MOTT'S BROMA

THE following observations having reference to the preputation of BOMA, appeared in a late number of the Bo-ten Medical Journa: 6 A few years since a great mausfactament Broma sought the opinions of many medical grationen of distinction, for the purpose of having an unabjectionable food for invalids, and was seemed that he had fully succeeded. Hospitals, infine. that he had fully aucseeden. riceputate, ndend-ries, and households generally, should always be provided with it. When grack, arrowicot, great, barley, starch, rice, farina, and many other things ordinarily resorted to for patients are of no utility, the Broma is sometimes reliched. It is believed that those who use it as a beverage will have me. nifest diatetic advartages over the consumers of ten and coffice We see it stated that during the last summer those individuals who were continually using Chucolate or Broma neither had attache of cholera or dysenteric r ffee ione, while others a the same families, taking their daily potations of ten, collee, or simple cold water, were the collerers, if any. We cannot vouch for the truth of this, but it has recalled to mind the statement that the oil dealers in London have been free from chelers or the choleroid symptoms. And it has been for ther observed, that persons who were taking ad liver oil for chronic difficulties, during the press. lence of the late epidemic, were not affected by a Vegetable oil in the first instance, and an inal al in the last, taken internally, would appear, by these statements, to have secured those who took them from the shafts of the postulence. It is ear. tainly a point well worth while to determine, whother the chocolate drinkers have been secure a : other infected a tree."

MOTT'S BROMA has now been before the public for a considerable peried, and along with the commendations of the Medical Faculty of the and the neighbouring Provinces, it has received the approbation of all classes of consumers -it is held to be an article of standard reputation, and the demand for it is constantly increasing

Sin, -For a long time I was a martyr to Rheumetien and Rheamstie Goot, and for ten weeks previous to using your medicines, I was so bad as not to be able to walk. I had tried dectoring and medicines of every kind, but all to no avail, indeed I daily got worse, and felt that I must shortly die From seeing your remedies advertised in the paper I take in, I thought I would give them a I did so. I rubbed the Uintment in as direcied, and kept cabbage leaves to the parts thick-ly spread with it, and took the Piles night and morning. In three weeks I was enabled to walk about for an hour or two in the day with a stick. and in seven weeks I could go any where without one. I am now, by the blessing of God and your medicines, quite well, and have been attending to my husiness more than seven months, without any

Sin,-With pleasure and gratitude I have to inform you that after suffering for 21 years with a bad leg, which yielded to no kind of treatment alibough I consulted, at different times, every medreal man of enterior in this part of the country, but all to no purpose. My leg is now as sound as ever it was in my life by means of your Pills and Chintment, which I purchased from Mr I. Davidson, Druggist, Berwick-upon-i weed, who knows my case well, and will, I am sure, be happy to certify with me, if necessary, as to the truth of this wonderfel cure. (Signed) ANDREW BRACK.
