We will give \$5,000 to anyone who can find adulterants in Sunlight Soap. **5c** Use Sunlight Soap according to directions—try it just once—and convince yourself that it will do twice as much as other soaps. 513

Eyesight Restored

Eyeglasses May be Abandoned

A Wonderful Discovery That Corrects Afflictions of the Eye Without Cutting or Drugging.

There is no need of cutting, drugging or probing the eye for the relief of most forms of disease, as a new method—the Actina treatment—has been discovered, which eliminates the necessity of former tortuous methods. There is no risk or necessity of experiment, as many people report having been cured of failing eyesight, cataracts, granulated lids and other afflictions of the eye, after being pronounced incurable, through this grand discovery. F. W. Brooks, Bauchene, P. Q., Canada, writes: Owing to having severely strained my eyes writing and checking at night, my eyes became very painful, and I could not bear the light. After using "Actina" less than four months, I can read and write as well as ever.

Amanda G. Dumphy, Narhwaak Village N. B., Canada, writes: I have used "Actina" as directed and I can truly say it has done more for my eyes than I expected. I wore glasses for five years and suffered much pain. Since using "Actina" I can sew or read without glasses and my eyes do not pain me. Mr. Harry E. Hendryx, Whitneyville, Conn., writes: "One of the leading eye professors told my wife that she would never see with her left eye again. But Actina has restored the sight, and it is now as good as the right one." Hundreds of other testimonials will be sent on application. "Actina" is purely a home treatment, and is self-administered. It will be sent on trial, post paid. If you will send your name and address to the Actina Appliance Co., Dept. 848, 811 Walnut St., Kansas City, Mo., you will receive, absolutely free, a valuable book—Prof. Wilson's Treatise on Disease.

I Can Increase Your Earnings

If you want an independent business of your own requiring no capital, mail your name and address and let me send you our Big Free 62-Page Book showing how you may earn \$3,000 to \$10,000 a year in the Real Estate, Brokerage and Insurance Business. Temperance Talk.

The Song of The World.

There's a song that the hammer is singing
A ringing and wholesome song,
Of the day's bread won,
Of the day's work done,
Of a mould well cast
In the fiery blast—
And never one blow gone wrong,
There's a song that the engines are singing,
A deep and echoing song,
Of the whirling wheel
And the burnishing steel,
From the lightest spring
To the mightiest swing—
And never a stroke gone wrong.
There's a song that the sails are singing,
A humming and catching song,
Of the prow that braves
The ravening waves
Of storms outailed,
And of ports safe hailed—
And never the helm gone wrong.

There's a song that the world is singing,
A resonant splendid song,
Of its work, work, work,
With never a shirk,
Of its battles won,
Of its labors done—
And of Right that masters Wrong!

The Drink Evil.

The quantity of absolute alcohol contained in the more than 2,000,000,000 gallons of alcoholic beverages consumed annually in the United States is about 84,000,000 gallons, a trifle more than one gallon per capita.

It appears from the following table that of all the peoples of Europe except those of Sweden, Norway, and Finland are greater consumers of alcohol than are the American people.

ANNUAL CONSUMPTION PER CAPITA OF ABSOLUTE ALCOHOL IN GALLONS.			
France	3.45		
Belgium	2.76		
Spain	2.65		
Denmark	2.39		
Switzerland	2.36		
Italy	2.26		
Portugal	2.22		
Germany	2.03		
United Kingdom	1.79		
Austria-Hungary	1.75		
Netherlands	1.38		
Russia (approx.)	1.14		
United States	1.04		
Sweden	.97		
Norway	.58		
Finland	.41		

Arthur Newsholme, M.D., F.R.C.P., has prepared a table showing the annual consumption per capita of intoxicants in European countries, estimated in liters of absolute alcohol, for the years 1891 to 1895. This table is quoted above with the liters reduced to gallons.

The following is the "drink bill" of the nation (the direct money cost) as estimated by the "American Prohibition Year Book for 1908," based on the Internal Revenue reports:

	Gallons	At	Sold for
Spirits domestic	136,302,381	\$6.25	\$851,889,881
imported	3,782,005	8.00	30,256,440
Wines domestic	50,079,383	2.00	100,158,766
imported	7,659,565	4.00	30,638,260
Malt domestic	1,814,695,785	.64½	1,170,478,781
imported	7,171,842	1.00	7,171,842
Add dilution at rectifiers	13,516,302	6.25	84,476,887
			\$2,275,080,857

The quantities above given are official and the prices conservative.

The United States Bureau of Statistics estimates the population of the United States June 30, 1908, as 87,207,070. The drink bill, therefore, is equivalent to \$24.94 for every man, woman, and child in the United States. Counting the average of four and a half persons to every family, which has been found approximately correct, we find that the amount of money directly paid by the people to the liquor trade is \$112.23 for every one of the families in the United States, there being 19,279,351 families on the above basis.

In the "American Prohibition Year Book for 1908," pages 54 and 55, an estimate was made, based upon the number of retail liquor-selling places in the country (which pay the special tax to the government), which were placed in round numbers for convenience at 250,000, the real number so paying being 254,714 in 1907. It is still entirely safe to use the same number 250,000, as the saloon, though slightly reduced still show 250,946 in 1908.

The national liquor expenditures being in 1908 \$2,174,766,954, we find that absorbed \$8,700 from the earnings of the each one of the 250,000 saloons people, the drain being, \$23.84 per day for 365 days in the year for each saloon.

It has been shown that it would require forty drinkers of full average "holding capacity" to consume the more than four hundred drinks per day sold by each average saloon. This puts ten millions of our people (overwhelmingly men) in the ranks of the regular saloon patrons.

Per capita expenditures for liquor	\$24.94
cost of U. S. Government	6.73
merchandise imported for consumption	16.49
merchandise exported	21.60
expenditure for education of population, 5 to 18 years of age	12.94

The cost of the liquors consumed in the United Kingdom (England, Wales, Scotland, Ireland) was estimated in 1906 by the Rev. Dawson Buern, D.D., an authority on the subject, at £166,425,911, a per capita cost of \$14.29.

The German Empire spent (1905-06) \$2,826,000,000 for alcoholic drinks, compared with \$419,000,000 for public schools (Der Alkoholismus, March, 1906), a per capita cost for liquors of \$50.13.

The liquor traffic is becoming a monopoly. Says an editorial in the Chicago Tribune, Feb. 9, 1906: "Forty-two breweries situated in this and neighboring cities take out 72 per cent of the saloon licenses issued in Chicago. This explains why the breweries are so solicitous about the size of the license. It appears that they are gradually monopolizing the saloon-keeping business and are driving the 'small respectable, struggling saloon-keeper,' of whom so much has been heard of late, out of it."

The records of other large cities show a similar state of affairs. In Detroit, Toledo, Cleveland, Cincinnati, Columbus, Rock Island, Moline, Peoria, and many other cities the breweries are in the same position. "Under the old system the tax has been paid by the saloonist, but now the breweries own all, or nearly all, of the saloons. It is the brewer that buys the buildings, pays for the licenses, and puts in the fixtures. The saloon-keeper is simply a clerk on salary." (Prebora Star.)

Medical facts Against the Use of Alcohol.

Of scarlet fever I have treated some 2,000 cases. I have never seen a case in which, in my opinion, alcohol was necessary; no case in which its administration was beneficial; but I have seen more than one case in which its action was directly injurious. Alcohol in no case averts a fatal issue where such is pending. The facts are dead against alcohol. In hospitals there has been an increase of 300 per cent in the use of milk, and a decline of 47 per cent in the use of alcohol. Progress in treatment of disease has gone hand in hand with the disuse of alcohol. The use of alcohol formerly was the outcome of ignorance, a confession of weakness and defeat; today it is the expression of inability to discard the fetters of an outworn routine.—Dr. C. Knox Bond, in Medical Times.

Let us all, who desire to avoid gout, rheumatism and dyspepsia, shun ale, beer, porter, stout and all other kinds of fermented and distilled liquors.—Norman Kerr, F.L.S.

Blood Was Bad.

From impure blood comes Pimples, Boils, Ulcers, Tumors, Abscesses, Festering Sores, Rashes, Constipation, Head-aches, etc.

Get pure blood and keep it pure by removing every trace of impure morbid matter from the system by using

BURDOCK BLOOD BITTERS.

Mrs. Fred. Biggs, Kingston, Ont., writes:—"I was completely run down, my blood was out of order, and I used to get so weak I would be compelled to stay in bed for weeks at a time. I could not eat, was pale and thin; every one thought I was going into consumption. I tried everything and different doctors until a friend advised me to use Burdock Blood Bitters. I did not have one bottle used when my appetite began to improve. I used six bottles. I gained ten pounds in two weeks. When I began to take it I only weighed ninety-three pounds. It just seemed to pull me from the grave as I never expected to be strong again. I will tell every sufferer of your wonderful medicine."

For sale by all dealers.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.
