## Gossip.

Wm. A. Rife, whose advertisement runs in these columns, writes that through his advertisement he has made splendid sales of Holsteins. Griesbach Bros., of Collingwood, took ten head of females and the richly-bred bull calf, son of Sir Korndyke Boon, a son of the noted Pontiac Korndyke, with 11 daughters with records from 30 to 38 lbs. butter in seven days, and grandsire of the world's-record cow, Pontiac Lass, 44.18 lbs. butter in seven days. This calf's dam, Norine Wayne Mercedes, is a sister to the sire of Queen Butter Baroness, the Canadian-bred champion cow, with record of 33.18 lbs. in seven days. The grandams of this calf average over 27 lbs. butter in seven days, with an average per cent. of fat of 4.48. Edgar Dennis, Newmarket, took the well-bred yearling bull, Prince Ormsby Aaggie Belle Wayne, a grandson of Francy Bonerges Ormsby, 29.10 lbs. butter in seven days, dam Lady Wayne Norine, 22 lbs. butter in seven days. This cow is grandam of more high-record cows than any other cow in Canada, her two sons having 35 R. O. M. daughters, two over 30 lbs., and twelve from 20 to 33.18 lbs. butter in seven days. A three-year-old son of this cow is now offered for sale. He is a choice individual, and a valuable sire, as he leaves good stock. See the advertisement.

## LAST CALL FOR E. F. OSLER'S HOLSTEIN SALE.

As representative of the high-class herd-heading breeding of the young bulls to be sold, mention of one or two will suffice. There will be eight sold, ranging in age from calves up to one year. One of them is out of Queen Echo De Kol, record seven days, 27.53; thirty days, 111.70 lbs. butter and 3,055 lbs. milk. In her R. O. P. test, which started on March 7th and continuing to November 1st, she gave 17,461 lbs. of milk. She is still in the test, and will make a big record. This one is sired by the old stock bull. Another is by the young stock bull, and out of a 19-pound junior three-year-old daughter of the old stock bull, and she out of a 21-pound record dam. Pretty nice breeding that for a herd-header. Another, also by the young bull, is out of a 17-pound junior three-year-old daughter of the old bull, and her dam had a record of 23 lbs., as did also her grandam. This is illustrative of the breeding of the entire lot. Backed up on both sides for generations back, the entire offering at this sale has never been duplicated, and the cows of the pure breeds, and the unprecedented outlook for the dairying industry, make it an absolutely safe industry to launch into, or increase one already in vogue. Parties going by electric line from Hamilton, will get off at Trafalgar Stop, and by G. T. R., from either Toronto or Hamilton, at Bronte Station, where conveyances will meet all visitors.

## Alfalfa.

What makes the landscape look so fair; What blossoms bright perfume the air, What plant repays the farmer's toil, And will enrich the worn out soil? Alfalfa!

What is the crop that always pays, Which may be cut each forty days, Resisting drought, the frost, and heat; Whose roots reach down full twenty feet? Alfalfa!

What grows in loam, and clay, and sand; What lifts the mortgage off the land; What crop is cut three times a year, And of never a failure do you hear? Alfalfa!

What makes the swine so healthy feel, And never raise a hungry squeal; The wholesome food that never fails To put three curls into their tails? Alfalfa!

What makes all other stock look nice, And brings the highest market price; What fills the milk pails, feeds the calf, And makes the old cow almost laugh? Alfalfa!
