trotting and running alternately, but with the last half mile he showed signs of being the wire by a nose. For his erratic work he was set back and Genevieve given the heat. After twenty minutes they came out for another brush.

Genevieve was now the favorite for the heat, but she was not to be out-clinched. Cameron drove him out however and it was only in the stretch that the Border Colt won upon a late drive.

The heat victory was a very popular

FOOTBALL PRACTICE TONIGHT

The Algonquin Football Team practiced out in force last evening to prepare for the enforced idleness of the past ten days, and some good was done. A fair number were in attendance, and the prospects look bright for the future. The difficulty lies in the fact that there is no sign of formation of a city league, and it seems a useless piece of time to devote to maintaining a team solely for the purpose of playing one or two outside games. Two former U. N. B. men, T. Haining and Doc Smith are now in the city and are anxious to get the team together this fall. The manager has issued a call for a full practice tonight commencing at 5.30 o'clock, and it is hoped to see at least twenty men at the address at the Shamrock grounds when the whistle blows.

BOWLING CLUB **HOLDS MEETING.**

The first meeting of the St. John Bowling Club was held last evening at the Black's Bowling Alley. The secretary, Mr. G. Smith read the by-laws which had been approved of by the committee and these laws were adopted by the club. The plans for the winter were also discussed. The club proposes holding monthly tournaments for which prizes will be given for competition among the members. The competitions will start in November. The applications for charter members will close on October 25.

WOMEN IN BIG GOLF TOURNEY

Philadelphia, Pa., Oct. 4.—Out of seventy entrants for the Women's National Golf Championship today at the links of the Merion Cricket Club, Haverford, all but three started and every one finished. Although it might have been warmer, the external conditions could hardly have been more favorable, so it is difficult to account for the high range of the cards in the qualifying round of 18 holes.

**MARATHON CRACKS MAY
COME TO ST. JOHN.**

Montreal, Oct. 4.—Arrangements are in progress to have Holmer, St. John, Abbe Woods and possibly other Marathon runners meet at St. John N. B., about November 1.

Austrian women cast their first ballot the other day. Single women and widows in the province of Vorarlberg who possessed taxable property in conformance with the new election law voted for Members of Parliament.

Declares That Pirates Will Take World's Championship Series--His Reasons Backed by Statistics--Most Important and Exciting Series Yet Witnessed is Anticipated.

By Tip Wright.

I believe Pittsburgh will win the world's series.

In my opinion the Pirates are better than any team in American league. Fred Clarke has a team which right now is stronger than the Culs were last season when they showed up Detroit, winner of the American league pennant, in the world's series.

stops. They steal third as readily as second. They work together perfectly.

Little Stealing.

I don't imagine there will be much base stealing on Geo. Gibson. National leaguers haven't trifled much with that whip of his this season, and I don't look for anyone running wild with him back of the windpaw when

Not the Same Team.

Two months ago the National league winners were not the same team which will go into the inter-league struggle. Wonders have been worked in 60 days, and I consider the Pittsburgh team 30 per cent. stronger than it was before Third Baseman Byrne joined. Third base was the weak point of the defense, and it has been strengthened.

I don't go much on "dope," as they call baseball statistics, but thousands do. So many men play "safe" for the sake of their records that very few are the most valuable men are down in the minors while weaker performers show light.

The batting and pitching strength of the Pirates according to the figures now attainable, follows:

DAILY PITTSGURGH LEAGUE

Go After Everything.

This, in fielding records, is because the better men go after everything within possible reach, and are credited with errors by thoughtless scorers on almost impossible chances. And while consistent hitters naturally rank high, it is the man who can walk up to the plate with runners on and smash the ball for a hit, who is more valuable than the 500 hitter who falls down in a pinch.

The Pirate Long Suit.

I have never seen a team so capable of doing this as the Pirates. How many times this year have they scored run after run with two out? How often have they developed a batting rally when seemingly defeated? Pitchers say Pittsburg is the hardest team to hold in check at bat in the

National league.

Pittsburg has the greatest outfield in the National league. Clarke, Leach and Wilson have retired almost 150 more batters than any other trio. This alone denotes great defensive strength. Clarke and Leach get more flies than any two outfielders in the league, and Wilson averaged two put-outs a game. On top of this, the three nail many a drive that would go for two and three bases in any other outfield.

To Ty bbb. When English is applied the cue ball diverges to an extent that it will pass around a ball placed in a straight line before it. The line of aim in the diagram is a one-half ball right on the object ball, cue ball five-eighths left. The cue ball is in the extreme English and extreme draw and is of such force as permits the combined motion of the cue ball to pass around the object ball.

in the games in the world's series.

In Extra Base Hitting.

The batting strength of the Pittsburgh team lies in the ability of the players to get on first base with equal ease. But two of the team bat left handed and of these Fred Clarke is the best left hander against a southpaw pitcher in the business. Pittsburgh excels in extra base hitting.

In Wilson, Miller, Byrne, Clarke and Wagner the Pirates have a quintette of base runners who rank well up. When it comes to the finer points of the game the team is strong. Fred Clarke is a better hitter than every average runner to baseball. They play the hit-and-run with a nicety appreciated by the student. They work the delayed steal to the confusion of back-

tions, impelling, rotating, retrograde and the like.

E is the natural destination of the ball, and the difference between E and F may be made by striking the ball as shown in the diagram, because the cue ball, diverging as it does, will not reach it. It takes from C a new direction, effecting a half stroke upon the object ball and rolling to F.

Was Taken To Hospital.

Frederickton, N. B. Oct. 4.—William Collins, who recently attempted to end his life by slashing his throat with a razor, was taken to the provincial hospital this morning. A few nights ago he attempted to kill his wife, and might have succeeded but for the intervention of neighbors.

GAVE GAME TO NEW YORK BY DEFAULT

New York, N. Y., Oct. 4.—The National League championship season in New York ended today under unfortunate circumstances. Philadelphia forfeited the second game to the locals. The first contest was won by the home team, 6 to 5 and in the second the score in the fourth inning was 1 to 1, when Pitcher Moren objected to a ball that had been called on Wilson. Mullen, a new umpire who was in the Western League this year, put Moren out of the game and

also ejected Knabe and Doolin. The latter two Philadelphia players refused to leave the field, when ordered to do so by the umpire and after vainly waiting for Manager Murray to provide substitutes for them, Umpire Mullen awarded the game to New York 9 to 0. The score.

**TRADING IS
ACTIVE IN
DOM. STEEL**

Montreal, Oct. 4.—There was an extraordinary heavy volume of business in Dominion Stock in the stock market today, which in the first two hours trading sent the price of stock up five points from the opening at 53.38. There is some talk of short interest covering to account for the heavy buying, but there are no signs of a general advance, and much nearer dividend stage than most people suspect. One of the largest shareholders has the word of authority that the company is not about to get par for his stock. The balance of the market was generally steady. Scots Cadets at Queens Rink.
An event of no small importance will be the Scottish gathering to be given at the Queens Rink this evening by the St. Stephen's Scots Cadets, under the patronage of Lieut. Col. Humphrey D. O. C. The programme includes drills and fancy marches by the boys of the company, selections by the pipe band of 12 pieces, dancing of the Scotch reel, the Highland fling, sword dance and fisher lads. A quartette in Scotch songs, concluding with a grand military tattoo. A feature of the evening will be Master Tom Malcolm, Scottish tenor, in songs and ballads.

When English is applied the cue ball diverges to an extent that it will pass around a ball placed in a straight line before it. The line of aim in the diagram is a one-half ball right. If the object ball, cue ball five-eight feet apart, is struck with a medium English and extreme draw and is of sufficient force as permits the combined motions, impelling, rotating, retrograde, and English, the cue ball will be the natural destination of the ball, and the difference between English and F may be made by striking the ball as shown in the diagram, by striking the ball, varying the force from a straight line to a new direction, effecting a one-half stroke upon the object ball and

Was Taken To Hospital.
Frederickton, N. B., Oct. 4.—William Collins, who recently attempted to end his life by slashing his throat with a razor, was taken to the provincial hospital this morning. A few days ago he attempted to kill his wife, and might have succeeded but for the intervention of neighbors.
