

Prosperity
Proses for short

A RELIABLE POWER ISA FARM NECESSITY

You can do twice as much farming without doubling your force of helpers, by adding an I. H. C. gasoline engine to your equipment of implements and machines.

Your men will be able to turn out twice as much work. They will save time and you will save money, energy, worry and delay.

With an engine, the hired-help problem is simplified—you will be freed from the worry of unreliable, inefficient and dissatisfied help. The efficiency of your other farm machines will be more than doubled. You can operate, at minimum cost, your grinder, fanning mill, cream separator, churn, pump, thresher, huller, cutter and other farm machines without the need of even one helper. You can also have a power-house on your farm, where you will always find a willing power to do your work. You can have electric lights for your home—just belt your engine to a little dynamo. There should be no difficulty about an adequate water supply for fire protection, for general use about your premises, or for irrigation if you find that necessary.

Sit down and figure the price of labor by the year; calculate what it costs to feed a man; include your losses when you could not find help in busy seasons; and it won't take long for an International agent to sell you an

I. H. C. Gasoline Engine

one of the farmers' own line. When he explains its varied uses; its simple construction; how cheaply it can be operated; and how long it will render service, it won't be a question as to whether you can afford one, but how you ever got along without it.

Go to our local agent and look over the line. It includes an engine for every section and every problem; of all sizes and all costs, for all farm uses—vertical and horizontal (both stationary and portable); engines on skids; sawing, pumping and spraying outfits. It also includes I. H. C. gasoline tractors—first-prize-gold-medal winners—the best all-around farm tractor by test. Information regarding I. H. C. engines will be cheerfully given by the local agent; or, if you prefer, write nearest branch house for catalogue, prices and details.

INTERNATIONAL HARVESTER
COMPANY OF AMERICA
CHICAGO, U. S. A.

Look for the I.H.C. Trade-Mark. It is a Seal of Excellence and a Guarantee of Quality.

Buy the Harrow with the greatest capacity and the lightest draft.

The "Bissell"

Thousands of Canadian farmers have tested the "Bissell" Disk Harrow in the same field with other makes, and found that the "Bissell" has the greatest capacity and lightest draft. Because of the special shape of "Bissell" Plates they cut into the ground easier. They turn all the soil, whereas other disks only scrape it or set it on edge. The "Bissell" does clean work where others make a ragged job of it. Steel scrapers meeting the edges of the plates "chisel-fashion" and "movable" clod-irons keep the machine free from dirt or trash. The "Bissell" stays right down to its work. It won't bind, buckle or hump up in the centre no matter how stiff or hard the soil may be. It is built to withstand the hardest usage.

A simple method of balancing the driver's weight removes neck weight. It is the harrow you should know more about. So write Dept. W for catalogue, or see your local dealer.

STEAM PLOWING IN THE EAST.

Attention was attracted some few weeks ago by a dispatch in the newspapers explaining that Reeve Wm. Forbes, of West Zorra, Oxford Co., Ont., had hitched a traction threshing engine to two double plows, turning four furrows at once. While this is not the first instance of steam plowing in Ontario, it was, nevertheless, novel enough to excite considerable interest, and "The Farmer's Advocate" has made it a point to obtain from Mr. Forbes some details, which he furnishes as follows:

"I have plowed twenty-two acres of sod, which has been in pasture for some time, and was very hard and dry, and nine acres of corn stubble. Engine is a 17-horse-power one, which we found very convenient for the purpose, it being very easy to put a double-tree on behind to hitch the plows to. I used two plows (two-furrows), a Frost & Wood and a Fleury, the first one hitched about three feet from engine, and the second about nine feet. It requires two men to work, one to look after engine, and the other to look after plows at each end of the field; that is, to lift them out of ground and to enter them when starting. In going across the field, he sits on platform of engine watching the plows doing their work, which they did very satisfactorily. Coal and wood was used for fuel, at a cost of 30 cents per acre. We could easily plow half an acre per hour. I do not think it would pay a man to buy an engine especially for plowing, but any farmer who has one, can utilize it to advantage in plowing, because it does the work well, and in a hurry, and is a great saving on horses, especially in hot weather. On account of having two injectors on engine, very little time was lost in supplying engine with water.

"To work successfully, it requires a long field, free from stones, for, if the plow strikes a stone, it is thrown up in the air. My field was ninety rods long. In turning, we required about ten yards at each end of field. Lands were fifty yards wide. We turned to the left until we plowed ten or twelve yards, then turned to right and came down center till finished."

SHANNONBANK AYRSHIRES, CLYDESDALES AND YORKSHIRES.

The Shannonbank herd of Record-of-performance Ayrshire cattle, the property of W. H. Tran & Son, Cedar Grove, Ont., in York County, still maintain their reputation as a herd of high producers. Fifteen of those now in milk are in the Record of Performance, the following being the official records of several of them, made during the ordinary milking season: Rosy, 8,618 lbs., butter-fat test 4 per cent.; S. B. Dollie, at three years, 6,238 lbs., butter-fat test 4 per cent.; Ella of Halton (imp.), 6,946 lbs., butter-fat test 3.60 per cent. Ella of Halton 2nd was not through the test at the time of our visit, but will pass; her butter-fat test is 4 per cent. S. B. Frances 2nd, at three years, 9,132 lbs., butter-fat test 3.90 per cent.; Lizzie 2nd, 7,387 lbs., test 3.80 per cent.; Blossom, 8,896 lbs., test 4 per cent.; Lizzie, at three years, 9,789 lbs., test 3.90 per cent.; Lucy 4th, at two years, 5,779 lbs., test 4.60 per cent., etc. These are representative of the entire lot, whose type and splendid udder development are indicative of great producing ability. From such choice breeding as this herd possesses on milk-producing lines, for sale are a number of heifers, from calves up to three years of age, and four young bulls from two months to two years of age, the oldest being out of the cow Rosy; another of them out of the cow Ella of Halton (imp.). All are sired by the great bull, Lochmagar 21300, whose sire and dam are both imported, and both Ottawa champions. In Clydesdales for sale is an extra-choice yearling stallion, S. B. Duke 9531, sired by Imp. Hopewell, dam S. B. Maid 7976, by Imp. Duke of Cornhill, grandson by Imp. Lorneck Davie. This is a pair of comely form and splendid quality, and should develop into a right good kind. In Ayrshires, Mr. Tran has a few more available of both sexes of various ages, and from his choice stock of purebred and extra-bred out of young stock, which will prove of every value to the farmer.

Is Your Husband a Drunkard

Is Your Father a Drinking Man?
Is Your Son on the Downward Way?

YOU CAN SAVE HIM

Write to This Woman
To-Day

She cured her husband, her brother and several of her neighbors, and now she generously offers to tell you of the simple, inexpensive remedy that she so successfully used. The remedy can be given to the patient

unnoticed so there is no publicity of your private affairs. She is anxious to help others so we earnestly advise every one of our readers who has a dear one who drinks to drop her a line today. She makes no charge for this help, she has nothing to sell (she asks for no money and accepts none) so there is no reason why you should not write her at once. Of course, she expects that you are yourself personally interested in curing one who drinks, and are not writing out of mere curiosity. Send your letter in confidence to her home. Simply write your name and full address plainly in the coupon below and send it to her.

MRS. MARGARET ANDERSON,
234 Home Avenue, Hillburn, N. Y.

Please tell me about the remedy you used to cure your husband, as I am personally interested in one who drinks.

CAUGHT THAT TIME.

A college professor who was always ready for a joke, was asked by a student one day if he would like a good recipe for catching rabbits. "Why, yes," replied the professor. "What is it?"

"Well," said the student, "you crouch down behind a thick stone wall and make a noise like a turnip."

"That may be," said the professor with a twinkle in his eye, "but a better way than that would be for you to go and sit quietly in a bed of cabbage heads and look natural."

GRAND NEWS FOR WOMEN.

Mrs. E. P. Richards Tells How
Dodd's Kidney Pills Cured
Her.

After Suffering for Twenty-eight
Years from Pains and Weakness
and Sleeplessness—Dodd's Kidney
Pills the Only Medicine She Wants.

Cottle's Cove, Notre Dame Bay, Nfld., Dec. 6—(Special).—Grand news for suffering women is that being scattered broadcast by Mrs. Elizabeth P. Richards of this place. For years she suffered from that terrible weakness and those agonizing pains so many women know. She has found relief in Dodd's Kidney Pills, and she wants all suffering women to know it.

"For twenty-eight years," says Mrs. Richards, "I suffered from Rheumatism, Kidney Trouble and Neuralgia. I got so weak I could not do my housework. Sleep was out of the question, except for a few minutes at a time. My back ached so I could not sleep. I tried all kinds of medicine, and had come to the conclusion that there was no cure for me, when reading advertisements led me to try Dodd's Kidney Pills. I now sleep well, and rise refreshed every morning. Dodd's Kidney Pills are all the medicine I want."

The woman who has healthy Kidneys will never know the pains and weakness that make life hardly worth living. Dodd's Kidney Pills always make healthy kidneys.
