Manitoba Section

This Section of The Guide is conducted for the Manitoba Grain Growers' Association by E. C. Henders, President.

DIRECTORS HOLD MEETING

The Board of Directors of the Manitoba Grain Growers' Association held an important meeting in the offices of the Association, in the Chambers of Commerce building, a few days ago. All the directors were present excepting Frank Simpson, of Shoal Lake, who was absent on account of illness.

The secretary presented his financial statement for the six months ending June 30. The receipts for membership dues indicated a gratifying increase of paid-up membership as compared to the corresponding period of last year. Of the 65 association pledges and 19 personal pledges made to the Association Emergency Fund, only nine association and 6 personal pledges remained unpaid at the end of the six months.

The secretary reported the farm help scheme proving much more successful than at first anticipated. Applications to the number of 252, together with the amount of the fares, were received. On account of starting our scheme too late in the season our agent was unable to secure berths in sufficient number during March, April and May. The result was that many farmers cancelled their applications, while others made temporary arrangements for seeding and left their applications standing. We are now supplying applications that were made as early as April.

Party of Harvesters

Arrangements are made to bring out a special party of 75 men to arrive the first week in August, for harvest, by way of experiment to see how far that method of supplying harvest hands can be relied on. Over 90 per cent. of men supplied have proved satisfactory. Acting co-operatively with Mrs. Lilley of the Sunshine Home we have placed about 75 domestic servants in farm homes in Manitoba since April 1. Applications were in this case also received in excess of the number we could supply.

Hail Insurance Bill

R. M. Wilson reported on behalf of the special committee appointed in February to prepare a draft Hail Insurance Bill: "That the committee prepared a draft and submitted it to the Minister of Agriculture, with a request that it be introduced into the house then in session. After considerable discussion of the merits of the bill the minister promised to submit it to the governor-in-council; that personally he could see no reason why the bill could not be introduced at the present session of the legislature. At a subsequent interview with the minister he stated that the bill was not introduced because they could not get it printed in time."

On motion of P. Wright and R. J. Avison the report was received, and the secretary instructed to have the draft printed and each branch supplied with a copy before their annual meeting, so as to receive consideration and report any suggested changes in the provisions of the bill before the next annual convention.

The executive and R. M. Wilson were appointed a committee to investigate reports of shortage in weight in car-load shipments of coal, and report at the next directors' meeting.

The secretary was instructed to arrange a date for a conference between the board and the executive of the Grain Growers' Grain Co., at an early date.

G.G.G. Elevator and Co-operative Supplies

A local branch of the Grain Growers' Association was formed at Lavinia Siding on the C.N. Railway in March with a membership of eighteen, which was increased to thirty-three at last meeting on July 10. Since organization stock to the amount of nearly \$13,000 has been sold in the Grain Growers' Grain Company and twenty men are at work erecting a thirty thousand bushel elevator, which will be equipped with rapid machinery and a first class cleaner. About twenty-four bins of one thousand bushel capacity will give accommodation to the farmers at threshing season. A committee was appointed to receive tenders on twine, four were received. Fred Dicker, being

the lowest, received the order for 10,000 lbs. The secretary was instructed to receive tenders on coal, hard and soft, as soon as possible. An order was sent to the Grain Growers for ten boxes of evaporated apples to be secured at once. The farmers of this district are ready for co-operation in all lines and as soon as the elevator is completed a full stock of flour, bran, shorts, lumber and many other things which the farmers require will be in stock. G. Smith is president, E. W. Alex. Andrew is vice-president, E. A. Dixon is secretary and Ed. W. McConnell is corresponding secretary. Hamiota. ED. W. McCONNELL.

The Mail Bag

Continued from Page 8

ask our banks if they will be so kind and condescending as to let him have the amount required. Hundreds of dollars have been lost by nearly every farmer in the West through having their notes drawn for November 1. January 1 is a more suitable time for the Western farmer, and I think if the farmers would refuse to sign a note calling for an earlier settlement than January 1 that the machinery firms would soon come to terms and accept that date.

Yellow Grass, Sask.

A PLEA FOR THE ELEVATOR OPERATOR

Editor, Guide:—Some months ago letters were sent to the different buyers to get their views about forming a "Proposed Elevator Agents' Union." As I am adverse to the idea of labor unions where it can be avoided did not reply to said letter. These last few months have seen additional reason for the necessity of something being done. Many elevator companies consider a buyer good and honest if he can bring his elevator through with a good surplus, while if he should be a few hundred bushels short he is considered a thief and a rogue and is handed over to the guarantee company who issued his bonds. There are many reasons for a buyer being short without the buyer being aware or responsible for it. First, as in this district the government scale inspector has not inspected the scales for two years. Second, in shunting cars they can start a leakage or the government weighers are only human and quite as likely to err as the elevator operator. If the elevator companies will not stand for any shortages, then surely they are not entitled to any surpluses when they occur. The government should pass an act for the conducting of a clearing house to adjust these shortages and surpluses. This would prevent the grain buyer from being branded as a thief and a rogue, when in probability they are at least fully as honest and capable as their employers. Have been a member of the Grain Growers' Association for about ten years and as they claim to stand for equity and justice, I would make a plea for the poor grain buyer, who must stand between the farmer and elevator company and is anxious to make an honest living. Cupar, Sask. I. S. BRICKN.

"A BY-WORD"

One of the evils of the national policy and the system of Protection has been here, as everywhere else, to lower the moral level of public life. I speak of this subject more in sorrow than in anger; but there is not a man who has in his bosom a patriotic heart who does not see with shame that the name of Canada has become a by-word for corruption among the civilized nations of the earth. —Sir Wilfrid Laurier, in 1893.

University of Manitoba

WINNIPEG

OFFERS courses leading to degrees in Arts, Science, Medicine, Law, Civil, Electrical and Mechanical Engineering and Architecture. The faculty consists of thirty-two professors, lecturers and demonstrators, and six colleges are affiliated. A wider range of courses is offered in Arts than ever before, also excellent course in Medicine, with facilities for clinical work that are surpassed in few institutions on the continent.

For terms of admission, details of courses, curricula of studies, information as to fees, etc., apply to
