

A VITAL FACTOR

It is natural for a growing child to crave what may seem an over-abundance of food. The vital, important factor is to assure not only a plenitude of food but food that contains those substances that promote healthful growth.

SCOTT'S EMULSION

is daily helping to nourish and strengthen many boys and girls through the trying period of growth.

You should not hesitate to give SCOTT'S EMULSION to a child of any age. Try It!

Scott & Bowne, Toronto, Ont.

A fabric closely resembling silk is now being manufactured from trees that are natives of the tropical regions of Asia, Africa and South America.

Danish farmers are the best butter-makers in the world. France has water power to the extent of 10,000,000 horsepower awaiting development.

SUNLIGHT IN THE NIGHT HOURS

EFFICIENT factory lighting is of greater importance now than ever before.

The high price of material and the pay of factory workers are such that spoilage and wasted effort must be reduced to a minimum.

Every factory manager knows that daylight is the best light to work by. But there are working hours in the day when artificial light is necessary, even in the most modern plant. An artificial light approximating daylight simplifies the problem of maintaining a high standard of production.

HYDRO Gas Filled Lamps flood your factory with an easy-to-work-by light. Furthermore, they are economical. HYDRO Gas Filled Lamps have greater brilliancy and long life. The Hydro-Electric Power Commission of Ontario recommends HYDRO Gas Filled Lamps for factory lighting.

We will gladly demonstrate their great brilliancy and low current consumption at the Hydro Shop. Call at your convenience.
