

Underwood

The new Underwood Billing Typewriter simplifies and systematizes the entering of orders and the rendering of bills; saves time, insures accuracy.

A book is necessary to explain it. Let us send you the book.

United Typewriter Co., Ltd.,

7-9 Adelaide Street East,

Toronto

and in all the principal cities.

Resolutions are of the mind— Live up to Yours.

It rests wholly with yourself. May we frame one for you?

"Resolved that, I will not put off to to-morrow what can and ought to be done to-day. I will take out a Triple Indemnity Accident Policy, and will thereby gain a sense of security in the knowledge that I have fulfilled one of the most important duties devolving upon me—to provide for the maintenance of my family."

With 11,000,000 accidents happening annually, will it not be strange if one does not happen you? To say that you have never been in an accident simply means that you are nearer the time when one is going to overtake you. And accident insurance is not a luxury, it is a stern necessity which you nor anyone else cannot afford to be without.

There are countless different accident policies, some good, others fairly so, and yet others absolutely worthless. The best policy for you and for the other fellow is the Triple Indemnity Policy issued by the Ocean Accident and Guarantee Corporation, Offices, Traders' Bank Building, Toronto. This policy provides that for a certain small consideration, your life is insured to the extent of three times the Indemnity in case of loss of life in railway accident. Is it worth while? Call at the company's office. This method will be explained fully to your satisfaction.

The Cost of Installing Business Systems.

The cost of installing Business Systems is in proportion to the size of the business.

A small business requires a more or less simple system of accounting—the expense is almost nothing compared to a big business whose arrangements are more complex.

Our Monthly Account System is especially adapted to the retail business.

Our Monthly Account System does it all in one operation—makes the entries in your books and prepares your bills at the same time.

Our Monthly Account System stops the work from piling up at the end of the month

and enables you to have each customer's bill ready at a moment's notice.

Let us tell you how Business Systems can be adapted to your business.

It costs you one cent to know.

A post card will bring you the information.
