At CSG our success contributes to your success

## CANADA SYSTEMS GROUP

### PROGRAMMING OPPORTUNITIES

Computing services is the fastest growing sector in the computer industry and our company is the leader in this dynamic field.

Contributing to our success is a strategy that has broadened our service offerings and geographic horizons, kept us at the forefront of technological advances and acknowledges the importance of our 1,200 men and women in establishing a reputation for excellence.

We currently require programmers/analysts to perform all aspects of Business Systems Development related to System 3 or System 34 environments. You will spend approximately 1 year at customer sites followed by progression into large scale IBM based business systems development or distributed processing.

If you have 2-5 years experience in a System 3 - System 34 environment as a programmer analyst, have designed and installed a minimum of 2 systems, have RPG II with a manufacturing background we would like to talk to you. COBOL and on-line experience would be an asset.

At CSG you will have the satisfaction of working with the very best in the industry in an innovative professional environment along with excellent facilities, we are committed to provide progressive career development and compensation policies and abundant opportunities for professional growth.

To discuss these and other positions, please call:

Sharon Solomon, Personnel Administrator,
