

Witchery or Science For that Corn?

ILL you use something ancient as witchcraft—methods harsh, uncertain and unscientific?

Or the modern way—gentle, sure and final—devised by a chemist who spent 25 years on corns?

Blue-jay is the method used by doctors—used by experts—used by millions who have tried it. It's a thin little plaster which applies to the corn the wonderful B & B wax. 91% of all corns go with

the first plaster. The stubborn 9% yield to the second or third. The pain ends instantly. The corn ends in 48 hours.

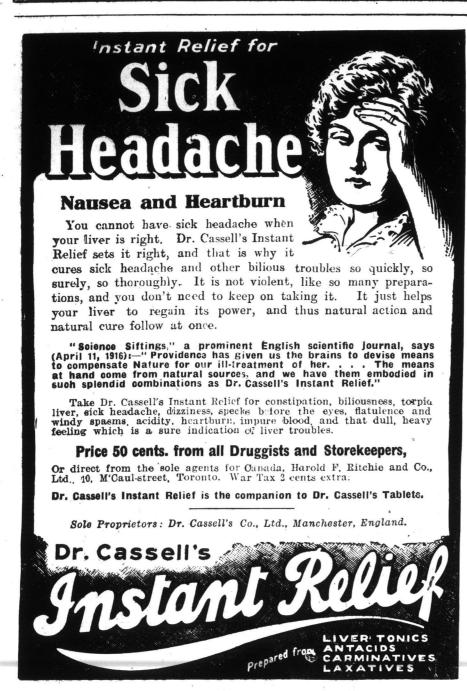

A million corns monthly disappear under Blue-jay. Your own friends employ it. Countless people around you—users of Blue-jay—never let a corn ache

We urge you to try it. Prove the quick relief, the permanent removal. In this day corns are needless.

Correspondence

Dear Friends,—I take the Monthly from an aunt that lives near us, and then I pass it on to my cousins. I think it is a great magazine, and so does everybody who sees it. I have many friends and two relatives in France, in the trenches, and what was my surprise to learn through a letter from one last week that The Western Home Monthly is one of the best favorites among all Canadian papers that go overseas.

Dear Editor, I think I have taken up enough of your valuable space, so will close, hoping to hear from some of the clever members. I will say I am nineteen, rather dark, tall, and am a great reader, play on the violin a little, and am going to have a career of some kind. I think it is nice for a girl to know how to earn her living. I used to live on a farm. Please ask Mr. Batten to give us another story like "The Panther's Claw," I think most of the stories are splendid. I always turn first to those of Miss Bayne, as she used to live in our town, and we are all keenly interested in her work.

Can you tell me if Mr. Bonnycastle Dale is Canadian; also, if Mrs. Pearl Hamilton is Canadian?

With best wishes to all the friends and continued success to The Western Home Monthly.

"Rebecca of Sunnybrook Farm."
[Mr. Bonnycastle Dale is a Canadian, and from your own Province of Ontario; while Mrs. Hamilton, though born in the Western States, can also qualify as such by long residence and good works.]

"Busy Red Cross Workers in B. C."
Dear Editor and Readers,—My brother

Dear Editor and Readers,—My brother and I have taken The Western Home Monthly for four years, and I have never missed a single copy. First I read the column by Pearl Richmond Hamilton, and then the letters; then all of the paper.

If I were to describe myself, the description would be nearly the same as Soldier's Admirer. Only I can dance, but have never ridden a horse. I live among the mountains on the banks of a They have been doing quite a bit of Red Cross work in this little village, and I am making a cushion to raffle. The proceeds are to go to the Red Cross. Now, if any of your readers would care to correspond with me, I will try and answer all letters I receive. Oh, by the way, if anyone would care to know how the salmon is caught and canned in the canneries, I will try and R. D. Evans, tell them the ins and outs, as I was born and brought up amongst fish, as the

My address is with the Editor, so I Evans' Canthink I will just cut it out. I will sign cer Cure, demyself,

Little B. C. Teso.

Congratulations!

Dear Editor and Members,—I did it! I asked M—— to marry me, and now won't you all congratulate me, my friends? I'm the happiest man alive. If I had only known it was so easy to ask such a hard question I would not have wasted eleven years of happiness by being so backward.

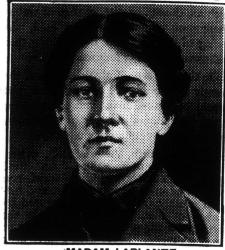

I suppose you will all be interested to know that M—— and I are to be united before five years have passed. I have sold my little Illinois home, and am starting anew in the bushy regions of Clanwilliam.

The crops in this district are only "fair to middling" this year, but we reckon on better ones next year. Both hail and rust have done quite a bit of damage. By the way, we have had two very bad wind storms this summer which could almost be called cyclones. Trees were broken and uprooted, stooks, straw and hay blown for yards while several sheds were blown over.

I am sorry, dear friends, to think I have scarcely any news for you this time, as you know that I (as well as the rest of you farm boys and men) are busy with harvest and so have no time for gossip. In a couple of days threshing will be here in full sway, and we remaining boys will have to work double hard to make up for our missing comrades at the front. Let us be truly thankful for our harvest returns this year, poor though some may be, and

"I FEEL LIKE A NEW BEING"

FRUIT-A-TIVES" Brought The Joy Of Health After Two Years' Suffering

MADAM LAPLANTE

35 St. Rose St., Montreal. April 4th. "For over two years I was sick and miserable. I suffered from constant Headaches, and had Palpitation of the Heart so badly that I feared I would die. There seemed to be a lump in my stomach and the Constipation was dreadful. I suffered from Pain in the Back and Kidney Disease.

I was treated by a physician for a year and a half and he did me no good at all. I tried "Fruit-a-tives" as a last resort. After using three boxes, I was greatly improved and twelve boxes made me well. Now I can work all day and there are no Headaches, no Palpitation, no Heart Trouble, no Constipation, no Pain or Kidney Trouble and I feel like a new being—and it was "Fruit-a-tives" that gave me back my health".

MADAM ARTHUR LAPLANTE. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruitatives Limited, Ottawa.

CANCER

R. D. Evans, discoverer of the famous Evans' Cancer Cure, desires all who suffer with Cancer to write to him. The treatment cures

external or internal Cancer.

R. D. EVANS Brandon

DILES DON'T BE CUT Until You Try This Wonderful Treatment. The internal method

of treatment is the correct one, and is sanctioned by the best informed physicians and surgeons. Ointments, suppositories and other local applications give only temporary relief.
