M. Sig.: Add two teaspoonfuls of the mixture to two pints of hot water and flush vagina thoroughly three times a day. (*Females.*)

R Liq. plumbi subacetat,
dil. f ʒ j.
Ex. opii aquos gr. vj.

M. Sig.: Use as an injection two to four times daily.—*Van Buren and Keyes.*

St. Leon Springs Water

DR. SEVERIN LACHAPELLE, Editor-in-Chief of the *Journal d'Hygiène*, in two well-written articles, recently published on the virtues of the

CELEBRATED ST. LEON WATER,

gives a very careful analysis thereof, and he states the various diseases for which this water is positively efficacious; amongst others Dyspepsia, Scrofula, Rheumatism, Hemorrhoides, Liver, Kidney and Skin diseases. He says this Water, drank habitually, is the most powerful agent in destroying the germs of Rheumatism, which undermine the constitution. In cases of Typhoid Fever, St. Leon Water is the basis of treatment.

ANALYSIS.

Chloride of Sodium	677.4782 grains.	Sulphate of Lime0694 grains.
" Potassium	13.6170 "	Phosphate of Soda1690 "
" Lithium	1.6147 "	Bi-Carbonate of Lime	29.4405 "
" Barium6099 "	" Magnesia	82.1280 "
" Strontium5070 "	" Iron6856 "
" Calcium	3.3338 "	Alumina5830 "
" Magnesium	59.0039 "	Silica	1.3694 "
Iodide of Sodium2479 "	Density	1.0118 "
Bromide of Sodium8108 "		

I hereby certify that I have analyzed a sample of "St. Leon Water," taken from the bulk from the store cellars in Montreal, and I am able to confirm the general result of the analysis published by Dr. T. Sterry Hunt., F.R.S., published in the report of the Geological Survey, 1863; also the analysis of Prof. C. F. Chandler, of Columbia College, New York, made in 1876.

(Signed) JOHN BAKER EDWARDS, Ph.D., D.C.S., F.C.S., and ex-Professor of Chemistry and Public Analyst.
