## NOTES.

Robert Wilson

Pos <sup>n</sup> of C.H.	NB. When Gun stops always look for position of C.H. If C.H. is forward always rotate, or attempt to rotate mag	Immediate action.
7		Cause
1	Attempt to rotate mag. If mag rotates freely change it	Empty mag.
2	If mag rotates slightly look at stop pawls	Went on broken stop pawl spring
3	Mag forced full back C.H. If no round ejected but mag rotates, carry on	Space in mag
4	If no round is ejected & mag stops but rotate, examine feed arm pawl & spring	Broken feed arm pawl or spring
5	If live round ejected carry on If 2 live rounds ejected in succession examine second If both not ejected by this time unload & change Piston Rod.	Miss fire
6	If C.H. tried use wooden handle or double pull H mag.	Broken linker
7	If gun fires, single shot remove Gas Reg Key & Gas Reg. Fire one round to clear port & replace Gas Reg with large hole to clear load & carry on	Hard Ejection
8		Slightly damaged rod in mag.
		No Gas
		nil.
